Allen County Schools,

Abbico Contracting is pleased to have the opportunity to propose a bid to Allen County Schools to build an early learning bus. We at Abbico feel as we can offer your school system the most advanced bus in the market today. Our work on the projects can be seen in many counties across Kentucky including Fayette County, Barren County, Floyd County, Henderson County and Menifee County.

We are pleased to offer you the following proposal to help assist and advance young children in your county. Our proposal is based off the scope of work sent to us, but we do want to offer a few options and recommendations.

*Our goal is to meet your expected completion date but it will be determined by timing and materials.

Thanks for your time,

Bryant Stevenson
