

1. The MSD teaching position has been filled. Congratulations to Mr. Lucas Collett! Mr. Collett was previously an Instructional Assistant in the MSD classroom. He went back to school in January to get his certification for LBD through the University of the Cumberlands. He recently switched to the University of Louisville to obtain his MSD certification as that was not available at the University of the Cumberlands.

Mr. Collett moving into the role of teacher will provide consistency to the students in the classroom, which is invaluable. We will begin interviewing for an instructional assistant to replace him.

2. I have completed and submitted the end of the year Indicator 11, Child Find, record reviews for KDE.

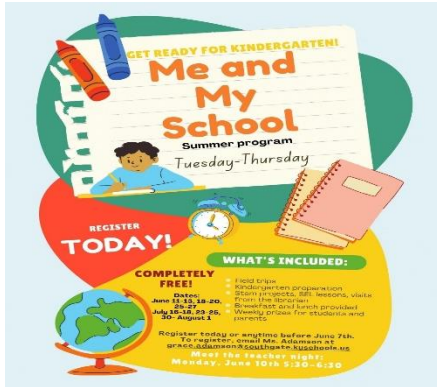

I have completed and submitted the Indicator 12, Early Childhood Transition, report for KDE.

I have completed and submitted the IDEA budget for 2024-2025 school year. Our amount of funding remained the same as last year.

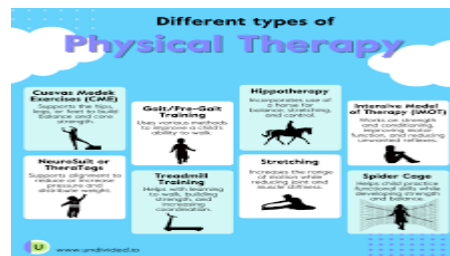

I am currently working on the end of the year Safe Schools report.

3. The Little Lions Camp and Me and My School Programs both start next week! Mrs. Scott, Ms. Adamson, and their assistants have been working hard to plan for a summer full of fun and learning! To kick things off, they are hosting a Popsicles with Parents event on Monday evening, June 10th.

4. I will have the contracts for the companies and service providers we partner with to provide services to our special education students prepared at the July board meeting.

5. Thank you for your support throughout my 1st year as the Director of Special Education and Preschool! I have certainly learned a lot along the way. I feel blessed to have a supportive Board of Education helping me help our students!
