Amendments approved by the Kentucky Department of Education to local systems of certified personnel evaluation that occur after the end of the certified employees' first school month shall not apply to the employee until the following school year.

Observer Certification

To ensure consistency of observations, evaluators must complete the state-approved observer certification process for an evaluator who is observing teachers for the purpose of evaluation. The system allows observers to develop a deep understanding of how the four domains of the Kentucky Framework for Teaching are applied in observation. Evaluators must complete an initial 12 hours of training and 6 hours of update training each year.

Evaluators

The immediate supervisor of the evaluatee shall be designated as the primary evaluator. Tenured and Non-tenured teachers and other professionals will be evaluated yearly.

Dual role employees and supervisor will determine the criteria for evaluating the dual role employee within the first 30 days of school.

Administrators will be evaluated annually by the superintendent or by the superintendent's designee.

The superintendent will be evaluated annually by the local school board.

Certified Employees

Evaluators shall review the evaluation process and instruments within the end of the first month of reporting for employment for each school year.

All evaluations will be completed on board-approved forms, and in district or state approved technology platform where appropriate, and will become part of the official personnel file of the employee.

The evaluatee will be given the opportunity to respond to the evaluation in writing. Any such documentation shall be included in the official personnel record.

Each evaluatee will be provided a written copy of his/her evaluation for his/her personal records.

Specific Procedure for Conducting Evaluations

All monitoring or observation of performance of a certified school employee shall be conducted openly. The employee will be informed of data collected through observation or other technique. All evaluations must be on forms approved by the Board of Education (included in this manual).

It is important to note that the Corrective Action Plan may be initiated by the evaluator or supervisor at any point when a change in behavior is required, even if the certified staff member is not currently in the evaluation cycle.

SECTION 1 - TEACHER

Certified Evaluation Plan – Certified Teacher

The vision for the Certified Evaluation Plan is to have every student taught by an effective teacher. The goal is to create a fair and equitable system to measure teacher effectiveness and act as a catalyst for professional growth.

The Kentucky Framework for Teaching

The Kentucky Framework for Teaching is designed to support student achievement and professional practice through the domains of Planning and Preparation, Classroom Environment, Instruction, and Professional Responsibilities. The Framework also includes themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs effective technology integration, and student assumption of responsibility. It provides structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence supporting a teacher's professional practice will be situated within one or more of the four domains of the framework.

- Domain 1: Planning and Preparation
- Domain 2: Classroom Environment
- Domain 3: Instruction
- Domain 4: Professional Responsibilities

Performance will be rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- Professional Growth Planning
- Self-Reflection
- Observation
- All components and sources of evidence related supporting an educator's professional practice will be completed and recorded in the state/district approved platform.

Professional Practice

Professional Growth Planning and Self-Reflection

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including classroom observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers will identify explicit goals which will drive the focus of professional growth activities, support, and on-going reflection.

Reflective practices and professional growth planning are iterative processes. The teacher (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps. All teachers will participate in self-reflection and professional growth planning each year.

- **All teachers will document self-reflection in the state/district approved platform on or before September 30th.**
- All certified staff hired after the first day of school, will have 30 calendar days from their start date to complete their professional growth plan and self-reflection.
- Teachers in their summative year will continuously self-reflect.
- **Professional growth plans shall be completed in the state/district approved platform on or before September 30th of each school year and approved annually by the primary evaluator.** Professional growth plans shall be aligned with the school/district improvement plans.
- The summative self-reflection and final review of **the professional growth plan will be completed at a teacher's summative conference or by May 15th if the teacher is not in their summative year.**

Professional Practice

Self-Reflection and Professional Growth Planning (For Teachers and Other Professionals)

- All teachers and other professionals will participate in on going self-reflection and professional growth planning each year. At minimum, teachers and other professionals will complete an initial self-reflection covering all components and domains and a reflection on the components and domains determined by the evaluator and evaluatee following each observation.
- All teachers and other professionals will complete the self-reflection process in the district approved technology platform prior to the end of the first quarter.

- Professional Growth Goals in the district-approved technology platform shall be completed, in collaboration with the teacher’s supervisor, on or before the end of the first quarter of the school year.
- All teachers and other professionals, in collaboration with the primary evaluator, will create a professional growth goal and student growth goal in the district approved technology platform prior to the end of the first quarter.

Observation

The observation process is one source of evidence to determine teacher effectiveness that includes supervisor for each certified teacher. The supervisor observation will provide *documentation and feedback* to measure the effectiveness of a teacher’s professional practice. The supervisor observation will be used to inform calculate a summative rating. The rationale for each observation is to encourage continued professional learning in teaching and learning through critical reflection.

- Observations will be documented in the state/district approved platform.
- Observations will take place for tenured teachers in their summative cycle every three years unless professional practice ratings dictate otherwise.
- Observations for non-tenured teachers shall occur every year.
- In the event of a late hire, the primary evaluator will consult with the district evaluation plan contact to determine an appropriate observation schedule.

Observation Model

1st Window-Immediately after evaluation orientation process has occurred through end of first semester

2nd Window- Beginning of the 2nd semester through April 15

Teacher Observation Model and Schedule

Observation (both formative and summative) can occur in ANY window.	Annually, the administrator must conduct a total of two observations, one being a mini observation during the first observation window. A full observation must be conducted in the second window.

- If a non-tenured teacher misses sixty or more consecutive school days within a single school year, a minimum of one full observation will be completed.
- If a tenured teacher misses sixty or more consecutive school days within a single school year, the observation requirements will remain the same as for any other tenured teacher.
- The administrator’s full observation of a non-tenured teacher shall occur within the second observation window.

The selection of the third-party observer will, if possible, be determined through mutual agreement by evaluator and evaluatee. A teacher who exercises this option shall do so, in writing to the evaluator, by no later than March 15 of the academic year in which the summative evaluation occurs. If the evaluator and evaluatee have not agreed upon the selection of the third-party observer within five (5) working days of the teacher's written request, the evaluator shall select the third-party observer.

Certified employees may request a full evaluation during any year, even though they are not scheduled for a formal evaluation. In addition, the immediate supervisor may elect to evaluate a certified staff member more frequently even though he/she may have continuing contract status.

Student Growth

Teachers will use classroom assessment data, benchmark assessment data, progress monitoring data and/or some other form of data to track and measure student growth throughout the school year.

Determining the Overall Performance Category

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the educator's ratings on professional practice. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Domains, district-developed rubrics and decision rules that establish a common understanding of performance thresholds to which all educators are held.

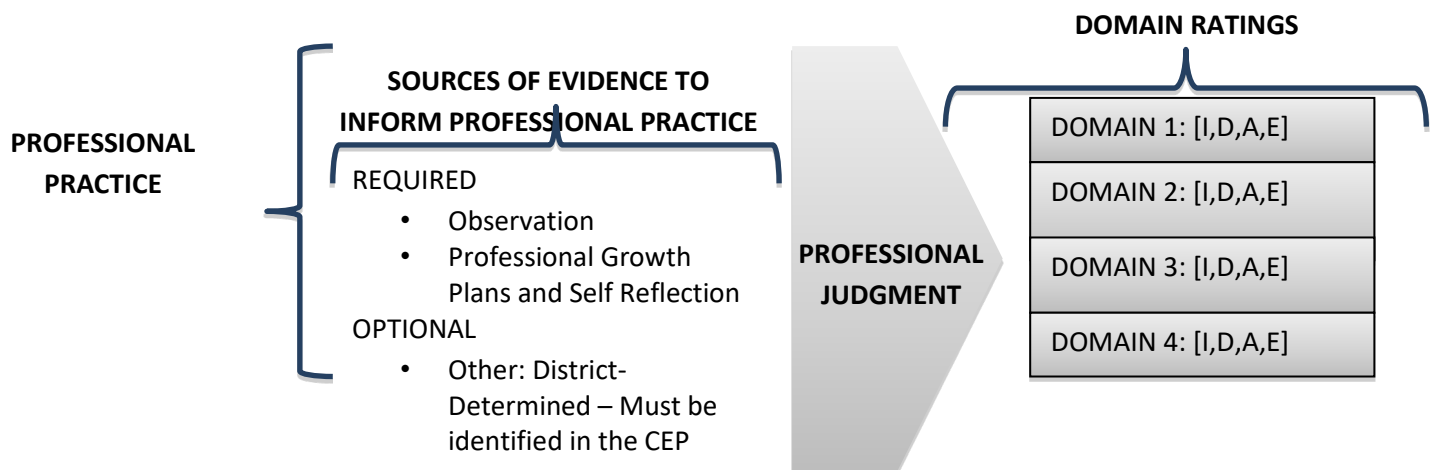

An educator's Overall Performance Category is determined by the following steps:

1. Determine the individual domain ratings through the use of sources of evidence and professional judgment.
2. Apply State Decisions Rules for determining an educator's Professional Practice.

Rating Professional Practice

The Kentucky Framework for Teaching stands as the critical rubric for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors will organize and analyze evidence for each individual educator based on these concrete descriptions of practice.

Supervisors and educators will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Domain at the culmination of an educator's cycle. A summative rating for each domain will be recorded in the district approved technology platform.

Products of Practice/Other Sources of Evidence

Teachers may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the teachers practice within the domains.

- Evaluators will provide a summative rating for each domain based on evidence and professional judgment.
- All ratings must be recorded in district approved technology platform.
- Evaluators will apply state decision rules for determining an educator’s professional practice. (See Chart Below)

Professional Growth Plan and Summative Cycle

The Overall Performance Category, in combination with trends of multiple measures, will be used to determine the educator's summative cycle and growth plan.

NON-TENURED TEACHERS

- Non-tenured teachers shall be evaluated annually
- Non-tenured teachers shall have a yearly Professional Growth Plan; growth plan activities shall be designed by the evaluatee with evaluator input.

TENURED TEACHERS

- Based on the overall Professional Practice rating, supervisors shall assist tenured teachers to determine the type of Professional Growth Plan and the length of the summative cycle. The following matrix details the type and length of the plan for tenured teachers based on ratings.

- For tenured teachers, evaluation cycles are determined by the growth plan matrix as identified in the following chart.

Corrective Action Plan

The individual corrective action plan shall be written upon the determination of an “Ineffective” domain rating in the evaluation plan cycle or any time an immediate change is required in teacher behavior or practice. The evaluator shall direct the individual corrective action plan with input from the evaluatee. The plan shall address the ineffective teacher practices through objectives, procedures, and activities (including support personnel), appraisal methods, and target dates for completion. See “Forms” section of the CEP for more details.

Summative Evaluation Appeal

Any certified employee who feels he/she was not fairly evaluated on the summative evaluation based on the District’s criteria may appeal to the Evaluation Appeals Committee. The completed form shall be completed, signed, dated and submitted to the primary evaluator within five (5) working days of the summative conference. The employee should retain a copy of the form for his/her personal records. The primary evaluator shall file all original response forms in the employee’s personnel file. The primary evaluator shall submit a copy of the appeal response to the district certified evaluation contact within 2 working days of the response. The Summative Evaluation Appeal form is located in the “Forms” section of the CEP.

COMPLETING THE INDIVIDUAL CORRECTIVE ACTION PLAN

This plan is to be completed by the evaluator (with discussion and assistance from the evaluatee) as it relates to an “ineffective” rating on any one **Domain** or when an immediate change in behavior or practice is needed. The evaluator and evaluatee must identify corrective action goals and objectives; procedures and activities designed to achieve the goals; and targeted dates for appraising the evaluatee’s improvement of the domain(s) or behavior or practice. It is the evaluator’s responsibility to document all actions taken to assist the evaluatee in improving his/her performance.

1. Domain Number/Immediate Change in Behavior or Practice

Identify the specific component(s) that has an “ineffective” rating assigned, or indicate the immediate change required in behavior or practice.

2. Objectives

Objectives must address the specific domain(s) rated as “ineffective” or the immediate change in behavior or practice. The evaluatee and evaluator work closely to correct the identified weaknesses.

3. Strategies

Identify and design specific strategies for the improvement of performance. Include support personnel, when appropriate.

4. Assessment Method and Target Dates

List the specific target dates and appraisal methods used to determine improvement of performance. Exact documentation and record keeping of all actions must be provided to the evaluatee.

5. Documentation of all reviews, corrective actions, and evaluator’s assistance must be provided periodically (as they occur) to the evaluatee.

SECTION 2 – OTHER PROFESSIONALS

(Other Professionals identified as: Library Media Specialist, Speech Therapist, Guidance Counselor, Instructional Coaches, and School Psychologists)

Other Professionals

Other professionals are an essential part of the educational process. The goals of CEP are for every student to be taught by an effective educator. Other Professionals is a portion of the CEP system designed for other professionals who have a nontraditional educational setting.

The Kentucky Framework for Other Professionals

The Frameworks for Teaching for Other Professionals are research-based sets of components of instruction that are grounded in a constructivist view of learning and teaching. The complex activity of teaching is divided into multiple standards clustered into four domains of teaching responsibility:

- Domain 1: Planning and Preparation
- Domain 2: The Environment
- Domain 3: Instruction/Delivery of Service
- Domain 4: Professional Responsibilities

Frameworks for Teaching for Other Professionals are designed for the unique professional responsibilities of these specialists.

Performance will be rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Corrective Action Plan	As Needed Throughout the Process

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- Professional Growth Planning and Self-Reflection
- Observation

All components and sources of evidence related supporting an educator's professional practice approved platform.

- ❖ Final Summative Ratings shall be entered into approved on / or before June 15th

Professional Practice

Professional Growth Planning and Self-Reflection

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the primary evaluator, professionals will identify explicit goals which will drive the focus of professional growth activities, support, and on-going reflection.

Reflective practices and professional growth planning are iterative processes. The professional (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her evaluator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps.

- Other Professionals shall complete the self-reflection and professional growth goal in the state/district approved platform on or before September 30th of each school year.
- In the event of a late hire, the primary evaluator will consult with the district evaluation plan contact to determine the timeline for completing the self-reflection and professional growth plan.
- Other Professionals in their summative cycle will continuously self-reflect.
- Professional Growth Plans shall be aligned with school/district improvement plans.
- The summative self-reflection and final review of the professional growth plan will be completed at a professional's summative conference or by May 15th if the professional is not in their summative year.

Observation/Workplace Visit

Observation is one source of evidence that contributes to an educator's Overall Professional Practice Rating. For some categories of Other Professionals, observations may look more like a workplace visit to meet the confidentiality needs of their work. All observations will include a post-observation conference where Other Professionals and primary evaluators will have a conversation about how the evidence collected during the observation aligns with the Kentucky Framework for Teaching-Specialist Frameworks. The power of observation lies in its ability to provide feedback and analytical reflection necessary for Other Professionals to make intentional changes to their professional practices.

- All observations must be documented in the state/district approved platform.

- In the event of a late hire, the primary evaluator will consult with the district certified evaluation plan contact to determine the observation schedule.
- All observations must be scheduled and announced.
- The evaluatee will have an opportunity to respond to the evaluation in written form and shall be included in the personnel file.

Observation Conferencing

Observers will adhere to the following observation conferencing requirements:

- Conduct observation conference within five (5) working days of the observation.
- The summative evaluation conference shall be held at the end of the summative evaluation cycle.

Pre-Conferences

- A pre-conference shall take place before a full observation. This pre-conference may be face to face, through email, or some other electronic format. For a full observation, the teacher will submit a lesson plan and the pre-conference question form prior to the observation.
- Pre-conferences are not required in any format for other observations unless requested by the teacher and/or evaluator.

Post-Conferences

- Post Conferences for observations must occur within 5 working days after the day of the observation. All post conferences will be face to face.

1st Window-Immediately after evaluation orientation process has occurred through end of first semester

2nd Window-5 days after beginning of 2nd semester through March 30th

OP Observation Model and Schedule	
OP Tenured	Non-Tenured
Within a three-year period, three observations by the administrator. In the summative year, the administrator must conduct summative evaluation.	Annually, the administrator must conduct a total of two observations, one being a mini observation during the first observation window. A full observation must be conducted in the second window.

- **If a non-tenured other professional misses sixty or more consecutive school days within a single school year, a minimum of one full observation will be completed.**
- **If a tenured other professional misses sixty or more consecutive school days within a single school year, the observation requirements will remain the same as for any other tenured other professional.**
- **The administrator’s full observation of a non-tenured other professional shall occur within any observation window.**

- If requested by the other professional, observations by another administrator who has been trained in the state-approved certification program will be provided. The selection of the third-party observer will, if possible, be determined through mutual agreement by evaluator and evaluatee. An other professional who exercises this option shall do so, in writing to the evaluator, by no later than March 15 of the academic year in which the summative evaluation occurs. If the evaluator and evaluatee have not agreed upon the selection of the third-party observer within five (5) working days of the other professional's written request, the evaluator shall select the third-party observer.
- Certified employees may request a full evaluation during any year, even though they are not scheduled for a formal evaluation. In addition, the immediate supervisor may elect to evaluate a certified staff member more frequently even though he/she may have continuing contract status.

Determining the Overall Performance Category

Supervisors are responsible for determining an Overall Performance Category for each professional at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the professional's ratings on professional practice. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the professional's performance against the Domains and decision rules that establish a common understanding of performance thresholds to which all professionals are held.

Rating Professional Practice

The Kentucky Frameworks for other professionals stand as the critical rubrics for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors will organize and analyze evidence for each individual professional based on these concrete descriptions of practice.

Supervisors and professionals will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Domain at the culmination of a professional's cycle.

- Evaluators will provide a summative rating for each domain based on evidence and professional judgment.
- Professionals may provide additional evidences to support assessment of their professional practice. These evidences should yield information related to the professional's practice within the domains. Examples include:
 - lesson plans
 - communication logs
 - timely, targeted feedback from mini or informal observations

- student data records
 - student work
 - student feedback
 - minutes from PLCs
 - reflections and/or self-reflections
 - committee or team contributions
 - parent engagement surveys
 - records of student and/or professional attendance
 - video lessons
 - engagement in professional organizations
 - action research
- All ratings must be recorded in the state/district approved platform.
 - Evaluators will apply state decision rules for determining a professional's professional practice. (See chart below.)

CRITERIA FOR DETERMINING AN EDUCATOR'S PROFESSIONAL PRACTICE RATING	
IF ...	THEN...
Domains 2 and 3 are rated INEFFECTIVE	Professional Practice Rating shall be INEFFECTIVE

Professional Growth Plan and Summative Cycle

The Overall Performance Category, in combination with trends of multiple measures, will be used to determine the educator's summative cycle and growth plan.

SECTION 3 – DISTRICT ADMIN/P/AP/

Overview and Summative Model

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating a principal. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment is grounded in a common framework: Professional Standards for Educational Leaders (PSEL).

Professional Standards for Educational Leaders (PSEL)

Professional Practice

The following sections provide a detailed overview of the various sources of evidence used to inform Professional Practice Ratings.

Professional Growth Planning and Self-Reflection – completed by principals, assistant principals, and district administrators

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement. PGP and self-reflections will be completed in collaboration with the superintendent and approved by the superintendent by September 30th.

Late hires will complete the self-reflection and PGP process within 30 calendar days of their hire date.

Observations of Assistant Principals– Completed by Evaluator of Assistant Principal

Observations are a method by which the principal may gain insight into the assistant principal's practice in relation to the standards. During an observation, the principal will discuss various aspects of the job with the assistant principal.

- Observations are to be conducted at least once each year by the principal/designee, but additional observations may be conducted if needed
- All assistant principals will be evaluated and receive summative evaluations annually

Working Conditions Goal (Principal Goal Inherited by the Assistant Principal)

Principals/Administrators are responsible for setting a 2-year Working Conditions Growth Goal based on the most recent IMPACT Kentucky Survey. The administrator's effort to accomplish the Working Conditions Growth Goal is a powerful way to enhance professional performance and, in turn, positively impact school culture and student success.

- The working conditions goal is developed following the completion of the IMPACT Kentucky Survey.
- Each principal is required to create (1) 2-year goal.
- In the year in which the IMPACT survey is not given, a district developed on line survey will be created and sent to all teachers. The district developed on line survey will use the same language as the IMPACT survey and will address the areas in which the district scored lowest on the most recent IMPACT survey.
- The administrator, in collaboration with the superintendent, will establish a working conditions goal rubric to measure the outcome of the working conditions growth goal. Below is an example that can be used.

Working Conditions Goal Rubric			
Ineffective	Developing	Accomplished	Exemplary
% and below	%-%	%-%	% and above

Determining the Overall Performance Category

Superintendent/designee is responsible for determining an Overall Performance Category for each principal at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the principal's ratings on professional practice and student growth.

Rating Professional Practice

The Principal Performance Standards stand as the critical rubric for providing principals and evaluators with concrete descriptions of practice associated with specific standards. The uniform performance standards used in the system provide a balance between structure and flexibility and define common purposes and expectations, thereby guiding effective leadership. Evaluators will organize and analyze evidence for each individual principal based on these concrete descriptions of practice.

Evaluators and principals will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Standard at the culmination of an educator's cycle. All ratings will be recorded in the district approved technology platform on or before June 15th.

- Evaluators will place all final summative ratings in the approved platform.
- Principals may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the principal's practice within the standards. Examples include:
 - SBDM Minutes
 - Faculty Meeting Agendas and Minutes
 - Department/Grade Level Agendas and Minutes
 - PLC Agendas and Minutes
 - Leadership Team Agendas and Minutes
 - Instructional Round/Walk-through documentation
 - Budgets
 - EILA/Professional Learning experience documentation
 - Surveys
 - Professional Organization memberships
 - Parent/Community engagement surveys
 - Parent/Community engagement events documentation
 - School schedules

The evaluator shall direct the individual corrective action plan with input from the evaluatee. The plan shall address the ineffective practices through objectives, procedures and activities (including support personnel), appraisal methods, and target dates for completion. Corrective Action Plans can be located in the “forms” section of the certified evaluation plan.

Appeals

Any certified employee who desires to respond to the evaluation process may complete the Summative Evaluation Appeal form. The completed form shall be signed, dated and submitted to the primary evaluator within 5 working days of the summative conference. The employee should retain a copy of the form for his/her personal records. The primary evaluator shall file all original response forms in the employee’s personnel file. Part C: Principal’s IMPACT Kentucky Working Conditions Goal

Target Question(s) from IMPACT Kentucky Results:

Following a review of IMPACT Kentucky results, the principal, in collaboration with the superintendent, will identify questions that signify areas of growth that the principal can address that will impact school culture and ultimately student success.

Target Performance Standard: The principal will connect the Target Questions to the appropriate Performance Standard, which becomes the Target Performance Standard for the WC Growth Goal.

Working Conditions Growth Goal Statement: The WC Growth Goal statement should be specific to the principal and should identify the specific growth that the principal plans to accomplish in the 2-year cycle of IMPACT Kentucky.

Working Conditions Growth Goal Rubric: The rubric is established when setting the WC Growth Goal in collaboration with the Superintendent. An “Accomplished” result is the expected outcome from the goal. To achieve “Exemplary” the goal must be exceeded.
