This curriculum provides us an easy way to think and talk about how we feel on the inside and sort these feelings into four colored Zones, all of which are expected in life. Once we understand our feelings and zones, we can learn to use tools/strategies to manage our different Zones in order to meet goals like doing schoolwork or other tasks, managing big feelings, and healthy relationships with others. The simple, common language and visual structure of The Zones of Regulation helps make the complex skill of regulation more concrete for learners and those who support them.
