

## MEMORANDUM

FROM: Jason Wilson - Director of Technology  
TO: Christian County Board of Education  
DATE: February 13, 2025  
RE: Technology Vehicle Purchase

---

The technology department is in need of an additional vehicle in order to service the county. We currently have 5 vehicles with an average age of 13 years old. One of those vehicles has recently had to be towed in for transmission related issues. I am asking for the board to approve the purchase of a vehicle for the technology department not to exceed \$35,000.
