KHSAA 360/ArbiterSports In Person Trainings

**Takeaways to help
Board and Staff**

A very positive and beneficial training experience. Not only for the KHSAA Member High School Administrators that attended, but for KHSAA and Arbiter Staff as well.

General Commentary

On Tuesday, October 15, and Wednesday, October 16, the KHSAA and Arbiter held two joint in-person training meetings for KHSAA Member School Administrators. The meetings were held at the Knicely Center in Bowling Green and Central Bank Center in Lexington.

There were 43 in attendance at Bowling Green and 83 in Lexington.

Commissioner Tackett and I were presenters from the KHSAA. In attendance from ArbiterSports were Zane Zientek (Product Manager), Ashlee Lavatai (Enterprise Specialist and Kentucky's State Support Contact), and Kate Fuchs (Solutions Product Manager). To assist Ms. Fuchs at both meetings, Athletic Director Casey Fisk from Scott High School presented and demonstrated Arbiter Registration - an additional option in the ArbiterSports platform that more KHSAA member schools are adopting.

Zane and Ashlee, with their knowledge of the platform, along with me aligning the information on how it pertains to our member schools and their Athletic Directors, seemed effective. The same held true for the section on Arbiter Registration: Ms. Fuchs' knowledge of the platform, backed by Mr. Fisk's real-world involvement with Arbiter Registration since its inception in 2019 at Scott High School, proved equally effective.

The KHSAA extends gratitude to Mr. Fisk and his collaborative role: showing Kentucky schools what the platform can do using Scott High as a Kentucky Data model.

The KHSAA and ArbiterSports are planning similar in-person training at the start of the 2025-2026 school year.
