(1) Provide a brief summary of:

(a) What this administrative regulation does: KRS 156.070 requires the Kentucky Board of Education (KBE) to manage and control the common schools, including interscholastic athletics in the schools, and authorizes the KBE to designate an agent to manage athletics. This regulation designates the Kentucky High School Athletic Association (KHSAA) as the agent to manage high school and middle school interscholastic athletics, and incorporates by reference the bylaws, procedures and rules governing interscholastic sports.

(b) The necessity of this administrative regulation: This regulation is necessary to designate the agency to provide the day-to-day management activities of interscholastic athletics in Kentucky; to set forth the financial, planning and review processes governing the agent; and to incorporate by reference the bylaws, procedures and rules of the agency.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The regulation designates the agency to manage interscholastic athletics, as authorized by the authorizing statute, and outlines the conditions under which this authority is granted.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It designates the KHSAA as the agent to manage interscholastic athletics in the schools and districts at the high school and middle school levels, and publishes changes in bylaws, procedures and rules for affected schools and districts.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: These amendments make changes to the documents incorporated by reference, including the bylaws, to make the rule compliant with the provisions of recent legislation. Finally, additional changes were made to update policies and other documents according to recent board action.

(b) The necessity of the amendment to this administrative regulation: Pursuant to the KHSAA Constitution, which is incorporated by reference in this regulation, the members are required to have an annual meeting to discuss and recommend any needed changes to the Constitution and Bylaws. While they are not required to make changes to the Constitution and Bylaws, substantive changes must be made through this process. This amendment incorporates changes approved at the annual meeting of the Delegate Assembly.

(c) How the amendment conforms to the content of the authorizing statutes: The statute authorizes the KBE to designate an agency to manage interscholastic athletics in the common schools. The regulation designates the KHSAA as that agent at both the high school and middle

school levels, and incorporates by reference the KHSAA Handbook, which consists of the KHSAA Constitution, Bylaws, Due Process Procedure, and Board of Control Policies to provide rules and guidance to the member schools and districts governing sporting events. The amendments in the Bylaws are made annually, according to the process outlined in the Constitution, and reflect input given by member schools and districts on changes that need to be made to provide a sounder structure of governance.

(d) How the amendment will assist in the effective administration of the statutes: See (c) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: 171 School Districts; students participating in interscholastic athletics

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Schools participating in interscholastic athletics must ensure compliance with the requirements of the regulation and material incorporated by reference. The KHSAA must comply with the regulation requirements as the KBE's designated agent.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No additional cost is anticipated as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): There will be minimal impact because of the nature of the changes to the regulation. There are requirements that continue to be placed on schools and coaching personnel. However, the training required to meet these requirements will be provided at no costs to the schools, administrators, or the coaching personnel resulting in a safer and more complete education-based athletic experience for the Commonwealth's student-athletes.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: Minimal

(b) On a continuing basis: None

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: KHSAA is funded through membership dues, as well as from gate receipts and sponsorships related to the various state championships.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: None

SUMMARY OF CHANGES TO MATERIAL INCORPORATED BY REFERENCE

702 KAR 7:065. Designation of agent to manage middle and high school interscholastic athletics

REVISIONS:

KHSAA Constitution, 5 pages

Changes have been made to the KHSAA Constitution to clarify qualifications of sectional and designated members. The balloting process has also been clarified to recognize the use of electronic balloting.

KHSAA Bylaws, 30 pages

Substantive changes to the KHSAA Bylaws as a result of action taken by member schools at the Annual Meeting. These changes include an amendment to amend Bylaw 5 (Minimum Academic Requirement) to require member schools to develop a written policy to determine reinstatement of a student's eligibility once they have been ineligible under the bylaw. This change allows flexibility for schools that have different grading periods (semester, trimester, etc.) and allows the bylaw to be more equitable.

An amendment was also made to Bylaw 23 regarding the starting date for practice in the sport-activities of Archery, Bass Fishing, and Bowling. This change allows the season to more closely mirror other sports and sport-activities throughout the year.

Other substantive changes to the Bylaws were made to incorporate recent statutory or regulatory changes. Bylaw 4 was amended to align with 702 KAR 7:125 in determining what a full-time student is.

Changes in Bylaws 6/7 (Transfer Rule) were made to recognize recent implementation of local board of education decisions relating to transportation plans and the impact on enrollment and assignment that result from such changes. Additional changes were also made to continue to clarify the applicability of the bylaw.

Changes were made to Bylaw 10 (Amateur/Awards) to recognize the elimination of the National Letter of Intent by the Collegiate Commissioners Association causing the necessary re-write of many of the programs surrounding NIL. This landscape continues to evolve and change continues to be made at the statutory level as well NCAA/NAIA levels.

Changes were made to Bylaw 25 (Requirement for Coaches and Others Working With High School Teams) to continue to clarify and emphasize the relationship between KHSAA, listed coaches, member schools and school districts, emphasizing the school district's responsibility for personnel matters while maintaining KHSAA's oversight in terms of eligibility and rule compliance. This eliminates any perceived confusion relative to responsibilities for the hiring, evaluation, and management of coaches, streamlining processes for personnel matters. This also reinforces the authority of member schools and school districts over their staff, including coaches, which can lead to better alignment with district-specific policies and procedures.

Changes were also made to the bylaws to recognize the addition of Boys'/Coed and Girls' Lacrosse as well as Boys'/Coed Volleyball. Also, changes were made to recognize and prepare for the implementation of an on-line/electronic submission process for rulings.

Finally, other non-substantive changes were made in the form of technical revisions to correct drafting and formatting errors.

KHSAA Due Process Procedures, 3 pages:

Changes were made to streamline the processing of requests for initial rulings. With electronic transmission being utilized to request the initial rulings, the Association is able to accelerate the time in which the ruling can be made. Additionally, changes were made to clarify and reiterate that initial rulings will take no less than 3 business days.

Other non-substantive changes were made in the form of technical revisions to correct drafting and formatting errors.

KHSAA Board of Control and Officials Division Policies, 54 pages:

Several changes were made to conform to decisions of the Board of Control on matters of policy as well as recognize recent legislation passed by the Kentucky General Assembly. Included in these changes are:

- Member and compliance expectations to ensure the provisions of HB 169 of the 2023 Regular Session of the Kentucky General Assembly were included which require schools to report on an annual basis to KDE the number and locations of the automated external defibrillators in every school building as well as the names and training dates of the training or rehearsal required by HB 169.
- Changes to clarify and ensure how statistics and records will be maintained regarding those students who elected to take part in the Supplemental School Year Program and authorized by SB128 of the 2021 Regular Session of the Kentucky General Assembly.

Changes were made to the policy regarding disqualified students to emphasize no administrative review may overturn or substitute the judgment of an official. There were also changes to clarify the impact of subsequent ejections within the same playing season as well as the impact of an ejection in the final contest of the season or school year.

Changes were made to the policy on alignment in the sport of Football to use an average enrollment for two years (as opposed to four) in light of the recent continuing enrollments changes across the state.

Policies related to the use of drones were amended to emphasize that they may not be used at KHSAA sanctioned events.

Changes were made to sports medicine policies to eliminate consideration of heat index and rely on Wet-Bulb Globe Temperature as this has become the “gold standard” method in measuring heat and humidity. Additional requirements for Cold Water Immersion and other methods of rapid cooling were also added or adjusted. These changes were all reviewed by various interest groups including the Sports Medicine Advisory Committee which includes physicians and trainers across the Commonwealth.

Minor adjustments to criteria for consideration to the KHSAA Hall of Fame were made to ensure proper consideration and submission of documentation for consideration.

Changes to the policy on the required background checks of officials were made to ensure matters in other states were properly reviewed through additional reviews through the Kentucky State Police and Federal Bureau of Investigation (paid for by the applicant) accordingly. This policy was also amended to allow for recognition of licensing in another state if needed due to an inadequate number of officials.

Additional changes were made to the fine schedule as it relates to unsportsmanlike behavior by fans, coaches, and administrative staff.

Various changes throughout the policies were made to recognize the addition of Boys' and Girls' Lacrosse as well as Boys'/Coed Volleyball.

Further technical revisions to reformat or correct drafting errors have also been made.
