**Re:** WAN Fiber Bid Recommendation

---

On January 6, 2025 Christian County Public Schools did a public bid opening for the WAN Fiber RFP that had been posted. CCPS received one bid. That bid was from Hopkinsville Electric Systems. The total monthly cost will be \$33,053. This cost is supplemented by E-rate funding at 90% for eligible sites. Making the out of pocket cost for CCPS \$4,974.90 a month. This monthly cost is to provide 25 GB service speed to all sites including MLK Early Learning Center that is not E-rate eligible.
