School Resource Officers (SROs)

DEFINITION

- (a)
 1. A sworn law enforcement officer [certified under KRS 15.380 to KRS 15.404](#); or
 2. A special law enforcement officer appointed pursuant to KRS 61.902 [and certified under KRS 15.380 to KRS 15.404](#); or
 3. A police officer appointed as a certified SRO; and
- (b) Employed:
 1. Through a contract between a local law enforcement agency and a school district;
 2. Through a contract as secondary employment for an officer, as defined in KRS 16.010, between the Department of Kentucky State Police and a school district; or
 3. Directly by a local Board of Education.¹

Formatted: Indent: Left: 0.5", Hanging: 0.19"

PURPOSE

The purpose of the SRO program is to: promote and foster a safe environment in schools, at school-sponsored events, and on school transportation; provide a law enforcement presence on school property and at school-sponsored events; enhance educational programs relating to safety and positive behaviors; and provide a liaison to community and law enforcement agencies. The purpose of the program is not to enforce or administer matters of school discipline and student conduct which are the responsibility of other District or school personnel.

ROLES AND EXPECTATIONS

- An SRO will have such training, certification, and commission as is required by provisions of KRS Chapters 15, 61, and 158. Per KRS 158.4414, an SRO who fails to successfully and timely complete SRO training requirements shall lose his/her SRO certification and shall no longer serve in the capacity of an SRO in a school. An SRO is also expected to obtain training on the use of physical restraint and seclusion as required of all school personnel except additional training applicable to "core team" school personnel designated to respond to dangerous behavior.²
- An SRO is vested with law enforcement jurisdiction and authority as described in KRS 61.902 to KRS 61.930 and other applicable law, including, but not limited to, investigating and responding to possible criminal offenses and to health or safety threats to students or school personnel.

School Resource Officers (SROs)**ROLES AND EXPECTATIONS (CONTINUED)**

- As authorized under the Family Educational Rights and Privacy Act (“FERPA”), SROs are designated as the District’s “law enforcement unit” possessing the law enforcement authority and exercising safety and security functions described in state law and referenced above. Records created and maintained by an SRO for a law enforcement purpose do not constitute education records under FERPA.³ District staff other than law enforcement personnel are not responsible for the creation of law enforcement records and are expected to observe restrictions on access to such records. An SRO is expected to provide guidance and insight to District officials and staff on such restrictions.

NATURE OF EMPLOYMENT

An SRO who is directly employed by the District is a classified employee. An SRO is therefore generally covered by District classified employee policies, including, but not limited to, policies regarding terms and conditions of employment; fringe benefits; employee discipline; and reductions in force.⁴ However, as applied to an SRO, such general District classified employee policies may be subject to the terms of his/her contract with the District; his/her job description; and his/her authority to carry out certain law enforcement functions as permitted by law, including, but not limited to, statutory provisions permitting officers to carry and use weapons.⁵

ASSIGNMENT

~~By August 1, 2022, the~~ The Board shall ensure, for each campus in the District, that at least one (1) certified SRO is assigned to and working on-site full-time in the school building or buildings on the campus. If sufficient funds and qualified personnel are not available for this purpose for every campus, the Board shall fulfill the requirements on a per campus basis, as approved in writing by the State School Security Marshal, until a certified SRO is assigned to and working on-site full-time on each campus in the District.

TRAINING REQUIREMENTS

~~All School Resource Officers (SROs)~~ with active SRO certification shall successfully complete forty (40) hours of annual in-service training that has been certified or recognized by the Kentucky Law Enforcement Council for SROs. Any SRO who fails to successfully complete training requirements within the specified time periods, including approved extensions, shall lose his/her SRO certification and shall no longer serve in the capacity of an SRO in a school.

FIREARM REQUIREMENT

Each SRO shall be armed with a firearm, notwithstanding any provision of local board policy, local school council policy, or memorandum of agreement.⁶

SUPERINTENDENT TO REPORT

No later than November 1 of each year, the Superintendent shall report to the Center for School Safety the number and placement of SROs in the District. The report shall include the source of funding and method of employment for each position.

School Resource Officers (SROs)**GUARDIANS**

Beginning with the 2025-2026 school year, the Board, if unable to meet the requirement for each campus in the District, that at least one (1) certified SRO is assigned to and working on-site full-time in the school building or buildings on the campus, may in consultation with and approval by the State School Security Marshal, employ one (1) or more Guardians to provide safety and security measures for schools within the District. The use of Guardians shall not be used to replace the certified SRO, but only to provide safety and security resources until a certified SRO is available.

Beginning with the 2025-2026 school year, the Board that has met the requirement for each campus in the District, that at least one (1) certified SRO is assigned to and working on-site full-time in the school building or buildings on the campus, may employ one (1) or more Guardians to provide additional school safety and security measures within the District.⁶

Conduct on Bus

DEFINITION

Unsafe conditions - Conditions that distract, or have the potential to distract, the driver or which, if permitted to continue, could lead to risk of injury to anyone on board the bus.

PRINCIPAL AUTHORITY

Consistent with the District Code of Acceptable Behavior and Discipline, the Principal/designee has authority to discipline pupils who ride school buses.

REPORTING OF VIOLATIONS

Bus drivers shall ensure that each bus rider receives a copy of the "Rider Rules", or its equivalent, on the first day the student rides the bus. Once riders are informed of pertinent rules and regulations, drivers shall enforce compliance and report continued serious violations to the Principal using the MISCONDUCT REPORT FORM ([written or electronically](#)). Reports shall be delivered to the Principal the next school day. [Drivers may file a written or electronic complaint or report of student misconduct \(06.34 AP.2\) including a recommendation to revoke transportation privileges. Drivers may be heard at any disciplinary hearing relating, at least in part, to misconduct that occurred during the operator's transportation of the student.](#)

REMOVAL OF STUDENTS FROM THE BUS

The driver is in charge of the bus, and his/her first responsibility shall be the safe transportation of the passengers. The driver is authorized to request that a student who is behaving in a threatening or violent manner or in such a way as to endanger the safety of other pupils on the bus be removed from the bus when the student cannot be corrected through oral instructions. A student removed from a bus shall be either returned to the school or to the central bus facility. Parents shall be notified to come to the appropriate location to pick up the student. The student may be transported home when parents do not have the ability to transport the student.¹ [Drivers shall only discharge students in compliance with Policy 09.2261.](#)

In the event that one or more pupils are behaving in such a way as to endanger the safety of other pupils on the bus and the risk of injury would likely be increased by continuation of the route or waiting for assistance, the driver is authorized to order the offending pupils from the bus. (Ejecting a pupil from the bus shall be done only in the most extreme emergency circumstances, and, if possible, only after receiving the proper authority to do so and only in a populated area.) If the driver was unable to reach the Superintendent or designee prior to removing the student, he/she shall notify the Superintendent or designee at the first reasonable opportunity. Also, at the first reasonable opportunity, the Department of Transportation shall notify the Principal of the school where the pupil attends and the student's parent or legal guardian of the removal.

Conduct on Bus**WITHHOLDING OF RIDING PRIVILEGES**

Students removed from a school bus for creating an unsafe condition may have their bus riding privileges withheld by the Principal for up to ten (10) days, depending upon the nature of the unsafe condition. The Principal shall notify the parents in cases where bus-riding privileges have been withheld. Drivers may, upon filing a written report to the Superintendent/designee, refuse future transportation to students in violation of the Code of Acceptable Behavior and Discipline until an interim or final determination of disciplinary action has been made.

The Superintendent or designee may withhold bus-riding privileges up to the remainder of the school year.

RESTITUTION OF DAMAGES

The parents or guardians may be held responsible for restitution of any damages, other than normal wear and tear, caused by a school bus rider.

STUDENTS WITH DISABILITIES

Misconduct by riders with identified disabilities shall be managed in accordance with the above provisions as modified by their Individual Education Plans (IEP) and/or 504 Plan and the legal obligations and standards adopted by the Board.²

"Harmful to Minors" Complaint Resolution Process

"HARMFUL TO MINORS"

Per KRS 158.192 "harmful to minors" means materials, programs, or events that:

- a) Contain the exposure, in an obscene manner, of the unclothed or apparently unclothed human male or female genitals, pubic area, or buttocks or the female breast, or visual depictions of sexual acts or simulations of sexual acts, or explicit written descriptions of sexual acts;
- b) Taken as a whole, appeal to the prurient interest in sex; or
- c) Is patently offensive to prevailing standards regarding what is suitable for minors.

COMPLAINT RESOLUTION PROCESS

This complaint resolution policy shall be used to address complaints submitted by parents or guardians alleging that material, a program, or an event that is harmful to minors has been provided or is currently available to a student enrolled in the District who is the child of the parent or guardian.

The complaint resolution process shall require that:

- a) Complaints be submitted in writing to the Principal of the school where the student is enrolled;
- b) Complaints provide the name of the complainant, a reasonably detailed description of the material, program, or event that is alleged to be harmful to minors, and how the material, program, or event is believed to be harmful to minors.

The appeal process is outlined in 08.23 AP.21/Complaint Resolution Process.

A parent or guardian may request in writing to the school, after final disposition is determined by the Board, that the school shall ensure his or her student does not have access to the material, program, or event that the parent or guardian believes to be harmful to minors but was allowed to remain or be eligible for future participation.

The school shall ensure that the student whose parent or guardian has made a request does not have access to the material or is not allowed to participate in the program or event that the parent or guardian believes to be harmful to minors.

A parent or guardian not having filed the appeal may request in writing access to the appealed materials, programs, or events for review and shall abide by the school's and District's policies and procedures when requesting and reviewing such information.

Complaints regarding other issues shall be submitted pursuant to other appropriate policies including but not limited to: Grievances; Harassment/Discrimination; Title IX Sexual Harassment; Review of Instructional Materials; and Citizen Suggestions and Complaints.

Students of Military Families

The following are key provisions that apply to students from military families that are based on the compact agreed upon by states belonging to the Interstate Commission on Educational Opportunity for Military Children:

ENROLLMENT

A child of a military family may pre-enroll or participate in pre-admission in the District if the parent or guardian of the child:

- a) Is transferred to or is pending transfer to a military installation or to a reserve component within the state while on active military duty pursuant to an official military order.
- b) Is returning to the state after within one (1) year of being separated from the military with an honorable discharge, discharge under honorable conditions, or a general discharge under honorable conditions.

The District shall accept an application for enrollment and course registration by electronic means for the child, including enrollment in a specific school or program within the District.

The District shall not require the parent or guardian of a child to appear in person for enrollment or course registration, including enrollment in a specific school or program within the District, when the parent/guardian is prevented from doing so due to official military duties.

Formatted: Indent: Left: 0"

The parent or guardian of a child of a military family shall provide proof of residence to the District within ten (10) days after the arrival date provided on official documentation. The parent or guardian may use, as proof of residence, military orders, or the address of:

1. A temporary on-post billeting facility;
2. A purchased or leased home or apartment;
3. Any federal government housing or off-post military housing, including off-post military housing that may be provided through a public-private venture; or
4. A home under contract to be built.

Until actual attendance or enrollment in the District, the child of a military family shall not:

1. Count for the purposes of average daily attendance; or
2. Be included in the state assessment and system.

To accommodate for temporary housing, if a child utilizes this section to enroll in the District, but the residence identified above has not yet become available, then the District shall allow the child to enroll and begin attending the District regardless of the child's temporary residence and subsequently be included in the District's calculation of average daily attendance under KRS 157.320, for a period of up to one (1) year from the parent's or guardian's reporting for duty date or separation date before being considered a resident of another District.¹

Students of Military Families**ENROLLMENT (CONTINUED)**

Students from a household of an active duty service member who are moving into the District shall be enrolled and appropriately placed as quickly as possible based on information provided in the student's unofficial records pending validation by the official record that the District shall request from the sending school.

Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent. A transitioning child of a military family who is placed in the care of a non-custodial parent or other person standing in loco parentis and living in a jurisdiction other than that of the custodial parent may continue to attend the school in which s/he was enrolled while residing with the custodial parent.

IMMUNIZATION REQUIREMENTS

Students from military families shall have thirty (30) days from the date of enrollment to obtain required immunizations or additional time as may be determined by the Interstate Commission Compact rules.

PLACEMENT

Kindergarten and first grade students from a household of an active duty service member moving into the District from an accredited school in another state shall be allowed to continue placement at their current grade level, regardless of age.

Decisions about placement of students from military families in educational programs shall be based on current educational assessments conducted at the sending school or participation/placement in like programs in the sending state. Such programs include, but are not limited to the following programs:

1. Gifted and talented; and
2. English as a second language (ESL).

This shall not preclude the District/school from performing subsequent evaluations to ensure appropriate placement of a student.

SPECIAL EDUCATION SERVICES

The District shall initially provide comparable services to a student with disabilities based on his or her current Individualized Education Program (IEP).

The District shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing Section 504 (Title II) Plan*, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

* In Kentucky, a student Title II Plan is the same as a Section 504 Plan.

Students of Military Families**DEPLOYMENT-RELATED ABSENCES**

Students whose parent or legal guardian is an active member of the uniformed services, as defined by this compact, and has been called to active duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the Superintendent to visit with their parent or legal guardian relative to such leave or deployment.

EXTRACURRICULAR PARTICIPATION

The District shall facilitate the opportunity for transitioning children of military families to participate in extracurricular activities to the extent they are otherwise qualified, regardless of application deadlines.

GRADUATION REQUIREMENTS

The District shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another school district or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the District shall provide alternative means of acquiring required coursework so that graduation may occur on time. Otherwise, the District shall ensure receipt of a diploma from the sending school district if the student completed graduation requirements of that district.

Exit exam scores from sending schools shall be accepted in accordance with the Interstate Commission Compact.

CHILDREN OF CIVILIAN MILITARY EMPLOYEES

Children of civilian military employees shall be afforded the same rights as children of military families under KRS 156.730 if the parents are required to move to perform their job responsibilities resulting in the students having to change schools.

Student Records

Data and information about students shall be gathered to provide a sound basis for educational decisions and to enable preparation of necessary reports.

PROCEDURE TO BE ESTABLISHED

The Superintendent shall establish procedures to promote effective notification of parents and eligible students of their rights under the Family Educational Rights and Privacy Act (FERPA) and to ensure District compliance with applicable state and federal student record requirements.

DISCLOSURE OF RECORDS

Student records shall be made available for inspection and review to the parent(s) of a student or to an eligible student on request. Legal separation or divorce alone does not terminate a parent's record access rights. Eligible students are those 18 years of age or older or those duly enrolled in a post-secondary school program. In general, FERPA rights pass to the eligible student upon either of those events. Parents may be provided access to the educational records of an eligible student 18 years old or older if the student is dependent under federal tax laws.¹

Upon written request, parents or eligible students may be provided copies of their educational records, including those maintained in electronic format, when necessary to reasonably permit inspection. Such copies shall be provided in a manner that protects the confidentiality of other students. A reasonable fee may be charged for copies.

District personnel must use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other parties to whom the District discloses personally identifiable information from education records.

In addition, considering the totality of the circumstances, the District may disclose information from education records to appropriate parties, including parents of eligible students, whose knowledge of the information is necessary to protect the health or safety of a student or another individual, if there is an actual, impending, or imminent articulable and significant threat to the health or safety of a student or other individual. In such instances, the basis for a decision that a health or safety emergency existed shall be recorded in the student's education records.

Authorized District personnel also may disclose personally identifiable information to the following without written parental consent:

- Officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll or is already enrolled, so long as the disclosure is for purposes related to the student's enrollment or transfer;
- Authorized representatives of a Kentucky state child welfare agency if such agency presents to the District an official court order placing the student whose records are requested under the care and protection of said agency. The state welfare agency representative receiving such records must be authorized to access the child's case plan.

Student Records**DISCLOSURE OF RECORDS (CONTINUED)**

- School officials (such as teachers, instructional aides, administrators, including health or medical staff and law enforcement unit personnel) and other service providers (such as contractors, consultants, and volunteers used by the District to perform institutional services and functions) having a legitimate educational interest in the information.

District and school officials/staff may only access student record information in which they have a legitimate educational interest.

Contractors, consultants, volunteers, and other parties to whom the District has outsourced services or functions may access student records provided they are:

- Under the District's direct control with respect to the use and maintenance of education records; and
- Prohibited from disclosing the information to any other party without the prior written consent of the parent/eligible student, or as otherwise authorized by law.

DISCLOSURE TO REPRESENTATIVES FOR FEDERAL OR STATE PROGRAM PURPOSES

Personally identifiable student information may be released to those other than employees who are designated by the Superintendent in connection with audit, evaluation, enforcement, or compliance activities regarding Federal or State programs. Such designation must be executed in writing with the authorized representative and specify information as required by 34 C.F.R. Part 99.35.

DUTY TO REPORT

If it is determined that the District cannot comply with any part of FERPA or its implementing regulations due to a conflict with state or local law, the District must notify the Family Policy Compliance Office (FPCO) within forty-five (45) days of the determination and provide the text and citation of the conflicting law.

DIRECTORY INFORMATION

The Superintendent/designee is authorized to release Board-approved student directory information. Approved "directory information" shall be: name, address, phone number, date and place of birth, student's school email address, major field of study, participation in officially recognized activities and sports, photograph/picture, grade level, weight and height of members of athletic teams, dates of attendance, degrees, honors and awards received, and most recent educational institution attended. Any eligible student or parent/guardian who does not wish to have directory information released shall notify the Superintendent/designee in writing within thirty (30) calendar days after receiving notification of FERPA rights.

Information about the living situation of a student designated as homeless is not to be treated as directory information and is not to be disclosed unless prior written consent is given or unless the information meets one of FERPA's exceptions to required consent. The living situation is not considered directory information.

The District allows for disclosure of directory information only to specific parties for specific purposes. Such limitations are specified in the student directory information notification.

Student Records**DIRECTORY INFORMATION (CONTINUED)**

Unless the parent/guardian or student who has reached age 18 requests in writing that the District not release such information, the student's name, address, and telephone number (if listed) shall be released to Armed Forces recruiters and institutions of higher education upon their request.

SURVEYS OF PROTECTED INFORMATION

The District shall provide direct notice to parents/guardian to obtain prior written consent for their minor child(ren) to participate in any protected information survey, analysis, or evaluation, if the survey is funded in whole or in part by a program of the U.S. Department of Education.

Parents/eligible students also shall be notified of and given opportunity to opt their child(ren) out of participation in the following activities:

1. Any other protected information survey, regardless of funding;
2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for any physical exam or screening permitted or required under State law; and
3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

Parents/eligible students may inspect, upon written request and prior to administration or use, materials or instruments used for the collection, disclosure, or use of protected information.

PPRA requirements do not apply to evaluations administered to students in accordance with the Individuals with Disabilities Education Act (IDEA).

STUDENTS WITH DISABILITIES

The District's special education policy and procedures manual shall include information concerning records of students with disabilities.

RECORDS RELEASE TO JUVENILE JUSTICE SYSTEM

Once a complaint is filed with a court-designated worker alleging that a child has committed a status offense or public offense, schools shall provide all records specifically requested in writing, and pertaining to that child to any agency that is listed as part of Kentucky's juvenile justice system in KRS 17.125 if the purpose of the release is to provide the juvenile justice system with the ability to effectively serve, prior to adjudication, the needs of the student whose records are sought. The authorities to which the data are released shall certify that any educational records obtained pursuant to this section shall only be released to persons authorized by statute and shall not be released to any other person without the written consent of the parent of the child. The request, certification, and a record of the release shall be maintained in the student's file.

Student Records**JUVENILE COURT RECORDS**

Records or information received on youthful or violent offenders shall not be disclosed except as permitted by law. When such information is received, the Superintendent shall notify the Principal of the school in which the child is enrolled. The Superintendent may designate an employee of the District to receive notices and carry out the Superintendent's responsibilities. The Superintendent/designee shall provide the clerk and the court-designated worker with notice of any designation and the name and contact information for the Superintendent's designee. The Principal shall then release the information as permitted by law. Only the Superintendent/designee and school administrative, transportation, and counseling personnel or teachers or other school employees with whom the student may come in contact, shall be privy to this information, which shall be kept in a locked file when not in use and opened only with permission of the administrator. Notification in writing of the nature of offenses committed by the student and any probation requirements shall not become a part of the child's student record. If the petition is dismissed or informally adjusted, the clerk shall notify the Superintendent or the Principal of the disposition, and all records of the incident or notification created in the District or the school shall be destroyed and shall not be included in the child's school records. For purposes of destruction, education records created by the school shall not be destroyed. The District or school may request a statement of facts from the county attorney in a juvenile case.²

Upon notification by the Commissioner of Education of a child's disappearance, the District in which the child is currently or was previously enrolled shall flag the record of such child in a manner that whenever a copy of or information regarding the child's record is requested, the District shall be alerted to the fact that the record is that of a missing child. Instead of forwarding the records of a child who has been reported missing to the agency, institution, or individual making the request, the District shall notify the Justice Cabinet.

COURT ORDER/SUBPOENA

Prior to complying with a lawfully issued court order or subpoena requiring disclosure of personally identifiable student information, school authorities shall make a documented effort to notify the parent or eligible student. In compliance with FERPA, notice to the parent is not required when a court order directs that disclosure be made without notification of the student or parent, or when the order is issued in the context of a dependency, neglect, or abuse proceeding in which the parent is a party. Bullying

In order to effectively participate in the democratic process as adults, students must learn to respect the rights of others and to interact with them in a civil manner. Therefore, students are required to speak and behave in a civil manner toward students, staff and visitors to the schools.

BULLYING DEFINED

Per KRS 158.148, "bullying" is defined as any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated or has the potential to be repeated:

1. That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event: or
2. That disrupts the education process.

This definition shall not be interpreted to prohibit civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.

These may include, but are not limited to, name calling, teasing, threatening, social exclusion, and cyberbullying. Bullying may be physical, verbal, emotional or sexual in nature.

HAZING DEFINED

Per KRS 508.180, "hazing" is defined as a direct action which substantially endangers the physical health of a minor or student for the purpose of recruitment, initiation into, affiliation with, or enhancing or maintaining membership or status within any organization, including but not limited to actions which coerce or force a minor or a student to:

- a) Violate federal or state criminal law;
- b) Consume any food, liquid, alcoholic liquid, drug, tobacco product, or other controlled substance which subjects the minor or student to a risk of serious physical injury;
- a) Endure brutality of a physical nature, including whipping, beating or paddling, branding, or exposure to the elements;
- b) Endure brutality of a sexual nature; or
- c) Endure any other activity that creates a reasonable likelihood of serious physical injury to the minor or student.

- ~~5. Consume any food, liquid, alcoholic liquid, drug, tobacco product, or other controlled substance which subjects the minor or student to a risk of mental harm or physical injury;~~
- ~~6. Endure brutality of a physical nature, including whipping, beating or paddling, branding, or exposure to the elements;~~

*Per KRS 508.180, “organization” is defined as a number of persons who are associated with a school or postsecondary education institution and each other, including a student organization, fraternity, sorority, association, corporation, order, society, corps, club, or similar group and includes any student organization registered pursuant to policies of the school or postsecondary education institution at any time during the previous five (5) years.

ACTIONS NOT TOLERATED

The use of lewd, profane or vulgar language is prohibited. In addition to bullying, students shall not engage in behaviors such as hazing, menacing, taunting, intimidating, verbal or physical abuse of others, or other behavior that disrupts a student’s access to an education or is harmful to his/her well-being.¹ This policy extends to any/all student language or behavior, on school premises, on school-sponsored transportation (per policies 06.34 and 09.2261), or at school-sponsored events including, but not limited to, the use of online or electronic methods. Such behavior is disruptive of the educational process and interferes with the ability of other students to take advantage of the educational opportunities offered.

These provisions shall not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions where the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others. Students who violate this policy shall be subject to appropriate disciplinary action.

Harassment/Discrimination allegations shall be governed by policy 09.42811.

Bullying**REPORTS**

As provided in the District Code of Acceptable Behavior and Discipline, students that believe they are victims of bullying/hazing shall be provided with a process to enable them to report such incidents to District personnel for appropriate action.

Employees are expected to take reasonable and prudent action in situations involving student welfare and safety, including following District policy requirements for intervening and reporting to the Principal or to their immediate supervisor those situations that threaten, harass, or endanger the safety of students, other staff members, or visitors to the school or District. Such instances shall include, but are not limited to, bullying or hazing of students and harassment/discrimination of staff, students or visitors by any party.

Students who believe they have been a victim of bullying or who have observed other students being bullied shall, as soon as reasonably practicable, report it.

The District Code shall specify to whom reports of alleged instances of bullying or hazing shall be made. In serious instances of peer-to-peer bullying/hazing/harassment, employees must report to the alleged victim's Principal, as directed by Board policy 09.42811. The Principal/designee shall investigate and address alleged incidents of such misbehavior.

In certain cases, employees must do the following:

1. Report bullying and hazing to appropriate law enforcement authorities as required by policy 09.2211; and
2. Investigate and complete documentation as required by policy 09.42811 covering federally protected areas.

Student Disciplinary Processes

This policy shall be used in conjunction with policies adopted by SBDM councils as per KRS 160.345. The council's discipline policies shall provide for involvement of parents in disciplinary situations involving their children.

GOOD DISCIPLINE AS ESSENTIAL

Good pupil discipline is essential to a good school program, and pupil self-discipline should be a primary aim. Without good discipline, school personnel cannot discharge their primary responsibility in the development of individual pupil potentials. Without good discipline, pupils will not realize their greatest potentials for growth.

MUTUAL TRUST AND RESPECT

Primary responsibility for classroom discipline shall rest with the teacher, and every teacher in the system should strive to maintain a classroom in which students are interested in learning and in which mutual trust and respect prevail.

USE OF OTHER PERSONNEL

Study of individual differences, conferences with student and parents, assistance from other teachers, the Principal, and support personnel should be used in helping a pupil improve behavior patterns which are retarding his/her own development or interfering with the rights of others.

SCHOOL-RELATED ACTIVITIES

The authority of the Board in matters of student behavior is not limited to school buildings and grounds or to times when the pupil is on his/her way to or from school, but extends to any activity which is school-related or school-sponsored, either on or off the school campus.

For further information concerning student disciplinary processes, refer to the Statement on Rights and Responsibilities and Student Code of Conduct.

TRAUMA-INFORMED APPROACH PLAN

"Trauma-informed approach" means incorporating principles of trauma awareness and trauma-informed practices, ~~as recommended by the federal Substance Abuse and Mental Health Services Administration,~~ in a school in order to foster a safe, stable, and understanding learning environment for all students and staff and ensuring that all students are known well by at least one (1) adult in the school setting.

The Board shall develop a plan for implementing a trauma-informed approach in the District. The plan shall be based on the Trauma-Informed Toolkit from [the Kentucky Department of Education \(KDE\)](#) and include but not be limited to:

- a) strategies for enhancing trauma awareness throughout the school community;
- b) conducting an assessment of the school climate including but not limited to inclusiveness and respect for diversity;
- c) developing trauma-informed discipline policies;

Student Disciplinary Processes

TRAUMA-INFORMED APPROACH (CONTINUED)

- d) collaborating with the Department of Kentucky State Police, the local sheriff, and the local chief of police to create procedures for notification of trauma-exposed students; and
- e) providing services and programs designed to reduce the negative impact of trauma, support critical learning, and foster a positive and safe school environment for every student.²

[The trauma-informed approach plan shall be reviewed and updated annually, incorporated into the annual Comprehensive District Improvement Plan \(CDIP\) required by 703 KAR 5:225, and submitted to the KDE.](#)

TREATMENT OF PUPILS

Discipline should not be administered in a manner that is humiliating, degrading, or unduly severe. Teachers should guard against making remarks to other pupils concerning a student's shortcomings. As stated in the Professional Code of Ethics for Kentucky School Certified Personnel, personnel are expected to:

1. Take reasonable measures to protect the health, safety, and emotional well-being of students; and
2. Refrain from subjecting students to embarrassment or disparagement.

Therefore, staff members shall not bully students. As referred to in this policy, bullying refers to intentional, repeated hurtful acts, words or other behaviors that involve an inappropriate and unprofessional imbalance of power. These may include, but are limited to, name calling, teasing, threatening, social exclusion, and cyberbullying. Bullying may be physical, verbal, emotional or sexual in nature.

JUVENILE COURT RECORDS

Unless an administrator or the Board acts under authority of KRS 158.150, no school, school administrator, teacher, or other school employee shall expel or punish a student based on juvenile court information received by the employee from any source. Administrators may act to protect staff and students when the student's conduct, as reflected by the information, indicates a substantial likelihood of an immediate and continuing threat of harm to students or staff. In cases where such actions are necessary, the following provisions shall apply:

1. Restrictions imposed on the student shall represent the least restrictive alternative available and appropriate to remedy the threat.
2. Supporting material shall be documented in and kept with the student's juvenile court record.
3. The student and/or parent/guardian may appeal actions to the Superintendent and/or to the Circuit Court with appropriate jurisdiction.¹

MINOR PROBLEMS

Minor or routine discipline problems should be handled by the classroom teacher and should be referred to the Principal (or appropriate administrator) only after efforts to alleviate the problem have failed and the teacher has had a private conference with the pupil.

Student Disciplinary Processes**SERIOUS PROBLEMS**

Serious disciplinary problems shall be promptly reported to the Principal and to the parent(s) of the student. If the teacher has not been successful in solving these problems, a conference should be arranged involving the Principal, the pupil, and the teacher. Written referrals shall be used if conferences are impractical.

REPORTING

Each school shall annually provide to the [KDE Department of Education](#), using the student information system, an assessment of school incidents relating to disruptive behaviors resulting in a criminal or juvenile status offense or public complaint, including whether:

1. The incident involved a public offense or noncriminal misconduct;
2. The incident was reported to law enforcement or the court-designated worker and the charge or type of noncriminal misconduct that was the basis of the referral or report; and
3. The report was initiated by a school resource officer.

CHILDREN AND YOUTH WITH DISABILITIES

Discipline for children and youth with disabilities shall observe, and be in conformity with, federal and state procedures and guidelines.

Expulsion

BOARD MAY EXPEL

The Board may expel or extend the expulsion of any student from the regular school setting for misconduct as defined by law. Provision of educational services will be required unless the Board determines, on the record and supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed in a state-funded agency program.¹

The Board shall require the expulsion from school for a period of at least twelve (12) months for a student who is determined by the Board:

1. Through clear and convincing evidence to have made threats that pose a danger to the well-being of students, faculty, or staff of the District;
2. To have brought a weapon to a school under its jurisdiction per Board Policy 05.48.

The Board may expel a student for longer than twelve (12) months.

Behavior that may be determined to pose a threat shall include, but not be limited to, the physical assault, battery, or abuse of others on or off school property (and the incident is likely to substantially disrupt the educational process); the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drug or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior that may endanger the safety of others.

The Superintendent shall present to the Board for its approval options for providing or ensuring that educational services are provided to expelled students.

In lieu of expelling a student, or upon the expiration of a student's expulsion, the Superintendent may place a student into an alternative program or setting if the Superintendent determines placement of the student in his or her regular school setting is likely to substantially disrupt the educational process or constitutes a threat to the safety of other students or school staff.

Except for extreme cases, a student shall be brought before the Board for expulsion only after reasonable efforts on the part of the school have failed. Such efforts shall include conferences involving the Principal or Associate Principal, teacher(s), parents and student, as well as the full use of guidance services and other appropriate social agencies.

Expulsion**HEARING AND RECORDS REQUIRED**

Action to expel, extend the expulsion, or place in an alternative program or setting a student shall not be taken until the parent, guardian, or other person having legal custody or control of the student has had an opportunity for a hearing before the Board.¹ The special education and disciplinary records of IDEA eligible students shall be sent to the Board for review before the decision is made to expel.³ If applicable, a bus driver shall have the opportunity to be heard at any disciplinary hearing against a student relating, at least in part, to misconduct that occurred during the operator's transportation of the student or to misconduct by the student's parent or guardian.

Within thirty (30) days prior to the end of a student's expulsion, the Board shall review the details of the expulsion and current factors and circumstances, including if ending the expulsion will substantially disrupt the education process or constitute a threat to the safety of students or school staff, to determine if the expulsion shall be extended for a period not to exceed twelve (12) months. The expulsion review process shall be used prior to the end of each expulsion period until the Board ends the expulsion or the student is no longer subject to compulsory attendance under KRS 159.010.

BOARD DECISION FINAL

The Board may establish an appeals committee and delegate authority to hear appeals to the committee. Otherwise, the Board's decision shall be final.¹

STUDENTS WITH DISABILITIES

In cases which involve students with disabilities, procedures mandated by federal and state law shall be followed. (Students with disabilities who are eligible for services under the law may be expelled for behavior unrelated to their disabilities, as long as legally required procedural safeguards are followed. Educational services must continue for IDEA eligible students who are expelled.)^{1&3}

TRANSFER OF RECORDS

Records transferred to another school must reflect the charges and final action of an expulsion hearing if the student was expelled for homicide, assault, or an offense in violation of state law or school regulations governing weapons, alcohol or drugs. DEVELOPMENT

I ~~adopt~~^{develop} a student Code of Acceptable Behavior and Discipline code, based on statewide student discipline guidelines provided by the Kentucky Department of Education (KDE), which shall be posted at each school, referenced in all school handbooks, and made available to school employees, parents, legal guardians, or other persons exercising custodial control or supervision. As required by KRS 158.148, a process shall be developed to provide information to those parties and to train employees.

The eCode shall prohibit bullying and establish standards of acceptable student behavior and discipline and may include District-wide standards of behavior for students who participate in extracurricular and cocurricular activities.

The eCode also shall include a process addressing how students can report eCode violations and incidents of bullying to District personnel for appropriate action and information regarding the consequences of bullying and violating the code and violations reportable under KRS 158.154, KRS 158.156, or KRS 158.444.

REVIEW

The Board shall update the student discipline eCode shall be reviewed at least every two (2) years by the discipline code committee with all amendments to be submitted for Board review.

REPORTING OF DATA

Data collected on an individual student committing a reportable incident shall be placed in the student's disciplinary record.

No later than August 1 of each year, the Board shall submit a report to the KDE that includes the number of:

- a) Behavior incidents for each tobacco product, alternative nicotine product, or vapor product, listed by school and grade; and
- b) Incidents for which medical intervention was provided, listed by school, grade and product.

Access to Technology Resources

(Acceptable Use Policy)

The Board supports reasonable access to various online and electronic resources for students, employees and the community and believes it is incumbent upon users to utilize these resources in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

SAFETY PROCEDURES AND GUIDELINES

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to technology resources. Guidelines shall address teacher supervision of student computer use and other user's use, ethical use of technology resources (including, but not limited to, the Internet, e-mail and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of or the use of programs and software with the potential of damaging or destroying programs or data.

Education is the most effective way to ensure appropriate use of the Internet and other electronic resources. Accordingly, all students and staff will successfully complete an age appropriate digital citizenship education program each year. ~~The digital education program must include Internet safety.~~

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking media sites and ~~through digital messaging as well as in chat rooms and~~ cyberbullying awareness and response.

Additional Internet safety measures, which shall apply to all District-owned devices with Internet access or personal devices that are permitted to access the District's network, shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate or harmful material on the Internet ~~and World Wide Web~~;
- Safety and security of users when they are using District provided or sponsored electronic mail, and other forms of electronic communications;
- Preventing unauthorized access, including "hacking" and other unlawful activities online;
- Unauthorized disclosure, use and dissemination of personal information; and
- Restricting access to materials or websites that may pose a threat to the District owned network and/or devices.

A technology protection measure may be disabled by the Board's designee during use by an adult to enable access for bona fide research or other lawful purpose.

The District shall provide reasonable public notice of, and at least one (1) meeting to address and communicate, its initial Internet safety measures.

Specific expectations for appropriate Internet use shall be reflected in the District's Acceptable Use Policy for staff and students.

The required permission/agreement form, which shall specify acceptable uses and rules of on-line behavior, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. This document shall be kept on file as a legal, binding document. In order to modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent or designee with a written request.

Technology-based materials, activities and communication tools shall be [approved by the District](#) and appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.

District employees and activity sponsors may set up [websites/blogs](#) and other social media accounts using District resources and following District guidelines to promote communications with students, families, and the community concerning school-related activities and for the purpose of supplementing classroom instruction.

Technology resources offering instructional benefits may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities.

In order for District employees and activity sponsors to utilize a social media site for instructional, administrative or other work-related communication purposes, they shall comply with the following:

1. Staff members will set up the site following any District guidelines developed by the Superintendent's designee.
2. Guidelines may specify whether access to the site must be given to school/District technology staff.
3. If written parental consent is not otherwise granted through AUP forms provided by the District, staff shall notify parents of the site and obtain written permission for students to become "friends" prior to the students being granted access. This permission shall be kept on file at the school as determined by the Principal.
4. Once the site has been created, the sponsoring staff member is responsible for the following:
 - a. Monitoring and managing the site to promote safe and acceptable use; and
 - b. Observing confidentiality restrictions concerning release of student information under state and federal law.

Access to Technology Resources

(Acceptable Use Policy)

EMPLOYEE USE (CONTINUED)

Staff members are discouraged from doing the following:

- Creating personal social networking sites to which they invite students to follow, be friends or interact; or
- Engaging in personal non-instructional interactions with students via technology or electronic resources.

Employees taking such actions do so at their own risk.

All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable policy, statutory or regulatory provisions governing employee conduct. The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well-being of students and confidentiality of student information. Conduct in violation of this Code, including, but not limited to, such conduct relating to the use of technology or online resources, must be reported to Education Professional Standards Board (EPSB) as required by law and may form the basis for disciplinary action up to and including termination.

COMMUNITY USE

Upon recommendation of the Superintendent/designee, the Board shall determine when and which computer equipment, software, and information access systems will be available to the community.

Upon request to the Principal/designee, community members may have access to the Internet and other electronic information sources and programs available through the District's technology system, provided they attend any required training and abide by the rules of usage established by the Superintendent/designee.

RESPONDING TO CONCERNS

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to technology or electronic resources.

AUDIT OF USE

Users with network access shall not utilize District resources to establish electronic mail accounts through third party providers or any other nonstandard electronic mail system.

The Superintendent/designee shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law, District Policy, or for accessing sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets requirements of Kentucky Administrative Regulations and that blocks or filters Internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors;
2. Maintaining and securing a usage log; and
3. Monitoring online activities of all users.

PENALTIES

Violations of this policy or refusal to sign required acceptable use documents may result in loss of access to school or District on-line communications. Additional penalties may be imposed against staff, including possible termination of employment. Additional penalties may be imposed against students according to the Student Code of Conduct. Teachers and other staff who supervise students shall report violations to the Principal.

RESPONSIBILITY FOR DAMAGES

Students or staff members who deface a District web site or otherwise make unauthorized changes to a web-site or other online technology resources or systems used by the District shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

Search and Seizure

REASONABLE SUSPICION (ADMINISTRATIVE SEARCH)

No pupil's outer clothing, pockets, or his or her personal effects (e.g., handbags, backpacks, etc.) shall be searched by authorized school personnel unless there is reasonable suspicion to believe the search will reveal evidence that the pupil has violated or is violating either a school rule or the law.¹ Search of a pupil's person shall be conducted only with the express authority of the Principal, Assistant Principal, or Principal's designee. However, nothing herein will preclude a student from being subjected to a fixed or handheld electronic screening detector. An affirmative signal or response from a detector will serve as reasonable suspicion for a more intrusive search.

AUTHORIZED PERSONNEL

Searches of a pupil's person or his or her personal effects shall be conducted only by a school official trained [on when administrative searches are appropriate by the FCPS Legal Department and on how to conduct a search](#) by the Department of Law Enforcement of the Fayette County Public Schools.

WITNESS/PERSONAL SEARCHES

When a pat-down search of pupil's person is conducted, the person conducting the search shall be the same sex as the pupil; and a witness of the same sex as the pupil shall be present during the search. In addition, no search of a pupil shall be conducted in the presence of other students.

These restrictions shall not apply to situations involving an imminent threat to students or staff where immediate action is required to prevent harm to health and safety.

STRIP SEARCHES

No strip searches of students shall be permitted. The phrase "strip search" means requiring a student to remove any article of clothing, or requiring a student to lift or lower an article of clothing, thereby causing the exposure of undergarments to allow for a visual inspection. The required removal of shoes, socks, or a hat or the removal or arrangement of outerwear does not constitute a strip search.

FAILURE TO COOPERATE

Students who fail to cooperate with school authorities when requested to shall be subject to other disciplinary action.

REGULAR INSPECTION

School property, such as lockers, desks, and network systems, technology resources and accounts owned or supplied by the District are jointly held by the school and the pupil. School authorities have the right to conduct general inspection of all such property and resources on a regular basis. During these inspections, items which are school property, such as overdue library books, may be collected. Students should not expect privacy for items and information left in such locations. A single desk, locker or a technology resource/account may be searched if reasonable suspicion exists to believe that evidence of a violation of the law or a school rule is contained therein.

Search and Seizure**ILLEGAL ITEMS**

Illegal items (e.g., weapons, drugs, etc.) or other possessions reasonably determined by proper school authorities to be a threat to the pupil's safety or to others' safety and security may be seized by school officials.

USE OF METAL DETECTORS

School administrators or designees trained in the equipment's use are authorized to use stationary or mobile metal detectors as provided for above. Metal detectors may be used in the following circumstances:

1. To search an individual student or his/her personal belongings when there is reasonable suspicion to believe the specific student is concealing a weapon.
2. To search all students or their personal belongings upon entering the premises.
3. To search students or their personal belongings on a random basis, provided adequate procedures are adopted and followed to ensure a random selection process.

Procedures setting guidelines for the use of metal detectors shall be developed and presented to the Board for review. All procedures for the use of metal detectors shall conform to applicable legal standards.² Students shall be notified that metal detectors may be used and the circumstances and procedures for their use.

OTHER DISRUPTIVE ITEMS

Items which may be used to disrupt or interfere with the educational process may be temporarily removed from the pupil's possession by a staff member. Such items may be returned to the pupil by the staff member or through the Principal's office.

DISPOSITION OF ITEMS

Items which have been seized shall be turned over to the proper authorities or returned to the true owner.

TRAINED DOGS

Law Enforcement Officers are authorized to arrange for the use of trained dogs to locate contraband (prohibited items) on property owned or controlled (i.e., used, leased, rented) by the Board of Education. Specifically, a minimum of two (2) such searches shall be conducted each year at each District middle and high school, pending availability of resources to conduct them. Searches shall be subject to the following conditions:

1. A District Law Enforcement Officer shall be present during any search.
2. The dogs shall not be used to search persons or items in their immediate possession.
3. The Department of Law Enforcement shall coordinate search activities with the school principal or designee.
4. The Department of Law Enforcement shall coordinate search activities with local law enforcement agencies for use of drug-detecting dogs.

Search and Seizure**TRAINED DOGS**

5. Searches involving dogs shall be conducted only when students are not in the immediate area being searched (i.e., students shall be in classrooms or other designated safe area when hallways are searched, and areas shall be cordoned off so that students and other individuals cannot get into the area being searched while a dog is being used); no student or other unauthorized individuals shall be in the vicinity of lockers or other areas of school property being searched.
6. All dogs shall be in the immediate control of a handler and shall not be allowed to come in close proximity to any student or unauthorized individual.
7. The alert of trained dog to an item or area shall qualify as reasonable grounds on which to base a further search.
8. All searches by a trained drug-detecting dog shall have the recommendation of the Director of Law Enforcement and prior approval of the Superintendent of Schools. The results of all searches by a trained drug-detecting dog shall be reported to the Superintendent, the School Director, and other appropriate officials by the Director of Law Enforcement.

SCHOOL LAW ENFORCEMENT OFFICERS

This policy has no application to searches by law enforcement officers employed by the Board since these persons are police officers with the power to investigate crime committed on school property and to arrest for same. The law of search and seizure, applicable to police officers generally, governs the extent of their authority to conduct searches of pupils and to seize contraband which might be revealed by such searches.
