KY Department of Education

Neil Watts

Kentucky Board of Education,

Over the past few months, the KY Non-Public School Commission has been working closely with the KY Department of Education to develop regulation on school certification. KDE did a wonderful job reaching out for the Commission's input and feedback on the creation of this regulation.

Through that work and those communications, the Commission stands in support of this regulation being put forth before the KY Board of Education.

Thank you for your time,

David Kessler
Chairman of the KyNPSC
