RE: Bullitt East High School Water Tap *DC*

Bullitt East High School is requesting permission to allow the city of Mt. Washington to place a wet tap on the BCPS property (field) across the street from Bullitt East High School and a temporary shed for storage. The city will also run a water line to the property (field) and install a meter at this location. Doing this will allow our BEHS and community sports teams to have access to water during practices. The field will be primarily used by the Middle School Football team and BEHS football team. If approved, the city, in coordination with the MWFCFA, will provide the funding for the water tap, meter, and shed. The shed installation will be handled by A-1 Built Sheds.

**.I recommend approval of this request.**
