

## Counselor's Corner

March 2025

Ms. Jennifer Weber

- **High School Visits:** The 8<sup>th</sup> graders have visited Dayton High School and Bellevue High School in the past two weeks. They enjoyed the opportunity to tour each school, meet teachers and students, and ask questions about their transition as freshmen. Ms. Weber will deliver application packets to each school prior to spring break.

- **School-Based Mental Health Training:** Mrs. Melville and Mr. Ray attended an all-day training at NKCES on March 7. This professional development was packed with resources for schools to use to build their capacity in trauma-informed practices. Mrs. Melville and Mr. Ray shared the information with Ms. Weber, and the team began working on a plan of next steps for growing our mental health program next year. Some of our vision includes updating our crisis intervention plan, creating a tiered intervention menu of trauma-informed supports in our school, and providing mental health professional development for all staff in the fall of 2025.
