

Redistricting Report

- Infinite Campus is now updated with middle school boundaries aligning with addresses.
- Online Registration should be open later this week for parents to complete. Generally, this is normally open around July 1st. It has been a bit later this year because we want the data to be as accurate as possible. Ms. Farmer has been spot-checking the addresses to make sure the address and school auto-populates correctly. We want this to be a seamless process for parents as they complete Online Registration for their children.

Home School

- As of 7/10/2024, we have 19 students returning from home school to MARVEL or in person instruction.

Compass Security

- Compass Security servers are in production.
- After production, they will be immediately shipped to our district.
- Once received in MCPS, they will be physically installed in our district.
- Once servers are installed, they will import camera information and data.
- Once it is installed and cameras are fully functioning, staff will be trained on how to use the system.
- We anticipate the servers to ship in a week or so.

Emergency Personnel District Walkthroughs

- This week and into next week, Marion County Emergency Personnel have been touring each school building.
- Not only do they tour the building, but also meet with each principal and have a discussion of emergency protocols for each school.
