Student Testimonials

- Edgenuity has helped me by being more organized in my education and I have better time management with it. It's more convenient because it allows me to do it at home on my own time, I don't feel overwhelmed and stressed with all the noise like it was when I went to school. I'm glad Edgenuity exists for students like me and I hope other students found it just as helpful as I did.
- I like that I can work on Edgenuity when I have time throughout the day. I can also go back and watch the videos if I need to. This has made things so much easier for me than being in a classroom.

- As you know, my son has been using Edgenuity online since the pandemic of 2020. He has A.D.H.D and has always struggled with focusing and paying attention in the classroom. Edgenuity allows my son to work from our home quietly at his own pace and on his own time without any disruptions or distractions that are in a normal classroom setting, as well as allowing him the freedom to take breaks when needed.
- I myself am highly in favor of Edgenuity simply because it has been a game changer to my son and his education, as I'm sure it has to other students with similar backgrounds.
- BVA has been a godsend for our family this year because of major health issues and anxiety of attending in person. The teacher has been so helpful and supportive through the semester and it's great to see his confidence grow.

Parent Testimonial

The background of the slide features several thin, curved lines in a light gray color, some solid and some dashed, creating a modern, abstract design.
