

## **Teaching and Learning**

### **11-25-24**

Phase II of the CSIP/CDIP is complete. Phase II consists of district assurances, needs assessment and safety report. Phase III will be due by January 1, and will be the CDIP/CSIP framework by template.

Test scores were made final a couple of weeks ago, with final rankings. The elementary school was 424 out of 697. The Junior High was 181 out of 319. The high school was 02.320 out of 228.

We have completed the vertical alignment for mathematics for the district. We were able to align a viable K-12 map, which we feel very good about, upon completion. We have now begun the process of vertically aligning the English/Language Arts curriculum. This work will probably carry into January/February.

We had an on-site meeting with the We Lead computer science group on 11-20-24. The We Lead group has already consulted with MCC about the program and the dual credit opportunities. This partnership will be very good for Dawson Springs students. I look forward to sharing more as we move forward in this endeavor.
