

**Curriculum, Instruction, and Assessment
Board Agenda
Wednesday, November 20, 2024**

PROFESSIONAL DEVELOPMENT

- The Reading League joined the staffs of both Lincoln and the High School on November 4th for professional development. This continues to be a tremendous partnership for us that will continue to pay increasing dividends into the future.

ASSESSMENT

- Alternative assessment work has begun in our schools. On November 6th, I led Mrs. Smith and Ms. Buschle through required trainings. Both teachers have a tremendous track record of success with their students on the alternate assessment.

OTHER TOPICS OF INTEREST

- A representative from the Enzweiler Institute will be here on November 19th to meet with Mr. Wolf, Ms. Fields, and myself regarding expanding opportunities for our students in the area of Career and Technical Education. We have received tremendous feedback from area schools that have partnered with them. Our group continues to strive for our goal of getting 100% of our graduates to postsecondary readiness.
- Work continues with Ms. Miller at the High School for required TEDS data input. TEDS stands for the Technical Education Database System. Locally, we are responsible for taking care of this for the administrative support pathway we offer at the High School
