1. A minimum of 6 lanes will be leased and hired by the above-named high school consisting of 2 teams for a period of no less than one 2-hour practice per week beginning October 1, 2024, ending on January 20, 2025. The number of lanes leased can vary from school-to-school based on bowling team squad size.
2. It is understood and agreed by the parties that postponements due to severe weather, holidays, and acts beyond the control of the center or the high school which prevent the use of the lanes by the league, shall release the center and/or high school from any responsibility for damage or claims of any nature whatsoever. It is also understood any postponements or delays for the above-mentioned reasons, at the request of the high school, shall result in the high school making up all competitive sessions missed at a later date.
7. A minimum of two lanes will be kept open between high school bowling and open play, when possible. One pair of lanes will be set aside for practice use during the regulation games on the day of competitive matches when possible.
