RE: 2024 Summit Educational Publication

Dear Julian,

On behalf of all of us at the National Association of Sports Officials (NASO), a sincere thank you for your support of the 2024 Summit which was held this past summer in Atlanta. We had tremendous attendance and participation.

The Atlanta Summit also had tremendous sponsorship support. You and your organization were an important component of that history-making event. Without you we could not have presented what we did in the way we did.

The Sports Officiating Summit is all about education and networking for the officiating industry. An important outreach from every Summit is the publication you have in your hand. It represents the depth and breadth of the educational program that was presented in Atlanta. This content created is shared far and wide in the industry, exporting the great things that happened because of your generous support.

Please take a few minutes to dig into it. It is worth your time. The speakers and topics covered in Atlanta were extraordinary.

Thank you again. We look forward to your participation in the 2025 Summit, which will be presented by NASO July 27-29, 2025 in Montgomery, Ala.

We appreciate all you do for the industry, the Summit and for NASO and its more than 30,000 members from across the country and around the world.

Sincerely,

Bill Topp
President, NASO
