INTRODUCTION

*** Health and safety processes and procedures may not be addressed explicitly in this Code but in the Mercer County Pandemic Plan. If the Mercer County Pandemic Plan is implemented, it will be posted to the district webpage: www.mercer.kyschools.us.**

CAUTION: After this Code is distributed for the school year, changes to Board policy, including those affecting provisions of this Code, may be necessary due to new/revised statutes, regulations, and case law. A complete copy of the Mercer County School Board Policy Manual is available online for inspection.

The Mercer County Board of Education believes a safe school is where students can learn, and teachers can teach in a warm, welcoming environment free of intimidation and fear. By implementing this code, a setting can be maintained where the educational climate fosters a spirit of acceptance and care for every child and where behavior expectations are communicated, consistently enforced, and fairly applied.

The Mercer County Board of Education requires high standards of personal conduct from each student to promote respect for the rights of others and to accomplish the purposes of the schools. The Board also requires compliance with established standards and rules of the district and the community, state, and national laws.

The central purpose of the school system is to educate each student to the highest level possible. To support the educational program's success fairly, the Board directs employees to hold each student accountable to Code standards. Compliance with the standards is necessary to provide:

- Orderly operation of the schools
- A safe environment for students, district employees, and visitors to the schools
- Opportunities for students to achieve at a high academic level in a productive learning environment
- Assistance for students at risk of failure or of engaging in disruptive behavior
- Regular attendance of students
- Protection of property

This Code applies to all students in the district while at school (in-person or online), on their way to and from school, while on the bus or other district vehicle, and while participating in school-sponsored trips and activities.

Consequences in this Code may apply to students who are off school property if the incident is likely to substantially disrupt the educational process. The superintendent/designee is responsible for its implementation and application throughout the District. The Principal is responsible for administering and implementing this Code within his/her school uniformly and fairly without partiality or discrimination. Each school/council must select and implement

appropriate discipline and classroom management techniques to carry out this Code. School handbooks shall list the school's rules and disciplinary procedures.

Teachers and other instructional personnel administer Code standards in the classroom, halls, and other duty assignment locations.

This Code establishes minimum behavior standards. Recognizing that each school, grade, or class may require special provisions, school councils, administrators, and teachers have full authority to make rules to enforce these standards in keeping with their areas of responsibility.

STATEMENT OF NONDISCRIMINATION

The Board of Education does not discriminate based on age, color, disability, parental status, marital status, race, national origin, religion, sex, genetic information, or veteran status in the programs, activities, and services it provides, as required by law. Individuals with questions about compliance with this requirement should contact the Mercer County School District Central Office. This Code is part of the Mercer County School Board policy on student behavior and discipline.

The Board has included samples of prohibited behaviors to help the reader understand how the behavior standards will be enforced. Other behaviors not included in the examples may also be banned.

Appropriate Behavioral Education Plan:

Mercer County Public Schools is committed to providing quality education for all students. Creating a community within our schools is essential where students' needs are met, expectations are understood, guidance is given, and a safe and orderly environment is maintained. This Code has been developed to help share our expectations with students and their families. Additionally, each school's Site-Based Decision-Making council has adopted school-specific Discipline, Classroom Management, and School Safety Policies. Each school principal and staff member implements these school council policies.

The Mercer County School District believes the greatest prevention tactic is to build relationships with parents and children from the beginning. The Mercer County School District has implemented Positive Behavioral Intervention Systems (PBIS) to include a trauma-informed approach. PBIS is the behavior component of a Multi-Tiered System of Support (MTSS) designed to achieve social and academic success

for all students. The framework of MTSS utilizes high-quality, evidence-based instruction, intervention, and assessment practices to provide all students with the instruction and support to match their needs. Each school has a team that implements this process in their buildings.

MTSS tiers of interventions:

- Tier 1 interventions refer to services all students receive in academic and social-emotional behavioral instruction.
- Tier 2 interventions are provided for students who need more student-specific instruction and support. These services may be provided in small groups in or out of the classroom. Tier 2 instruction and support aim to improve student performance and prevent negative learning and social development impacts.
- Tier 3 interventions provide intensive support matched to an individual student's specific needs. These services may be provided individually or in small groups. The purpose of Tier 3 instruction is to help students overcome significant barriers to learning the academic and/or behavior skills required for school success.

Duty to Report

Board Policy 09.227 and 09.2211; KRS 620.030, KRS 158.154 and KRS 158.155

Duty to Report Child Dependency, Neglect, or Abuse:

Any teacher, school administrator, or other school personnel who knows or has reasonable cause to believe that a child under age eighteen (18) is dependent, abused, or neglected, a victim of human trafficking, or is a victim of female genital mutilation, shall immediately make a report (either oral, written, or electronic) to a local law enforcement agency or the Kentucky State Police, the Cabinet for Health and Family Services or its designated representative, the Commonwealth's Attorney or the County Attorney in accordance with KRS 620.030. After making the report, the employee shall immediately notify the Principal and School counselor of the suspected abuse.

Only agencies designated by law are authorized to investigate a report of alleged child abuse. Therefore, the District shall not investigate a claim before an employee reports it to the proper authorities. However, in certain situations, reports involving claims made under state and federal laws, such as Title IX, shall require the District, after making the required report, to conduct an independent investigation of the allegations to determine appropriate personnel action.

Duty to Report Certain Acts to Law Enforcement/School Districts:

Any school employee who reasonably believes that a reportable violation occurred or who receives a report from a student or other person is required to immediately report the violation to law enforcement officials (district law enforcement, local law enforcement, or Kentucky State Police).

The following requires a report to law enforcement officials

- Assault resulting in serious physical injury
- A sexual offense
- Kidnapping
- Assault involving the use of a weapon
- Possession of a firearm in violation of the law
- Possession of a weapon or dangerous instrument (Including look-a-like)
- Possession of a controlled substance in violation of the law
- Damage to school property
- Threat or plan of violence that is intended to target a school or students or who knows that a firearm is present on school property in violation of KRS 527.070.

*In addition to violations of this Code, students may also be charged with criminal offenses.

KRS 158.156

Any employee of a school or a local Board of Education who knows or has reasonable cause to believe that a school student has been the victim of a violation of any felony offense specified in KRS Chapter 508 (Assault-Wanton Endangerment-Terroristic Threatening, Criminal Abuse, etc.) committed by another student while on school premises, on school-sponsored transportation, or at a school-sponsored event shall immediately cause an oral or written report to be made to the Principal of the school attended by the victim. The Principal shall notify the parents, legal guardians, or other persons exercising custodial control or supervision of the student when the student is involved in an incident reportable under this section. The Principal shall file a written report with the local school board and the local law enforcement agency, the

Department of Kentucky State Police, or the county attorney within forty-eight (48) hours of the original report.

Domestic/Dating Violence Reporting and Education:

Upon the request of a victim, school personnel shall report an act of domestic violence and abuse or dating violence and abuse to a law enforcement officer. School personnel shall discuss the report with the victim before contacting a law enforcement officer.

School personnel shall report to a law enforcement officer when s/he has a belief that the death of a victim with whom they have had a professional interaction is related to domestic violence and abuse or dating violence and abuse.

These reporting requirements covering domestic violence and abuse or dating violence and abuse do not relieve school personnel of the duty to report any known or suspected abuse, neglect, or dependency of a child under KRS 620.030. This separate reporting requirement covers abuse, neglect, or dependency of a child committed or caused by a parent, guardian, other person exercising control or supervision, or a person in a position of authority or special trust.

If individual school personnel has reasonable cause to believe that a victim with whom s/he has had a professional interaction has experienced domestic violence and abuse or dating violence and abuse, s/he shall provide educational materials to the victim relating to such form(s) of abuse and including information on access to regional domestic violence programs or rape crisis centers and how to access protective orders. These materials shall be made available to school personnel in print form or on the web by the primary domestic violence, shelter, and advocacy service provider designated by the Cabinet for Health and Family Services to serve the school District's area.

REQUIRED STANDARDS

The Board expects employees, students, parents/guardians, and others associated with the schools to apply the following standards reasonably and fairly:

To promote the full implementation of conduct standards and maximize safety in the school environment, the Board requires employees to supervise students at all school activities as a top priority among their assigned duties. (The younger the child, the greater the need for adult guidance and protection)

Supervision of student conduct (KRS 161.180): Each teacher and administrator in the public schools shall, in accordance with the rules, regulations, and bylaws of the Board of Education made and adopted pursuant to KRS 160.290 for the conduct of pupils, hold pupils to a strict account for their conduct on school premises on the way to and from school and school-sponsored trips, on school buses, and activities.

- Students will be under the supervision of a qualified adult.
- Each teacher, bus driver, staff member, and administrator shall hold pupils to a strict account for their conduct on school premises(in person and while participating in online/virtual instruction), on the way to and from

school, and on school-sponsored trips and activities, except that a non-faculty coach or non-faculty assistant may accompany students on athletic trips as provided in the statute.

Supervision Responsibility:

Principals shall develop and implement a plan of supervision for their schools to address the following areas:

1. Bus loading and unloading;
2. Meals;
3. Halls, restrooms, and playgrounds;
4. Time before and after the school day; and
5. Field trips and other school activities.

**Before school opens each year, the Principal shall submit the plan to the Superintendent/designee for review and to the Board for approval.*

ACCESS TO SCHOOL PROPERTY DURING THE SCHOOL DAY:

Unless they are authorized visitors, only those students enrolled in the District and on the property for an official school purpose, such as receiving instruction or participating in a school-sponsored extracurricular activity, shall be permitted on the property during the school day. If a student placed on home/hospital instruction wishes to come onto the property during the school day, the student shall first go to the Principal/designee, seek permission to be on the property, and check in. Permission may be granted for the student to be on school property if the purpose relates to the student's educational needs that cannot be accomplished outside of school hours, and the student remains on the property only for the time needed to achieve that purpose. This requirement is necessary to address students' supervision and safety concerns on the property during the school day.

Physical Restraint: Employees are authorized by law to physically restrain students as necessary for the following reasons: the student's behavior poses an imminent danger of physical harm to self or others and as permitted under KRS 503.050, KRS 503.070 and KRS 503.110; b) the physical restraint does not interfere with the student's ability to communicate in the student's primary language or mode of communication, unless the student uses sign language or an augmentative mode of communication as the student's primary mode of communication and the implementer determines that freedom of the student's hands for brief periods during the restraint appears likely to result in physical harm to self or others; c) the student's physical and psychological well-being is monitored for the duration of the physical restraint; d) less restrictive behavioral interventions have been ineffective in stopping the imminent danger of physical harm to self or others, except in the case of a clearly unavoidable emergency situation posing imminent threat of physical harm to self or others; and e) school personnel implementing the physical restraint are appropriately trained as required by Section 6(3) of the regulation, except to the extent necessary to

prevent physical harm to self or others in clearly unavoidable emergency circumstances where other school personnel intervene and summon trained school personnel as soon as possible.

CONSEQUENCES FOR VIOLATIONS:

School personnel are encouraged to use various behavioral supports to help students self-regulate their behavior and to pre-empt student misconduct wherever possible. When it is evident that these supports have failed to prevent inappropriate or unacceptable behavior, prompt, corrective action must be taken as defined herein. Students and parents/guardians can expect to be treated reasonably, fairly, and consistently whenever action is taken by school personnel to address student Code of conduct violations.

Behavioral violations of a minor nature should be handled by the **classroom teacher**, who may choose from a variety of response options to include, but not limited to:

- Loss of privileges
- Assigned seats
- Student Conference/ Parent Conference
- Detention
- Referral for counseling/mediation
- Verbal warning
- Other techniques established by the school handbook/council policy

For repeated or more serious violations, below are examples of consequences administrators may use but are not limited to

- Suspension (up to 10 days)
- In School Suspension
- Charges filed in court (Petition to juvenile court)
- Charges filed in court (Petition filed with the adult court)
- Verbal warning
- Teacher-student conference
- Notification of parents/ Parent conference
- Alternative Placement assignment
- Classroom isolation (removal of recess/lunch detention)
- Behavior contract
- Referral to police
- Referral to court-designated worker
- Refer to Board for Expulsion
- Discipline Committee Meeting or placement in Alternative Program
- Expulsion
- Removal

***The Board does not permit corporal punishment as a disciplinary technique.**

***SUSPENSION OF PRIMARY SCHOOL STUDENTS** shall be considered only in exceptional cases where the superintendent or designee determines that there are safety issues for the child or others.

***EXPULSION OF STUDENTS (See Board policy 09.435 for additional information)**

The Board may expel or extend the expulsion of any student from the regular school setting for misconduct as defined by law. Provision of educational services will be required unless the Board determines, on the record and supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed in a state-funded agency program.

The Board shall require the expulsion from school for at least twelve (12) months for a student whom the Board determines:

1. Through clear and convincing evidence to have made threats that pose a danger to the well-being of students, faculty, or staff of the District;
2. To have brought a weapon to a school under its jurisdiction per Board Policy 05.48.

The Board may expel a student for over twelve (12) months.

Behavior that may be determined to pose a threat shall include, but not be limited to:

- Physical assault
- Battery
- Abuse of others on or off school property (and the incident is likely to substantially disrupt the educational process)
- The threat of physical force
- Being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drugs or alcohol.
- Carrying, possessing, or transfer of weapons or dangerous instruments
- Any other behavior that may endanger the safety of others

The Superintendent shall present to the Board its approval options for providing or ensuring that educational services are provided to expelled students.

Alternative Program: In lieu of expelling a student or upon the expiration of a student's expulsion, the Superintendent or designee may place a student into an alternative program or setting if the Superintendent determines that placing the student in his or her regular school setting is likely to substantially disrupt the educational process or constitute a threat to the safety of other students or school staff. This program is for middle and high school students to meet student needs that cannot be addressed in a traditional classroom setting by assigning students to alternative classrooms, centers, or campuses designed to remediate academic performance, improve behavior, or provide an enhanced learning experience.

How to Report Code Violations:

Methods to Report Violations of the Code of Conduct (Including Harassment/Bullying):

- Anonymously through the S.T.O.P. bullying hotline to eliminate the potential for retaliation. These tips are emailed directly to school administrators and the Safe Schools coordinator.
- In-person, by email, or by a written statement to the School building administrator, Safe Schools Coordinator, or Superintendent. If an incident is reported to a teacher, the teacher will share that information with school administrators so they can investigate the report. Following the administrator's investigation, bullying/ harassing behaviors will be addressed with all students

involved. *Additionally, if sexual discrimination or harassment is alleged, reports may be made directly to the District Title IX Coordinator.

Any school personnel may submit an Office Discipline Referral to the school-level administrator or, in certain circumstances, the Safe Schools Coordinator or Title IX Coordinator.

The District has provided the S.T.O.P Safety Tip line so that students may report issues anonymously and avoid retaliation. This "TIPLINE" is not for immediate response. If you need immediate assistance, dial 911.

How does it work?

***Click logo** on your district's webpage: www.mercer.kyschools.us

***Choose** whether you want to submit a tip about 1) bullying, 2) violence or 3) other risky behaviors (i.e. alcohol, drugs, self-harm, sexual abuse or theft, etc...)

***Fill-in** the check boxes and explain

Student Due Process Rights: Procedures for Identifying, Documenting, and Reporting Violations

RIGHT TO DUE PROCESS

Once a code violation has been received, the school administrator (or, in certain cases, the district administrator) will investigate. During the investigation, the administrator will attempt to maintain student confidentiality to avoid the potential for retaliation. Employees and other students shall not retaliate against a student because he/she reports a violation of the Code or assists or participates in any investigation, proceeding, or hearing regarding the violation. The Superintendent or Designee shall take measures to protect students from such retaliation.

STRATEGIES TO ADDRESS PROTECTION FROM RETALIATION MAY INCLUDE BUT ARE NOT LIMITED TO:

- During the investigation, students and parents will be informed of the definition of retaliation.
- Consequences for retaliation will be explained to students and parents.
- Alleged victims of the incident and parents/guardians will be informed to report to school officials or law enforcement (if necessary) if they feel threatened.
- Additional measures for students may be taken by the administration as deemed appropriate.

RETALIATION PROHIBITED

REPORTING: Students who believe they are the victims of “retaliation” to report incidents immediately. Students and parents of students may report a violation as outlined below:

- Report it to a teacher or counselor. The teacher or counselor will address the situation and/ or report it to the Principal or designee for further action.
- Report it directly to the Principal or Assistant Principal. Students or parents may also report bullying or hazing to their school's principal or assistant principal. The Principal designee shall investigate to determine further action.
- Report it to the District-Level Safe Schools Coordinator. A student or parent may report bullying/hazing directly to the Safe Schools Coordinator, who will work with the student, parent, and school administration to investigate and determine further action.

The administrator will interview students and staff to determine if there is reasonable evidence of the code violation. The student accused of violating the Code will be interviewed and allowed to present information to the administrator for consideration before a determination is made. If the administrator determines that this Code has been violated, the administrator will issue school consequences. Documentation of the violation and resulting administrative action will be indicated on the office discipline referral form, sent home to families with the student, and entered into the Kentucky Student Information Systems database (Infinite Campus). The referral is available upon request to the appropriate teachers, administrators, counselors, the student, or the parent according to the provisions of FERPA.

The principal or his/her designee administers disciplinary action for students. For some Code violations, charts have been developed to help administrators determine an appropriate school consequence. For other violations, see Appendix 1 for potential consequences.

ATTENDANCE:

Pupils are required to have regular and punctual attendance. Absences and tardies shall be recorded in compliance with the requirements of 702 KAR 7:125. Students who do not attend the sessions will be

considered absent. Online Academy students have the same parent notes and other excused absence notes as students attending school in person.

SCHOOL HANDBOOKS: EACH SCHOOL HANDBOOK SHALL INCLUDE SPECIFIC ATTENDANCE REQUIREMENTS.

GOOD ATTENDANCE IS THE KEY TO STUDENT SUCCESS IN SCHOOL

It is more important NOW than ever to have a good education...

One key aspect of obtaining a good education is good attendance in school.

Research has shown students who attend school regularly demonstrate:

- A strong correlation between a strong attendance record and a higher grade point average
- Higher levels of academic achievement than students who are frequently absent
- Stronger bonds to the school and community
- Lower rates of delinquent and high-risk behavior
- Increased participation in higher education or job-related success

Research has shown that high rates of absenteeism result in:

- Lack of educational engagement
- Lack of participation
- Behavior problems
- Falling behind in classwork or credits
- Inability to keep up with their school work; for every missed day, it takes students two days to catch up since they must make up missed learning and catch up with new learning simultaneously (U.S. Dept. of Education)
- Being absent means that children miss the social side of school life, which can affect their ability to make and keep friends and work alongside people later in life.
- Increased risk of failing, retention, and dropping out later in school

HOW PARENTS ENCOURAGE, PROMOTE, & ENSURE REGULAR SCHOOL ATTENDANCE

- Make attendance and academics a priority.
- Make medical and other appointments during non-school hours whenever possible. Take advantage of the District's Nurse Practitioner. She can see your child at school and, if necessary, call in a prescription to your pharmacy.
- Schedule family vacations during school breaks so students are not missing important lessons. If this is not possible, contact the school to see if this may qualify as an Educational Enhancement Opportunity (EHO).
- Communicate with school staff. Let the school know in advance if your child is going to be absent or if you have concerns about your child's attendance or school performance.
- Develop a routine where children have their homework done, classroom material together, and their bags packed the night before.
- Set reasonable bedtimes. On average, school-aged children need about nine hours of sleep to be healthy and alert. As they move into their teen years, children's brains begin to signal them to stay up later and to sleep in later the next day. Despite what nature tells them, reinforce reasonable

bedtimes for your children and encourage them to get up and ready on their own.

- High School Age- High school attendance prevents school failure and reduces dropout rates. It also demonstrates to potential employers that your child is reliable.

95-100% Attendance Goal for all Students:

A student should have no more than 7 or 8 total absences for the year.

Kindergarten through 12th Grade

Good School Attendance Student Success in the Classroom

- **EHO (Enhanced Educational Opportunity)** Students may be excused for up to 10 days per year for educational activities. This application form (09.123 AP.2) must be completed and returned to your school Principal at least five (5) days before the absence. The principal then determines whether the absence is educationally relevant and approves it. A student may be approved for up to ten (10) days of absence per year. This absence cannot occur during the school's state testing or district-wide assessments.
- **Home/Hospital-** If a student is anticipated to be absent for five days or more due to surgery, medical procedure, accident, serious illness, or medical-related long-term absence, they are eligible to complete a home/hospital application for a service request for home/hospital instruction. Home/Hospital is designed for short-term instructional delivery options only. Students on home/hospital for longer than ten days are not eligible for school extracurricular events and activities. Students are not eligible for home/hospital if they have a job. See school handbooks for additional policies regarding home/hospital. If a student is in the home/hospital longer than ten days, they have lost privileges to all extracurricular and school activities. If a parent believes there are special circumstances, they may seek an appeal through the home/hospital school committee, which reviewed the original home hospital application.
- **Excused Absences for Medical, Mental, or Behavioral Health: TEN NOTE Limit for the Year-** Medical/Mental/Behavioral Health Notes are limited to ten (10) per year. In special circumstances, or as deemed necessary by a chronic health situation, additional days may be granted after a form is completed by your family physician for doctor/medical excuses with medical documentation and principal/designee approval. (Note: The ten (10) note limit does not apply to IEPs or 504s where medical documentation regarding the chronic health issues has been provided and approved and is on file at the school)
- **After-School Appointments**—Parents, staff, and students are encouraged to make doctor, dental, optometrist, or orthodontist appointments after school or on the days of the school breaks unless the appointment is related to an immediate health need.
- **Absences & Written Documentation-** Always provide written documentation for any absence. **Email and Faxed notes are also accepted.** **Written Documentation-** Every time your child is tardy, checks out early or is absent, **you are encouraged to send a note on the day of the student's return to school.** There is a 5-day grace period to submit the documentation.
- **Six Parent Absent Excuse Limit for the Year:** Mercer County School District allows six (6) parent excused absences for the year. If a student is already a habitual truant, as defined by Kentucky statutes, this automatically revokes the use of any parent notes.

- **Parent-Excused Tardy**—Mercer County School District allows six (6) parent-excused morning and/or afternoon tardies per year.
- **Parent Excuse Absences Can Be Revoked**- Once a student has six parent excused absences or has already become a habitual truant as defined by Kentucky statutes, all subsequent absences will require a medical statement.
- **Unexcused Absences**—Once a student has six (6) unexcused absences, he/she is a habitual truant as defined by Kentucky statutes. If a student is already a habitual truant, as defined by Kentucky statutes, this automatically revokes the use of any parent excuses.
- For absences and tardies without written documentation, a Parent Excuse will be used to excuse the absence/tardiness if these are available. If the limit of six (6) parent excused absences/tardies has been reached, the absence/tardy will be considered unexcused.

Checking in and Checking Out of School

- **Checking in Students**- Parents must come into the building, sign the student in, and provide written documentation explaining the reason for the absence. A parent's excuse or doctor's excuse and signing a log are required. For absences and tardies without written documentation, a Parent Excuse will be used to excuse the absence/tardiness if these are available. If the limit of six (6) parent excuse absences/tardies has been reached, the absence/tardy will be considered unexcused.
- **Checking Out Students**—Parents must come into the building to check out students, sign the log, and provide written documentation explaining the reason for the checkout. If someone other than the parent will be checking out a child, a written note authorizing one of the individuals on their check-out list must be received in the office the morning of the check-out, with a number to reach the guardian to verify the check-out. In case of an emergency or extenuating circumstance, contact the principal, and authorization for the check-out may be granted through the office of the Principal.
- **Student Drivers**- Student drivers must have a written note from the parent on the morning of the check-out. A parent/guardian phone number where they can be reached must be included in the note.

ATTENDANCE- KENTUCKY COMPULSORY ATTENDANCE LAW

The State of Kentucky requires the Mercer County School System to enforce compulsory attendance (KRS 159.150).

Kentucky Compulsory Attendance Law (KRS 159.150) states that any student between the ages of six and twenty-one who has been **absent from school without a valid excuse** for three days or more or **tardy without a valid excuse** for three days or more is a truant. A student who has been reported as a truant two (2) or more times (six incidents) is a Habitual Truant under KRS 159. 150.

HABITUAL TRUANCY CHARGES FILED ON PARENTS

A charge of “**unlawful transaction with a minor in the third degree**” (KRS 530.070) may be filed on parents/guardians whose child is a habitual truant. This is a criminal charge, and the parents will appear in District Court (not juvenile court). If guilty, the parents can serve 90+ days in jail and/or pay a fine.

HABITUAL TRUANCY- CHARGES FILED ON STUDENTS

In addition to the above, middle school and high school students who are habitual truants will have charges filed against them individually. These students and their parents must meet with the Court Designated Worker (CDW),

who will refer them to juvenile court. Students who are 18 years old will have Truancy charges filed against them in District Court.

HABITUAL TRUANCY- ADDITIONAL CHARGES FILED ON PARENTS

A second charge of educational neglect or unlawful transaction with a minor may be filed against their parents/guardians for habitual truants.

PARENT PORTAL: We encourage all parents to sign up for the parent portal and communicate regularly with their child's school.

This form is required **ONLY** after ten (10) medically excused absences or tardies or for reoccurring appointments. This form must be completed and turned in on the student's return to school. There is a 5-day grace period to submit the documentation, but after five (5) days, it will be counted as unexcused. **PARENTS/(STUDENTS): PLEASE TAKE THE STUDENT'S ATTENDANCE PROFILE TO THE DOCTOR WITH YOU SO IT MAY ASSIST THE PHYSICIAN IN DETERMINING HOW MUCH THE ILLNESS & RELATED ABSENCES ARE IMPACTING THE CHILD'S REGULAR ATTENDANCE IN SCHOOL**

Release of Information: I authorize this healthcare provider to release the information requested for my child listed above on this form. I understand that this is a reciprocal release between the medical/mental healthcare provider listed below and Mercer County School employees to share educational information regarding school services (special educational services, 504 plans, G/T records, psychological testing, counseling issues, etc.), absences, grades, behavior, and medical information that are related to school absences in the hopes of preventing chronic absenteeism and improving school attendance. The information

shared between the school and medical health care provider will remain confidential between the two parties unless the information is pertinent to the student's educational services, the safety of the student listed, or others.

RANDOM DRUG TESTING PROGRAM

The Mercer County Board of Education has approved a Random Drug Testing Policy for both students (in-person and virtual) along with all staff (certified & classified). This policy is intended to support the comprehensive educational policies and programs of the District in educating students, parents/guardians, as well as staff about the dangers inherent in the unlawful use of drugs. This policy is further intended to provide encouragement to middle and high school students who voluntarily choose to participate on athletic teams, in extracurricular activities, and/or to drive or park on school property to avoid such use and to strive to benefit from effective rehabilitation when such use has occurred. All policies and procedures can be viewed on the [mercerc.kyschools.us](https://www.mercer.kyschools.us) website: <https://www.mercer.kyschools.us/random-drug-testing>. If you need a hard

copy of the form, please contact the Mercer County Drug Testing Coordinator or the Director of Pupil Personnel.

SEARCH AND SEIZURE

Students have the right to be secure from unreasonable searches of their persons and property. However, school authorities are authorized to search a student if they have reasonable suspicion that the search will reveal evidence that the student has violated or is violating this Code, a school rule, or the law. Also, school authorities may conduct general inspections of jointly-held property regularly. All searches will be conducted according to Board policy. Students cannot expect complete privacy when using school property assigned for their use, such as desks, lockers, Internet, or Google Drive.

Search and Seizure- Random Metal Detector Sweeps

Random metal detector sweeps for weapons or dangerous instruments (including pocket knives) may be conducted yearly. If a classroom were selected for a random metal detector sweep, the students would be scanned with the metal detector with the principal/designee and another staff employee present. The student would be scanned individually and not in the presence of other students.

Metal detector sweeps for an individual student may be conducted if the Principal or Designee reasonably suspects a student may have a weapon, knife of any size, or dangerous instrument. Again, school authorities are authorized to search a student if they have reasonable suspicion that the search will reveal evidence that the student has violated or is violating this Code, a school rule, or the law.

Trained Dogs

Subject to the following conditions, the Superintendent or designee may authorize using trained dogs to locate contraband (prohibited items) on school grounds. The dogs shall be certified as never having been trained as attack dogs. The Superintendent or designee shall be present. Searches involving dogs shall be conducted only when students are in classrooms or other designated safe areas; no student shall be near the site being searched. All dogs shall be on a leash and not be allowed to come near any student.

MOTOR VEHICLE

Conditions for Use

- With parental request, students under 18 and conditions prescribed by the school principal, high school pupils may be permitted to drive motor vehicles onto the school grounds. Vehicles shall be parked in

designated areas on the school campus and are only to be visited or moved during the school day if the Principal gives permission.

- Privilege may be revoked.
- Driving on the school grounds is a privilege that may be revoked if conditions are violated.

Substance Abuse Violations

Academic and Attendance Deficiencies

Academic and attendance deficiencies for students sixteen (16) or seventeen (17) enrolled in regular, alternative, part-time, and special education programs shall be defined as follows:

- They shall be deemed academically deficient if they have not received passing grades in at least 66% of their courses in the preceding semester.
- They shall be deemed deficient in attendance when they drop out of school or accumulate nine (9) unexcused absences for the preceding semester. Suspensions shall be considered unexcused absences.
- Unexcused absences shall be reported at the end of each term.

GRIEVANCES

Board Policy 09.4281

Students and parents wishing to express an educational concern or grievance shall observe the following order of appeal:

1. Teacher
2. Principal
3. School council, where appropriate
4. Superintendent

Information on filing a formal complaint or grievance is available at each school and the Central Office.

Access to Electronic Media:

All students in the District will be required to sign an Acceptable Use Agreement to obtain a network account. A written request, signed by the student and his/her parent or legal guardian for minors [those under eighteen (18) years of age or non-emancipated], shall be required before a student can access the Internet or e-mail. This document shall be kept as a legal, binding document and shall be in effect for the entire period the student is enrolled in that school. The student's parent/guardian ([or the student who is at least eighteen (18) years old or emancipated] must provide the Superintendent with a written request to rescind this agreement.

Class Schedule/Assignments

Class schedule will not be provided until the Annual Online Registration has been completed. Class assignments and scores can be viewed once teachers have posted them in the Infinite Campus grade book.

CODE DEVELOPMENT

By KRS 158.148 and 704 KAR 7:050, the Board shall develop a student discipline Code that shall be posted at each school, referenced in all school handbooks, and provided to school employees, parents, legal guardians,

or other persons exercising custodial control or supervision. As required by KRS 158.148, a process shall be developed to provide information to those parties and to train employees.

The Code shall establish acceptable student behavior and discipline standards, including District-wide standards for students participating in extracurricular and co-curricular activities. The Code also shall include a process for students to report Code violations to District personnel for appropriate action.

DISTRIBUTION

Once reviewed and approved, the student discipline Code shall be available to students and parents in the District, including those who enroll during the school year. The Code is available online to all students and employees of the district and to parents of students, including those who enroll after the beginning of the school year. Any parent, student, or staff unable to access the Code online may request a hard copy from their school. On request, the Principal shall provide help for non-English speaking, blind, deaf, or non-reading students and parents to access the information in this Code.

We welcome suggestions as to how to improve this document. Individuals may send written comments to their child's school administrators or Esther Hayslett, Safe Schools Coordinator, who will forward them to the Code Committee.

STATE & FEDERAL LAW REQUIRES SPECIAL CONSIDERATION & POSSIBLE DESIGNATION OF ALTERNATIVE CONSEQUENCES WHEN DEALING WITH BEHAVIOR & DISCIPLINARY ISSUES INVOLVING STUDENTS WITH DISABILITIES

SCHOOLS MAY INCLUDE A RANGE OF DISCIPLINARY CONSEQUENCES THAT COULD INCLUDE/ARE NOT LIMITED TO TEACHER/STUDENT CONFERENCES, WRITING ASSIGNMENTS, ALTERNATIVE PLACEMENT, TIME-OUT, LOSS OF PRIVILEGES, AND DETENTION HALL.

The consequences of violations chart is intended to show the general range of consequences for certain violations of the Code of Acceptable Behavior and Discipline of Kentucky laws. However, each school is entitled to adopt more specific guidelines regarding the consequences of violations, and students should consult the Student Handbook.

Appendix 2: FAQ: Bullying

This document is intended to guide schools and districts regarding [KRS 158.148](#), which created a formal definition of bullying.

When do you begin an investigation for bullying?

Every report of bullying from students, parents, guardians, staff, or other individuals should be investigated by school personnel. Bullying can happen to anyone at any time, so all incidents need to be investigated, regardless of the frequency of reports or the identity of the students supposedly involved in the bullying.

What does “real or perceived power imbalance” mean?

According to Dr. Dan Olweus, who created the internationally-recognized Olweus Bullying Prevention Program, bullying happens to someone who “has difficulty defending himself or herself.” The person may have difficulty defending himself/herself verbally, physically, or socially for various reasons.

The following scenario is not all-inclusive of what “real or perceived power imbalance” means, but it may help to provide an example of what this could look like in school. Marsha has been telling her friends not to let Tia sit with them at lunch for weeks. She has also posted mean things about Tia on social media, which all of her friend groups have seen. Tia has been avoiding her family at home, and her grades have dropped. Both girls are the same age, approximately the same height and weight, and have historically been friends. However, because Marsha has begun repeatedly excluding Tia and verbally abusing her on social media, Tia does not feel comfortable standing up for herself due to the risk of further bullying and embarrassment. While it can be difficult to see, a perceived power imbalance between Marsha and Tia can be very powerful and devastating.

What does “potential to be repeated” mean?

Webster’s dictionary defines “potential” as “capable of becoming real.” It defines “repeated” as “said, done, or happening again and again.” The plain meaning of this phrase would then be that bullying can be capable of happening again and again.

Again, the following scenario is not all-inclusive of what the “potential to be repeated” means, but it is intended to help explain how this would be exhibited in the school. Charlie is the “ringleader” of a group of boys who have been bullying Nadia for being tall and skinny. When Lionel moves into the school in October, Charlie laughs at him and calls him names for being tall and skinny in front of the class. Even though this is just one instance of Charlie picking on Lionel because he was previously bullying Nadia, there is a potential for this bullying behavior to be repeated on Lionel. Charlie picking on Lionel just one time would be considered bullying.

What does “disrupts the education process” mean?

Behavior that disrupts the educational process includes but is not limited to

1. Conduct that threatens the health, safety, or welfare of others;
2. Conduct that may damage public or private property, including the property of students or staff;
3. Illegal activity;
4. Conduct that materially or substantially interferes with another student’s access to educational opportunities or programs, including the ability to attend, participate in, and benefit from instructional and extracurricular activities; or
5. Conduct that materially or substantially disrupts the delivery of instructional services or interferes with the orderly administration of the school and school-related activities or district operations.

What is the difference between bullying and peer conflict?

As previously noted in the definition of bullying, bullying is repeated, intended to cause harm, and involves a power imbalance. A peer conflict does not include all of these three criteria. Typically, a peer conflict does not involve a power imbalance. For example, John and Benjamin get into a fistfight over a girl for the third time this school year. The fights have been repeated, and both boys have acted aggressively.

However, both are also approximately the same size, equally popular and in the same class. Therefore, there is no power imbalance. This is a peer conflict and does not need to be treated as bullying.

How do we know when to report bullying in Infinite Campus?

Once an administrator or other school personnel has determined after an investigation that an incident is bullying, all bullying and harassment behavior events must be recorded in Infinite Campus, regardless of resolution. Please reference the [Safe Schools Data Standards](#) for more information.

What is covered under [KRS 158.148\(1\)\(b\)](#) where it indicates that the above definition “shall not be interpreted to prohibit the civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process”?

Students in public schools frequently engage in an expressive nature of conduct, including discussion and debate regarding various personal opinions and beliefs. For example, students may engage in debate regarding religious or political views. Such conduct, absent disruption to the education process (see above), is NOT bullying, as outlined in [KRS 158.148](#), even if one student seems to dominate the conversation. In fact, such conduct may be protected by students’ First Amendment rights to free speech. However, if a student’s conduct is unwanted, upsets the education process, involves a real or perceived power imbalance, and is repeated or has the potential to be repeated, it meets the definition of bullying.

The following scenario is not all-inclusive of the “civil exchange” between students, but it can serve as an example of what may occur in schools when a civil exchange can turn into bullying. In Ms. Patterson’s political studies class, several of her students began a discussion about the spread of a different religion in Latin America in the 1700s. Mike and Loretta, in particular, differed heatedly over the subject, as Mike believed that it was fine for the religion to be spread to the native peoples. Loretta stated that she believed the spread of the religion negatively affected the native people’s culture. While the discussion was heated and repeated over several days, it was not bullying, as the education process was not interrupted and did not involve a power imbalance. However, Mike began bringing up the discussion at lunch after their class for several weeks and calling Loretta derogatory names for believing that his religion should not have been spread. Several other students began to pick on Loretta for not following the dominant religion. Loretta chooses to withdraw from any discussion in Ms. Patterson’s class as she now feels uncomfortable sharing her opinions. She also experiences feelings of anxiety whenever it is time for the political science class. Mike and his like-minded friends now dominate the discussion in class. This has now become bullying, as it is repeated, aggressive, and involves a power imbalance, as many students are now attacking Loretta for her religious beliefs. While Mike has shared his opinions, he has affected Ms. Patterson’s class by stifling other students’ opinions, particularly Loretta’s.

In other words, how does this relate to First Amendment protections for free speech?

Remember that students do not “shed their constitutional rights to freedom of speech or expression at the schoolhouse gate,” according to the United States Supreme Court’s holding in *Tinker v. Des Moines Independent School District* (1969). Students, however, do not have an unlimited right to self-expression. Students’ First Amendment guarantees must be balanced against a school’s need to keep order: As long as an act of expression doesn’t disrupt the educational process or invade the rights of others, it’s acceptable. Therefore, students are free to engage in conduct of an expressive nature so long as that conduct does not harm others or disrupt the educational process. If a student’s expressive conduct threatens the health, safety, or welfare of a fellow student or materially or substantially interferes with another student’s access to educational opportunities or programs, the expressive conduct is NOT protected by the First Amendment and may rise to the level of bullying under [KRS 158.148](#).

Appendix 3: **Bullying/Hazing/Harassment (09:422)**

Per KRS 158.148, “bullying” is defined as any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated or has the potential to be repeated:

- That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event
- That disrupts the education process.

This definition shall not be interpreted to prohibit the civil exchange of opinions, debates, or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.

Hazing Defined (Board Policy: 09.422 for additional information)

Per KRS 508.150, “hazing” is defined as a direct action that substantially endangers the physical health of a minor or student for the purpose of recruitment, initiation into, affiliation with, or enhancing or maintaining membership or status within any organization, including but not limited to actions which coerce or force a minor student to:

- a) Violate federal or state criminal law;
- b) Consume any food, liquid, alcoholic liquid, drug, tobacco product, or other controlled substance that subjects the minor or student to a risk of mental harm or physical injury;
- c) Endure brutality of a physical nature, including whipping, beating, paddling, branding, or exposure to the elements;
- d) Endure brutality of a mental nature, including personal servitude, sleep deprivation, or circumstances that would cause a reasonable person to suffer substantial mental distress;
- e) Endure brutality of a sexual nature; or
- f) Endure any other activity that creates a reasonable likelihood of mental harm or physical injury to the minor or student.

(KRS 525.070) A person is guilty of harassment when, with intent to intimidate, harass, annoy, or alarm another person, they:

- Strike, shove, kick, or otherwise subject a student to physical contact
- Attempt or threaten to strike, shove, kick, or otherwise subject the person to physical contact
- In a public place, use offensively coarse utterances, gestures, displays, or abusive language to any person present
- Follow a person in or about a public place or places
- Engage in the course of conduct or repeatedly commit acts which alarm or seriously annoy such other person and which serve no legitimate purpose
- Be enrolled as a student in a local school district and while on school premises, on school-sponsored transportation, or at a school-sponsored event:
 - Damage or commit theft of the property of another student
 - Substantially disrupt the operation of the school
 - Create a hostile environment using gestures, written communications, oral statements, or physical acts that a reasonable person should know would cause another student to fear physical harm, intimidation, humiliation, or embarrassment.

Harassing Communications: KRS 525.080

A person is guilty of harassing communications when with intent to intimidate, harass, annoy, or alarm another person he or she:

- Communicates with a person, anonymously or otherwise, by telephone, telegraph, mail, or any other form of written communication in a manner that causes annoyance or alarm and serves no purpose of legitimate communication
- Makes a telephone call, whether or not conversation ensues, with no purpose of legitimate communication

- Communicates, while enrolled as a student in a local school district, with or about another school student, anonymously or otherwise, by telephone, the Internet, telegraph, mail, or any other form of electronic or written communication in a manner which a reasonable person under the circumstances should know would cause the other student to suffer fear of physical harm, intimidation, humiliation, or embarrassment and which serves no purpose of legitimate communication.

Reporting: A student or parent report of an incident within the school, at a school activity, on the school bus, or at any sponsored school function will be investigated, and action will be taken.

Additional Information on Harassment/Discrimination

Board Policy: 09.42811

Harassment/Discrimination is unlawful behavior based on race, color, national origin, age, religion, sex (including sexual orientation or gender identity), or disability that is sufficiently severe, pervasive, or objectively offensive that it adversely affects a student's education or creates a hostile or abusive educational environment.

Prohibited: Harassment/Discrimination is prohibited at all times on school property and off school grounds during school-sponsored activities. This prohibition also applies to visitors to the school who may come into contact with employees and students. (Acts of harassment/discrimination based on sex may be committed by persons of the same or the opposite sex.) District staff shall provide for a prompt and equitable resolution of complaints concerning harassment/discrimination.

Depending on the circumstances and facts of the situation, and within the definition of harassment/discrimination, examples of conduct and/or actions that could be considered a violation of this policy include, but are not limited to:

- Any nicknames, slurs, stories, jokes, written materials, or pictures that are lewd, vulgar, or profane and relate to any of the protected categories listed in the definition of harassment/discrimination contained in this policy;
- Unwanted touching, sexual advances, requests for sexual favors, and spreading sexual rumors;
- Instances involving sexual violence;
- Causing a student to believe that he or she must submit to unwelcome sexual conduct to participate in a school program or activity or that an educational decision will be based on whether or not the student submits to unwelcome sexual conduct;
- Implied or overt threats of physical violence or acts of aggression or assault based on any of the protected categories;
- Seeking to involve students with disabilities in antisocial, dangerous, or criminal activity where the students, because of disability, are unable to comprehend fully or consent to the activity and
- Destroying or damaging an individual's property based on any of the protected categories.

Notification: District personnel shall attempt to notify parents of student victims and students who have been accused of harassment/discrimination within twenty-four (24) hours of receiving a serious allegation. Additional notice is required by law in circumstances involving suspected child abuse.

Consequences:

Consequences for bullying/harassment range from parent notification/student conference to expulsion and may include court charges. Consequences are determined by the factors identified through the administrator's investigation of the reported incident. On continued harassing behaviors, the school will work with local court officials to determine if an evidenced pattern of behavior has become harassment. A harassing behavior or a single incident may not always result in a harassment charge. However, some harassing behaviors may immediately be determined to be harassment due to the nature of the incident, and upon consultation with local court officials, charges may be filed.

Appendix 4

Assault and Threats of Violence

09.425

A “threat” shall refer to a communication made by any means, including, but not limited to, electronic and/or online methods. Notice for all Parents and Guardians Regarding Terrorist Threats and their Consequences

Dear Parent/Guardian,

Our most important function in the Mercer County School District is to provide the safest learning environment possible for all our students and school staff members. Unfortunately, in recent years, Kentucky's P-12 schools have experienced an escalation of terroristic threats made by students with the intent to harm either other students or school staff members. Plainly stated, these are threats being made to shoot people or detonate bombs with lethal intent. In fact, between January 23 and April 30th of 2018, Kentucky schools experienced (294) terroristic threats that caused widespread fear throughout the school's community and resulted in total disruption to the educational process. In many of those cases, school officials and law enforcement officials were forced to close schools to investigate the threats that had been made. In other cases, school attendance plummeted for days after the threat was made. Many school leaders have said that the emotional, instructional, and financial impacts of these acts are incalculable.

Terroristic Threatening in the second degree is defined in state law (KRS 508.078)

(1) A person is guilty of terroristic threatening in the second degree when, other than as provided in KRS 508.075, they intentionally:

Make false statements by any means, including by electronic communication, for the purpose of:

1. Causing evacuation of a school building, school property, or school-sanctioned activity;
2. Causing cancellation of school classes or school-sanctioned activity; or
3. Creating fear of serious bodily harm among students, parents, or school personnel

Such threats to our students and school staff are unacceptable and will not be tolerated. As a result, the purpose of this letter is to notify all parents and guardians that school district officials (in coordination with responding law enforcement agencies) will **pursue immediate legal charges for felony terroristic threatening in the second degree, to the absolute fullest extent of the law, against anyone who makes such threats, including students.** Moreover, we will advocate to our highest ability that the prosecution of these individuals be swift and their punishment be severe.

Our approach to eliminating terrorist threats in our school and district is strong and unwavering. As a result, you must discuss this critically important matter with your student as soon as possible. School and law enforcement officials are determined to put a halt to these willful acts of terrorism being made toward our students. Please do

your part to ensure that your student never becomes a party to such an offense by educating him/her on the seriousness of its consequences.

Together, we can prevent this unnecessary, dangerous, and disruptive crime from victimizing our schools. I appreciate your partnership in keeping our schools the safest place for your children to learn and grow. If you have any questions or concerns, please contact me at your convenience at 859-733-7000

Sincerely,

Jason Booher, Superintendent
