

NFHS Athletics Participation Survey 2023-2024

INSTRUCTIONS: “BOY Participants” and “GIRL Participants” are representative of interscholastic athletics (NOT intramural or club). Please provide figures for any of the listed sports offered by your high schools, regardless whether your state association sponsors a state championship or sanctions the sport. If a sport(s) other than those listed is offered by your high schools, please so indicate the sport(s), number of schools and participants under the category of Sport - Other at the end of the form. If your high schools include only 10th through 12th grades, but 9th grade students participate on any of your high schools’ teams, please include their number in the participation figures. Adapted Sports – A sport or event within a sport that has been adapted for a physical disability. Unified Sports – A sport that unites Special Olympics athletes (individuals with intellectual disabilities) and partners (individuals without intellectual disabilities). Both the athlete and the partner should be counted.
