Fall Soccer

**Positive Developments  
and Highlights**

The Soccer Championship concluded with Henry Clay winning the Boys and Sacred Heart taking the Girls. This brings an end to the season. Within this meeting we will review the DQ's for the year in light of the Board's recent adjustment to the length of suspensions. The changes were well received overall.

**Championship  
Update/Review**

The weather was fairly cooperative with the exception of some rain on Thursday night. However, given the match-ups and the other factors, ticket sales were up from the previous year. We have already started planning next year and look forward to implementing new ideas for next year.

**Officials  
Update/Review**

The officials have responded to the increase in pay very positively. There was a sharp decline in the number of declines from the previous year. There were also no major issues with the officiating.

**Fiscal and Budget  
Issues and Review  
(attendance, etc.)**

While some of the expenses have yet to be paid, it looks like a favorable year and the year's success will have a positive impact on the budget.

**Noteworthy Changes /  
Anticipates Changes**

There are some ideas and thoughts as to how to improve the tournament format (some of which we will begin to discuss at this meeting), but as previously mentioned, next year's event is already in the planning stages and we hope to bring you more information in future meetings.
