Officials Licensing Background Checks

**Takeaways to help
Board and Staff**

Since implementing the background checks with PeopleTrail this year, the Association now has 3527 officials who have had background checks conducted (@\$12 per check).

19 officials have been disqualified from officiating, which is extremely low.

3 officials have appealed using the adopted policy and State Police Background Checks and reinstated due to correction of their court records.

General Commentary

As independent contractors, the association performing this service at the request of the officials is an aid to the member schools and the officials not having to do a check at each school.
