

Teaching and Learning

9-30-24

We have had a good start to the year. Student numbers are the highest that they have been since I have been in the district.

I have had the opportunity to be in several classrooms in both buildings. There are good things going on in both buildings. We do have some identified areas in need of more attention, and building admin are working with each identified piece.

I attended the Continuous Improvement Summit in Lexington last week. The sessions were very informative. We will be moving to a new assessment system in the state of Kentucky. The United We Learn movement that was started under the previous commissioner is alive and well. The future charge will be to provide a “vibrant learning experience” for all of our students. KDE is in the process of extensive surveys of all stakeholders for input in formation of the processes. Our district will be one of 36 districts to have more intensive feedback.

Test scores are in the district, but are embargoed until October 3rd. A great deal of time has been invested in reviewing scores, and we will continue to do so. Sharing will not occur until October 3rd.
