The goal of these meetings will be to check in with students, review student STAR and KSA test scores, and continue to build strong partnerships between home and school in order to enhance the school experience for EACH of our students.

Unlike the first Family Engagement Day, families are not necessarily meeting with their students' first period teacher. Instead, they will be meeting with a teacher from that grade level team. For example, the teachers who teach majority seventh graders will meet with families of seventh grade students.
