Spring Boys Volleyball

**Positive Developments
and Highlights**

We recently held with Commissioner Tackett and Mr. Bottoms a meeting of the Boys' Volleyball Assigning Secretaries. Thankfully these individuals were the same as for girls' and so the transition to schedules in Arbitrator, etc., is seamless.

**Issues of Concern
(legal, playing Rules,
fiscal management,
etc.)**

Continue to send out updates to Athletic Directors and Coaches and updating the Frequently Asked Questions blogpost for the membership. <https://khsaa.org/11-26-24-boys-volleyball-frequently-asked-questions/>

**Championship
Update/Review**

Staff will be working with the membership to get regional seeding procedures finalized as well as identifying our 8 regional tournament host sites.

**Noteworthy Changes /
Anticipates Changes**

The NFHS for 2025-2026 has changed the rule for the use of a textured ball for either boys' or girls' play. Staff will prepare information and share with the Board a plan of implementation at the May meeting.
