RE: Financial Aid Report

I have begun a review of the submitted Financial Aid Surveys for the 2023-24 school year. There are still three (3) member schools who have not been able to submit a full report. They are as follows:

- Beth Haven – has submitted a partial response. I am working with them on getting their full report submitted.
- Heritage – have not submitted any response. I am working with them on getting their full report submitted.
- Holy Family – Superintendent contacted me last week and explained they have new staff members. I am working with them on getting their full report submitted and updating their Arbiter school account with the proper administrators.

After initial review of the other surveys, I do have follow-up questions for some member schools. I will contact school representatives to have them provide additional clarity and bring a full report back to the Board for review.
