

**Curriculum, Instruction, and Assessment  
Board Agenda  
Wednesday, May 15, 2024**

**PROFESSIONAL DEVELOPMENT**

- Teachers will receive 6 professional learning hours this summer for meeting in content areas and/or grade levels and revising and updating curriculum documents.
- A focus for the summer learning will be Tier II vocabulary and implementing explicit instruction practices into our curriculum.

**ASSESSMENT**

- LES and DHS completed the KSA assessment last week. I am hopeful at the time of our board meeting that all testing is complete.
- We are hopeful to offer the District ACT again next year. ACT changed district testing to include only freshmen and sophomores.
- The third round of STAR testing has been completed at both buildings.
- AIMSweb testing has been completed at LES.

**FEDERAL PROGRAMS**

- Declaration of Participations were due for Title III and IV.
- I have been in contact with the private school principals about Title I funds.

**APPTGY**

- I have been working with Casey and Apptegy to build our new website and APP.
- We met this week with Apptegy to go over how to share media.
- We have a meeting next week and soon we will be bringing in other people that will be sharing data on our sites: District Staff, Principals, and Athletic Director.
- We will be going from three different Facebook pages to just our district Facebook page. We will begin communicating this out through our Facebook pages beginning in mid-June.
