

Board Report

Jim Seward, Director of Technology
October 2024

Improved Security

We recently installed a new magnetic lock to better secure our cafe. The new lock requires a keycard to access the BHS cafe from the first floor. In the event of an emergency, the cafe is now locked from a previous unlocked door.

Student Technology

We continue to see great success with the Chromebooks in grade 3-5. This is a great indicator on future technology purchases.

We are seeing a reduction in student device damage. A sign that we are hopeful will continue to last throughout the year.

Construction

I am excited about the amazing opportunities that all of the construction projects will provide for our district! Many meetings to help develop the technology needs.
