

School Staffing**BOARD ALLOCATION NOTICES**

In accordance with 702 KAR 003:246, the Board shall provide each council with both a tentative and a final allocation for school staffing for the next fiscal year. The notifications shall include the Board-approved guidelines used in determining the allocations and the formulas utilized in calculating numbers of positions. Allocations, at a minimum, shall budget funds sufficient for the council to meet the following staffing needs of the school:

A. Certified Staff:

- A. To meet statutory class size caps based on projected student enrollment to the nearest one-tenth position minus all state enrollment deductions;
- B. Pupil contact hours as required by law; and
- C. To meet all other certified staff positions generated by District programs approved annually by the Board, excluding fringe benefits, categorical programs, exceptional children services, itinerant, extra duty and extended employment positions, and positions allocated that are not required by statutory cap size requirements.

B. Classified Staff:

- A. To meet all school-based positions approved annually by the Board in non-categorical programs.

BOARD DUTY FOR ALL POSITIONS

- To take full responsibility for all decisions regarding transfers and dismissals, itinerant personnel and special programs personnel;
- To provide salaries including adjustments for any salary changes made by the Board; and
- To budget for vacant positions at 95% of the average district salary for the job classification.

COUNCIL AUTHORITY

After receiving notification of the final financial allocation for the school from the Board, the council shall determine, within the funds allocated, the number of persons to be employed at the school in each school level job classification.

For existing school level vacancies, the council may choose to reassign funds from one Board approved school level job classification to another, or to use these funds for other purposes consistent with its responsibilities. Funds remaining from the school's staffing allocation at the end of the year shall revert to the District's general fund, unless the council receives Board approval to escrow the funds to be used at a future date for an approved project.

COUNCIL TO REPORT

By the date specified by the Superintendent/designee, the council shall report to the Board the number of persons to be employed at the school in each job classification.

School Staffing**IMPACT ON DISTRICT BUDGET**

The funding allocation to a school in future District budgets shall not be altered by council action.

In assigning funding of vacant positions to alternate Board-approved job classifications, a council may choose to spend more than the amount allocated by the Board and provide the difference from discretionary council funds. However, the Board shall not be obligated to increase allocations in future District budgets to cover this increased expenditure.

If assigning funding of vacant positions to alternate Board-approved positions, a council may choose to spend less than the amount allocated by the Board and request permission from the Board to reallocate and/or escrow the remaining revenue.

DISCRETIONARY ALLOCATION

In addition to the base funding formula, at the Board's discretion, each school may be allocated all or a portion of one discretionary position. Funding shall not exceed one average teacher's salary for the school district, and the allocation shall be prorated according to the average daily attendance of each school. Discretionary funds shall be identified annually by the SBDM council to address the needs identified in the School Improvement/Action Plan, and can only be obligated for one year. Discretionary fund program results data shall be furnished to the school based council and the School Board annually.

ADJUSTMENTS

Adjustments to the final staffing allocation may be made due to increases in salary schedules, salary adjustments or changes in enrollment. However, any such adjustments shall be made by September 15 and the council notified if the adjustment represents a change.

702 KAR 3:246. School council allocation formula: KETS District Administrative System Chart of Accounts.

RELATES TO: KRS 160.345(8)

STATUTORY AUTHORITY: KRS 156.070(4), 160.345(8)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 160.345(8) requires that the Kentucky Board of Education promulgate an administrative regulation which establishes a formula by which school district funds shall be allocated to each school council. This administrative regulation establishes the school council allocation formula for use by local school districts utilizing the Kentucky Education Technology System (KETS) District Administrative System Chart of Accounts per 702 KAR 3:120.

Section 1. Definitions.

- (1) "Categorical programs" means programs under which funding and uses for the funding are specifically set by the funding authority and are not in the general fund.
- (2) "District average certified teacher's salary" means the dollar value determined by dividing paragraph (a) of this subsection by paragraph (b) of this subsection, with:
 - (a) Equal to the total of all salaries paid to certified personnel working noncategorical programs in the district for 185 days or a different number of days as required by the General Assembly; and
 - (b) Equal to the total number of certified personnel working in non-categorical programs in the district.

Section 2.

- (1) The local school district shall provide notice to school councils of a tentative allocation by March 1 and notice of an updated allocation by May 1 of each year for the funds and positions identified in Sections 4, 5, 6, and 8 of this administrative regulation for the next budget year in accordance with this administrative regulation.
- (2) The local school district shall provide to school councils an allocation pursuant to Section 7 of this administrative regulation for the next budget year by May 30 of each year in accordance with this administrative regulation.

Section 3. The local school district shall calculate the funds available for distribution to school councils using only the general fund and by excluding the following proposed district-wide expenditures from the general fund proposed budget for the year being allocated:

- (1) Function 1200, Home and hospital;
- (2) Function 1700, Expelled or suspended;
- (3) Function 1900, Other instructional programs;
- (4) Function 2110-2190, Student support services, except for school-based employees and specified supplies;
- (5) Function 22XX, improvement of instruction;
- (6) Function 23XX, District administrative support services;
- (7) Function 25XX, Business support services;
- (8) Function 26XX, Plant operation and maintenance;
- (9) Function 27XX, Student transportation;
- (10) Function 3XXX, Noninstructional services;
- (11) Function 4XXX, Facilities acquisition and construction services;
- (12) Function 5XXX, Other; and
- (13) All expenditures for extra duty and extended employment, exceptional children services, itinerant teachers, and fringe benefits in all codes.

Section 4. Allocation for Certified Staff.

(1) A board staffing policy or guidelines shall be established to determine the number of allocated positions for certified staff for each school. To determine the allocation to school councils for certified staff, the district shall provide sufficient funds:

(a) To meet class size caps and pupil contact hours established in KRS 157.360 based on the projected full-time equivalent enrollment for the upcoming school year; and

(b) To meet other classroom teaching and certified staff positions not included in paragraph (a) of this subsection that are generated by the local board certified staffing policy.

(2) Any revisions of staffing policy or guidelines for the next school year shall be adopted by the local board and submitted to the Kentucky Department of Education by May 1 of each year.

(3) Funds for positions allocated in subsection (1) of this section shall be based on the previous year's actual 185 day certified salary or the number of contract days as otherwise required by the Kentucky General Assembly within a biennial budget adjusted by changes in rank, additional years of experience, and changes in the district's salary schedule for each existing staff member.

(4) Funds for new and vacant certified staff positions shall be based on a minimum of ninety-five (95) percent of the district's average 185 day certified salary adjusted for changes in the district's salary schedule for noncategorical staff paid in the previous year.

(5) If the actual salary of new certified personnel is less than ninety-five (95) percent of the district average certified teacher's salary, the difference shall revert to the district budget for possible reallocation under Section 7 of this administrative regulation.

(6) Any adjustments to the allocation due to increases in salary schedules, salary adjustments, or increases or decreases in enrollment shall be made by September 15. A council shall be notified of an adjustment if the adjustment represents a change in staffing due to enrollment increases or decreases.

Section 5. Allocation for Classified Staff.

(1) A board staffing policy or guidelines for the next school year shall be adopted by the local board and established to determine the number of allocated positions for classified staff for each school. Any revisions of staffing policy or guidelines shall be submitted to the Kentucky Department of Education by May 1 of each year.

(2) Funds shall be provided for all school-based classified positions in noncategorical programs generated by the local board classified staffing policy using the previous year's salary adjusted for any district-wide increase.

(3) Funds for new or vacant positions shall be based on ninety-five (95) percent of the district's average classified salary for that personnel job class for noncategorical staff adjusted for any district-wide increase.

(4) If the actual salary of new classified personnel is less than ninety-five (95) percent of the district's average classified salary for the personnel job class, the difference shall revert to the district budget for possible reallocation under Section 7 of this administrative regulation.

(5) Any adjustments to the allocation due to increases in salary schedules, salary adjustments, or increases or decreases in enrollment shall be made by September 15. A council shall be notified of an adjustment if the adjustment represents a change in staffing due to enrollment increases or decreases.

Section 6. Other Minimum Allocations.

(1) School councils shall receive a minimum allocation of three and one-half (3 1/2) percent of the statewide guaranteed base funding level for Support Education Excellence in Kentucky (SEEK) based on prior year final average daily attendance.

(2) The amount generated in subsection (1) of this section shall be adjusted at the end of the second school month for changes in average daily attendance and projected funding

for SEEK.

(3) Allocations for operating expenses, including utilities, or for health and safety requirements of schools shall not be included in the allocations required by Sections 4, 5, 7, or 8 of this administrative regulation or this section. If funds are given to a school for these purposes, the funds shall be distributed in a separate allocation.

Section 7. Distribution of the Balance.

(1) The balance between the amount generated in Sections 4, 5, and 6 of this administrative regulation and the amount available for distribution to school councils from Section 3 of this administrative regulation shall be distributed by the local board in one (1) of the following manners:

- (a) An amount per prior year final average daily attendance;
- (b) Based on pupil needs identified by school councils in their adopted school improvement plans and designated by the local school board. Money provided under this paragraph shall be used only for the needs identified by the council from its adopted school improvement plan and designated by the board;
- (c) For specific instructional purposes based on student needs identified by the board from disaggregated student achievement data. Money provided under this paragraph shall be used by the council to address only the identified needs; or
- (d) A combination of paragraphs (a), (b), and (c) of this subsection.

(2) An adjustment may be made to allocations under subsection (1) of this section at the end of the second school month for changes in average daily attendance and projected funding for SEEK, and changes in the projections for prior year, end-of-year balances.

(3) If the allocations in Sections 4, 5, and 6 of this administrative regulation generate more funds than are available in Section 3 of this administrative regulation for distribution to school councils, the local board shall make every reasonable effort to make up the deficit.

Section 8.

(1) A tentative amount for professional development shall be allocated within thirty (30) days of notification from the Kentucky Department of Education, pursuant to KRS 160.345(8).

(2) The amount allocated shall be equal to at least the minimum requirement multiplied by the average daily attendance from the prior school year.

(3) The amount of professional development allocation shall be amended by September 15 to reflect the most recent annual average daily attendance.

Section 9. Each year school councils shall review the budgets for all categorical programs and provide comments to the local board prior to the adoption of the budgets.

Section 10. A school council allocation by the district shall not result in a proposed expenditure that would cause the district budget to hold in reserve less than the required amount set by KRS 160.470.

Section 11. A district shall not be prohibited from passing on to school councils any reduction in state and local revenues.

Section 12.

(1) The Kentucky Board of Education may approve requests from local school districts annually to use an alternative formula to allocate funds to schools.

(2) A local school district requesting approval to use an alternative process shall submit written documentation that the formula would generate funding equal to or greater than the amount provided to school councils under Section 3 of this administrative regulation.

(3) All requests shall be received by the Kentucky Department of Education by October 1 preceding the allocation year.

(4) Any alternative process approved by the Kentucky Board of Education shall be subject to subsequent review.

Section 13. Under Sections 4 and 5 of this administrative regulation, the funds allocated for staff positions shall be exactly the amounts permitted by the board policies or guidelines required in those sections.

157.360 Base funding level -- Adjustment -- Enforcement of maximum class sizes -- Allotment of program funds -- Recalculation of allocated funds -- Lengthening of school days.

- (1)
 - (a) In determining the cost of the program to support education excellence in Kentucky, the statewide guaranteed base funding level, as defined in KRS 157.320, shall be computed by dividing the amount appropriated for this purpose by the prior year's statewide average daily attendance.
 - (b) When determining the biennial appropriations for the program, the average daily attendance for each fiscal year shall include an estimate of the number of students graduating early under the provisions of KRS 158.142.
- (2) Each district shall receive an amount equal to the base funding level for each pupil in average daily attendance in the district in the previous year, except a district shall receive an amount equal to one-half (1/2) of the state portion of the average statewide per pupil guaranteed base funding level for each student who graduated early under the provisions of KRS 158.142. Each district's base funding level shall be adjusted by the following factors:
 - (a) The number of at-risk students in the district. At-risk students shall be identified as those approved for the free lunch program under state and federal guidelines. The number of at-risk students shall be multiplied by a factor to be established by the General Assembly. Funds generated under this paragraph may be used to pay for:
 1. Alternative programs for students who are at risk of dropping out of school before achieving a diploma; and
 2. A hazardous duty pay supplement as determined by the local board of education to the teachers who work in alternative programs with students who are violent or assaultive;
 - (b) The number and types of exceptional children in the district as defined by KRS 157.200. Specific weights for each category of exceptionality shall be used in the calculation of the add-on factor for exceptional children; and
 - (c) Transportation costs. The per-pupil cost of transportation shall be calculated as provided by KRS 157.370. Districts which contract to furnish transportation to students attending nonpublic schools may adopt any payment formula which ensures that no public school funds are used for the transportation of nonpublic students.
- (3) Beginning with the 2015-2016 school year and each year thereafter, the General Assembly shall annually allocate funds equal to one-half (1/2) of the state portion of the average statewide per pupil guaranteed base funding level for each student who graduated early under the provisions of KRS 158.142 the previous school year to the Kentucky Higher Education Assistance Authority for deposit in the early graduation scholarship trust fund.
- (4) The program to support education excellence in Kentucky shall be fully implemented by the 1994-95 school year.
- (5)
 - (a) Except for those schools which have implemented school-based decision making, the commissioner of education shall enforce maximum class sizes for

every academic course requirement in all grades except in vocal and instrumental music, and physical education classes. Except as provided in subsection (6) of this section, the maximum number of pupils enrolled in a class shall be as follows:

1. Twenty-four (24) in primary grades (kindergarten through third grade);
 2. Twenty-eight (28) in grade four (4);
 3. Twenty-nine (29) in grades five (5) and six (6);
 4. Thirty-one (31) in grades seven (7) to twelve (12).
- (b) Except for those schools which have implemented school-based decision making, class size loads for middle and secondary school classroom teachers shall not exceed the equivalent of one hundred fifty (150) pupil hours per day.
- (c) The commissioner of education, upon approval of the Kentucky Board of Education, shall adopt administrative regulations for enforcing this provision. These administrative regulations shall include procedures for a superintendent to request an exemption from the Kentucky Board of Education when unusual circumstances warrant an increased class size for an individual class. A request for an exemption shall include specific reasons for the increased class size with a plan for reducing the class size prior to the beginning of the next school year. A district shall not receive in any one (1) year exemptions for more classes than enroll twenty percent (20%) of the pupils in the primary grades and grades four (4) through eight (8).
- (d) In all schools the commissioner of education shall enforce the special education maximum class sizes set by administrative regulations adopted by the Kentucky Board of Education. A superintendent may request an exemption pursuant to paragraph (c) of this subsection. A local school council may request a waiver pursuant to KRS 156.160(2). An exemption or waiver shall not be granted if the increased class size will impede any exceptional child from achieving his or her individual education program in the least restrictive environment.
- (6) In grades four (4) through six (6) with combined grades, the maximum class size shall be the average daily attendance upon which funding is appropriated for the lowest assigned grade in the class. There shall be no exceptions to the maximum class size for combined classes. In combined classes other than the primary grades, no ungraded students shall be placed in a combined class with graded students. In addition, there shall be no more than two (2) consecutive grade levels combined in any one (1) class in grades four (4) through six (6). However, this shall not apply to schools which have implemented school-based decision making.
- (7) If a local school district, through its admission and release committee, determines that an appropriate program in the least restrictive environment for a particular child with a disability includes either part-time or full-time enrollment with a private school or agency within the state or a public or private agency in another state, the school district shall count as average daily attendance in a public school the time that the child is in attendance at the school or agency, contingent upon approval by the commissioner of education.

- (8) Pupils attending a center for child learning and study established under an agreement pursuant to KRS 65.210 to 65.300 shall, for the purpose of calculating average daily attendance, be considered as in attendance in the school district in which the child legally resides and which is party to the agreement. For purposes of subsection (1) of this section, teachers who are actually employees of the joint or cooperative action shall be considered as employees of each school district which is a party to the agreement.
- (9) Program funding shall be increased when the average daily attendance in any district for the first two (2) months of the current school year is greater than the average daily attendance of the district for the first two (2) months of the previous school year. The program funds allotted the district shall be increased by the percent of increase. The average daily attendance in kindergarten is the kindergarten full-time equivalent pupils in average daily attendance.
- (10) If the average daily attendance for the current school year in any district decreases by ten percent (10%) or more than the average daily attendance for the previous school year, the average daily attendance for purposes of calculating program funding for the next school year shall be increased by an amount equal to two-thirds ($\frac{2}{3}$) of the decrease in average daily attendance. If the average daily attendance remains the same or decreases in the succeeding school year, the average daily attendance for purposes of calculating program funding for the following school year shall be increased by an amount equal to one-third ($\frac{1}{3}$) of the decrease for the first year of the decline.
- (11) If the percentage of attendance of any school district shall have been reduced more than two percent (2%) during the previous school year, the program funding allotted the district for the current school year shall be increased by the difference in the percentage of attendance for the two (2) years immediately prior to the current school year less two percent (2%).
- (12) (a) Instructional salaries for vocational agriculture classes shall be for twelve (12) months per year. Vocational agriculture teachers shall be responsible for the following program of instruction during the time period beyond the regular school term established by the local board of education: supervision and instruction of students in agriculture experience programs; group and individual instruction of farmers and agribusinessmen; supervision of student members of agricultural organizations who are involved in leadership training or other activity required by state or federal law; or any program of vocational agriculture established by the Department of Education. During extended employment, no vocational agriculture teacher shall receive salary on a day that the teacher is scheduled to attend an institution of higher education class which could be credited toward meeting any certification requirement.
- (b) Each teacher of agriculture employed shall submit an annual plan for summer program to the local school superintendent for approval. The summer plan shall include a list of tasks to be performed, purposes for each task, and time to be spent on each task. Approval by the local school superintendent shall be in compliance with the guidelines developed by the Department of Education. The supervision and accountability of teachers of vocational agriculture's

summer programs shall be the responsibility of the local school superintendent. The local school superintendent shall submit to the commissioner of education a completed report of summer tasks for each vocational agriculture teacher. Twenty percent (20%) of the approved vocational agriculture programs shall be audited annually by the State Department of Education to determine that the summer plan has been properly executed.

- (13) (a) In allotting program funds for home and hospital instruction, statewide guaranteed base funding, excluding the capital outlay, shall be allotted for each child in average daily attendance in the prior school year who has been properly identified according to Kentucky Board of Education administrative regulations. Attendance shall be calculated pursuant to KRS 157.270 and shall be reported monthly on forms provided by the Department of Education; and
- (b) Pursuant to administrative regulations of the Kentucky Board of Education, local school districts shall be reimbursed for home and hospital instruction for pupils unable to attend regular school sessions because of short-term health impairments. A reimbursement formula shall be established by administrative regulations to include such factors as a reasonable per hour, per child allotment for teacher instructional time, with a maximum number of funded hours per week, a reasonable allotment for teaching supplies and equipment, and a reasonable allotment for travel expenses to and from instructional assignments, but the formula shall not include an allotment for capital outlay. Attendance shall be calculated pursuant to KRS 157.270 and shall be reported annually on forms provided by the Department of Education.
- (14) Except for those schools which have implemented school-based decision making and the school council has voted to waive this subsection, kindergarten aides shall be provided for each twenty-four (24) full-time equivalent kindergarten students enrolled.
- (15) Effective July 1, 2001, there shall be no deduction applied against the base funding level for any pupil in average daily attendance who spends a portion of his or her school day in a program at a state-operated career and technical education or vocational facility.
- (16) During a fiscal year, a school district may request that the Department of Education recalculate its funds allocated under this section if the current year average daily attendance for the twenty (20) day school month as defined in KRS 158.060(1) that contains the most days within the calendar month of January exceeds the prior year adjusted average daily attendance plus growth by at least one percent (1%). Any adjustments in the allotments approved under this subsection shall be proportional to the remaining days in the school year and subject to available funds under the program to support education excellence in Kentucky.
- (17) To calculate the state portion of the program to support education excellence in Kentucky for a school district, the Department of Education shall subtract the local effort required under KRS 157.390(5) from the calculated base funding under the program to support education excellence in Kentucky, as required by this section. The value of the real estate used in this calculation shall be the lesser of the current

year assessment or the prior year assessment increased by four percent (4%) plus the value of current year new property. The calculation under this subsection shall be subject to available funds.

- (18) Notwithstanding any other statute or budget of the Commonwealth language to the contrary, time missed due to shortening days for emergencies may be made up by lengthening school days in the school calendar without any loss of funds under the program to support education excellence in Kentucky.

Legislative Research Commission Note (6/25/2013). A reference to "subsection (5)" in subsection (5)(a) of this statute has been changed in codification to "subsection (6)" under KRS 7.136(1)(e) and (h). In 2013 Ky. Acts ch. 104, sec. 3, a new subsection (3) was inserted into this statute and subsequent subsections were renumbered, but the internal reference in the existing language was overlooked.
