**Issues of Concern
(legal, playing Rules,
fiscal management,
etc.)**

One issue that has popped up multiple times this year is a team conducting a tournament without a certified scale. We have also had two instance of student-athletes objecting to the weigh-in process because of "religious exemption" but no details or documentation have been provided to this office other than an incident report from the officials on-site.

The management of two seasons in Trackwrestling (one for boys/coed and one for girls) continues to be a challenge for our membership.

**Championship
Update/Review**

The postseason begins Feb. 14-15 with Girls' Regions, followed by the Boys'/Coed Regions the following weekend (Feb. 21-22). All of the hosts are finalized for the boys'/coed tournaments and details will be published once the remaining manager forms are received. On the girls' side, we are still trying to finalize the hosts for two of the tournaments.

The state championship will return to Alltech Arena, with the girls competing on Thursday, Feb. 27. The boys'/coed championships will be held Feb. 28 (Friday) and March 1 (Saturday).

**Officials
Update/Review**

Postseason assignments for region tournaments will be determined and distributed in the next week or so, once all host sites are finalized.
