

Board Report

Jim Seward, Director of Technology
September 2024

Technology Activity Report

The annual Technology Activity Report will be submitted to Kentucky Department of Education. This report requires school districts to report technology expenses for the prior fiscal year. The state data is then presented to the legislature for future technology funding needs. The submission of this report is also the first step in receiving our first KETS Offer of Assistance.

Gilligan Stadium

We have recently updated the sound system at the stadium. We have put in new speakers, new wireless and corded microphones. We have added bluetooth capabilities. I have heard great things about the sound system after our first home football game.

Device Deployment

We had a phenomenal start to the school year with our student devices. Ms. Barrett did a great job in getting Grandview ready for the school year. She had all student devices ready and charging in the classrooms. At BMHS, two days of device deployment went extremely well.
