RE: Financial Aid Report

For the 2022-23 school year, I have compiled a report with the findings from the Financial Aid Survey. After initial review, I had follow-up questions for eighteen (18) of our member schools. To date, I have been able to make contact with all eighteen (18) of those schools and their school representatives were able to provide additional clarity to dissolve any issues with their submitted survey.

In addition, I suggest for future Financial Aid Surveys that the following schedule be utilized:

- Early September - release a list of items required to complete the annual financial aid report. This checklist of information is provided so administrators can spend a few days gathering the required data and information prior to the request for report completion.
- September 30, 2024 – release the link to the membership to enter the required report.
- October 15, 2024 – deadline to complete the required report.
