NFHS Lacrosse Rules Interpreters Meeting

**Takeaways to help
Board and Staff**

I was invited to attend the NFHS lacrosse rules interpreter meeting in Indianapolis. The meeting covered rule changes, points of emphasis, and featured presentations from other state associations related to both boys' and girls' lacrosse.

General Commentary

This meeting offered a chance to hear from states with well-established lacrosse programs, sharing what has worked and what hasn't. NYSPHSAA gave an update on their shot clock experiment, and there was also a presentation on the recruitment and training of lacrosse officials. State associations had productive discussions on this important topic.
