Planning Team

District Staff [Recommended to include CIO/DTC, DLC, technician, finance officer, superintendent, academic officer, DAC, etc.]	
Tim Spencer – Superintendent	Mark Clemons – DTC/CIO
Lorri Bartley – CFO	Joshua Sword – Technology Technician
Jodi Blackburn – Chief Academic Officer	
Building Staff [Recommended to include principals, LMS, STC, counselors, teachers, teaching assistants, etc.]	
Kelli Abney – Menifee Central, K-7 Principal	Leisa Reed - MCHS Principal
Stephen Burchett – Digital Learning Coach	Sally Morris – Digital Learning Coach
Stephen Burchett – Business Coach	
Additional District Contributors [Recommended to include board members, SBDM members, program directors, etc.]	
Students [Recommended to include middle and/or high school students]	
Carter Wells – MCHS DataSeam Apprentice	Caleb Perkins – MCHS DataSeam Apprentice
Other [parents/community members, business and nonprofit leaders, etc.]	

Previous Year's Strategies Evaluation

In this section include a discussion of the previous year's strategies using the prompts below. Attempt to limit your narrative to the space provided.

What strategies from last year went well?

Big tech boost for the district! Every K-12 student now has their own Chromebook, leveling the digital playing field. Plus, 250 Chromebooks were refreshed, 74 shiny new iMacs landed in labs with updated OS, and our awesome Digital Learning Coaches and Dataseam Apprentices are still in classrooms, making tech integration a breeze.

Goals that were not met or didn't have the expected outcomes?

The data security and privacy training would gain greater impact through the implementation of a formal process to monitor the adoption of technology standards in classrooms.

Which strategies are dropping off the plan because you've met them or they aren't relevant now ?

With the successful completion of upgrading all desktops and laptops to the latest Windows 10 version 22H2 our focus is now shifting towards transitioning these devices to Windows 11. As a result, strategies related to maintaining older windows 10 versions are retired, unless critical updates are required.

Menifee County Apprentice Program is no longer on hold for the 2025-2026 year. Implementation for MDM for iMac's has been complete.

Needs that emerged after evaluation of the previous year's strategies?

A key finding from last year's strategy review is the necessity of implementing a mobile device management (MDM) system, like Mosyle, to ensure effective tracking, updating, and security of iPhones and iPads within our schools.

To enhance cybersecurity beyond basic network security measures, the district should investigate AI-powered solutions. These systems offer the advantage of proactively detecting and responding to cyber threats by analyzing network traffic to prevent data breaches.

Another key finding highlights the need to establish a central communication app or avenue for staff, students, and parents that effectively balances the demands of rapid communication with the critical need to minimize cybersecurity vulnerabilities.

Upcoming Year's Strategies Preview

If this is the first year of a multi-year plan, this section acts more like an executive summary of the plan as a whole. If this is the second or third year of a multi-year plan then aim your discussion to any new strategies or adjustments you are planning for this year.

[See [Technology Planning section of KETS Master Plan](#) for more information]

How did you and the planning team decide on the strategies and/or adjustments for this plan?

Collaborative efforts between the Technology Team and District Administrators informed the development of the strategies and adjustments within this plan. Multiple meetings facilitated the identification of emerging needs. Furthermore, consultations with individuals and groups representing diverse areas of the school district ensured a comprehensive and inclusive framework.

With the Student Helpdesk, peer support drives tech assistance. Students serve as troubleshooters, problem solvers, and customer service for peers and teachers. This initiative builds collaboration, enhances tech skills, and provides valuable real-world experience.

Briefly discuss the major activities slated for implementation and how these activities will advance curriculum and instruction integration, student technology literacy, professional development, & technology infrastructure.

Seamless connectivity fuels success, and our technology teams are making it happen. By consistently refreshing network infrastructure – think Wi-Fi access points and switches (Juniper AP's with AI technology) – and the devices used by our students and teachers, we're ensuring a reliable and efficient technology experience. This means fewer technical headaches and more focus on what truly matters: learning and teaching.

The profound impact of Dataseam Technology Apprenticeships lies in the real-world experience students gain under the guidance of seasoned tech professionals. This mentorship, coupled with the program's bridge between academia and careers, equips students with crucial in-demand skills for success in college and life.

The district has partnered with We Lead Computer Science, which will allow students to two pathway options in computer science technology; computer programming or cypersercurity. Students enrolled in the program can earn up to 22 college credits, get paid work experience and prepare for jobs paying \$80.000 or more a year.

Recognizing teachers' dedication to lifelong learning, we prioritize their continuous professional development in technology. This collaborative approach will further enable them to seamlessly integrate technology into their teaching. This results in both Menifee teachers and students being well-equipped to succeed in a learning environment powered by technology.

The impact begins right here in Menifee, and for us, it starts with the implementation of these activities. This will foster a vibrant learning ecosystem where technology empowers both our students and educators. We believe this will lead to students gaining valuable skills and experiences, and teachers receiving the ongoing support they need for seamless technology integration, enriching the learning journey for everyone in our Menifee community.

Student Voice

Personalized learning allows students to develop deeper learning competencies including critical thinking, using knowledge and information to solve complex problems, collaboration, and communication. Capturing student input about their access to opportunities that build these competencies is key to effective technology planning. Please answer the questions in the space provided below.

Do you currently have a method to collect student responses about the digital learning environment? If so, which tool (ex: BrightBytes, Speak Up, survey created by you or the district, other)?

Currently, there's no specific method in place, but I'm looking forward to implementing more student surveys soon to gather valuable feedback and better understand their needs.

If you have a method to collect student voice for this purpose, reference specific data points from the collection that were useful in developing strategies for this new plan or informed strategy adjustments during an ongoing plan.

KETS Master Plan Areas of Emphasis

Connected to the Future Ready Framework

The Future Ready Framework identifies eight Gears to assist districts in developing a roadmap for student success through personalized student learning and collaborative leadership. The KETS Master Plan has identified 44 Areas of Emphasis connected to the Future Ready Framework and are categorized as either *1) Acceleration Area (AA)* or *2) Growth Opportunity Area (GO)*. The “acceleration areas” are considered big wins, successes, and major milestones of the KETS are identified for continuation work. The “growth opportunity areas” address improvement targets for the Master Plan.

Use the Areas of Emphasis and Future Ready Framework as a lens to analyze current trends, initiatives, needs and goals of your district. Link the work of this new plan identified by your planning team to the Gears and Areas of Emphasis of the KETS Master Plan on the following pages. There is no expectation to address all 44 Areas of Emphasis of the KETS Master Plan. Any strategy that involves Erate, please include in the Budget & Resources gear. If your district has lease agreements (i.e.; device, fiber, etc.), be prepared to reference the quantity during the final submission process.

Collaborative Leadership

Future Ready Gear

KETS GUIDING PRINCIPLE – Collaborative leadership creates a shared vision of digital teaching and learning, an environment of collaboration (where partners make stuff together), encourages embracing innovation and empowerment, and a culture of evidence-based systems and processes.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to use structures providing opportunities for feedback from shareholders and evidence of how KETS systems and processes are working or not working (360 feedback, CIO Summit)

AA-2

Continue the fostering of strategic partnerships and collaborations among educational institutions, technology companies, policymakers, and community organizations. Develop networks that facilitate knowledge exchange, collaborative research, and resource-sharing to promote innovation and address common challenges in education technology.

AA-3

Continue the recognition and support for the crucial role of teachers as leaders in educational technology integration. Provide professional learning opportunities and resources that enable teachers to develop expertise in leveraging technology to enhance instruction and student engagement.

GO-1

Improve collaboration among educators, technologists, administrators, and researchers to foster a holistic approach to education technology development, implementation, and evaluation. Encourage open channels of communication and provide platforms for sharing best practices, ideas, and resources across different disciplines and institutions.

KETS AA or GO	Strategy/Action Item	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-1	We are now developing targeted surveys for different stakeholders (teachers, students, parents). These surveys will focus on gathering specific feedback regarding KETS functionalities, user experience, and the perceived impact on learning.	Chief Academic Officer/DTC /CIO	May 2026	N/A	\$0	Our goal is to achieve a target response rate of at least 50% from each stakeholder group (teachers, students, parents). This high level of participation will ensure robust engagement and provide statistically significant data for meaningful analysis.
AA-2	Proactively engaging in the EdTech community, we will attend conferences and events to network with potential partners. Participation in workshops and presentations will allow us to learn about current trends and connect with relevant organizations.	Edtech/ Chief Academic Officer /DTC /CIO	June 2026	General Funds	\$2000	We are implementing a strategy of defining clear goals for each conference attendee and their desired outcomes. This will ensure our participation is targeted and allow us to effectively track progress toward our objectives.
AA-3	We are actively building a network of Tech Champion teachers across all school buildings. These individuals will be the go-to for initial peer support and will help troubleshoot common technology challenges faced by their colleagues.	Edtech/ Chief Academic Officer /DTC /CIO	June 2026	N/A	\$0	We will continuously monitor the number of tech support tickets submitted centrally. A well-functioning Tech Champion network should lead to a noticeable decrease in basic troubleshooting requests as teachers effectively utilize their in-building peer support system.

Robust Infrastructure & Ecosystem

Future Ready Gear

KETS GUIDING PRINCIPLE – A robust infrastructure delivers the device, identity, network, leadership, and support needs of staff and students to create personalized learning environments using digital tools and resources.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to provide nation’s first, fastest, highest quality, and most reliable and secure internet access to 100% of Kentucky’s public schools

AA-2

Continue to ensure equity and standardization for delivery of device, network, data and support creating best in class staff and student digital experiences AND provide a system of shared/brokered/managed services maintaining low infrastructure costs and providing support structures promoting the use of personalized learning environments

AA-3

Continue to provide digital equity and foster a culture of digital connectedness for students and staff by ensuring access to a 1:1 device assignment, prioritizing mobile devices over traditional computer labs, and providing consistent Wi-Fi coverage throughout schools. This approach emphasizes always-on, everywhere seamless digital opportunity and access, and includes an emphasis on empowering schools/districts to have a full understanding of digital access beyond the campus

AA-4

Continue to encourage the use of instructional programs and administrative processes requiring cloud-based services

AA-5

Continue to implement efficient and effective interoperability strategies with statewide, districts, and schools EdTech systems and platforms (including integrations and seamless data exchange). Interoperability strategies aim to enhance user experiences and drive administrative efficiencies with education technologies.

 GO-1	Improve responsive EdTech support systems by securing leadership positions designed to make decisions to improve teaching and learning through technology integration. This role outlines the district’s vision for education technology, implements digital learning strategies, and ensures that technology resources align with students’ learning needs. Responsibilities and expectations are primarily focused on understanding the educational needs and challenges of the district with a “seat at the table.” Responsibilities would likely include influencing district-level budget conversations, leading planning efforts, research, procuring state and federal program funding, and establishing overall direction and vision of using technology for school efficiencies and instruction/learning.
 GO-2	Improve formal cycles for review, refresh, and replacement - ensure upgrades, additions, and when called for, sunseting/eliminations in a timely, environmentally responsible and proactive manner of devices, infrastructure, and digital tools and resources. Where possible, teams make concerted efforts to automate systems to drive effectiveness and efficiency. (This is also connected to budget gear)

KETS AA or GO	Strategy/Action Items	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-3	Upgrade network switches with integrated AI technology that continuously analyzes network traffic, port utilization, and potential bottlenecks, automatically adjusting configurations to optimize overall network performance.	CIO/DTC/ Vendor Partner	October 2026	Erate/KETS General Fund Federal Program Grant School-based Other	\$75000	To assess network performance, we will measure average download and upload speeds for users in various school locations. We anticipate seeing a general improvement in connection speeds across all areas.
AA	To provide secure and consistent experience for all Apple device users, we are implementing a comprehensive Mobile Device Management (MDM) solution across the school district. This will standardize configurations, enforce security protocols, and simplify application deployments.	CIO/DTC/ Vendor Partner	July 2026	General Fund/School base	\$1500	A key performance indicator we are monitoring is the enrollment rate of Apple devices in the MDM solution. Achieving a high percentage of enrolled devices is crucial for ensuring comprehensive management and consistent security protocols are applied across the district.

Data Security, Safety, Privacy & Use

Future Ready Gear

KETS GUIDING PRINCIPLE – Strategic use of student data is a cornerstone of digital learning and must be done securely, safely, and with a focus on maintaining privacy. Laws, policies, and procedures are enacted at the federal, state, district, and school levels that work in conjunction for this purpose. Student data are then utilized by security-aware, data-fluent, and data-informed educators for improved decision making leading to increased learning for students.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to support districts in securely accessing and managing key student and administrative data sets through improved user experiences, refined data collection processes, continuously updated policies and practices regarding student data security, and timely access to data sets that improve the depth and efficiency of student learning (*Infinite Campus, Early Warning, MUNIS, eTranscripts, School Report Card*)

AA-2

Continue to identify key aspects of data security regularly to build upon the current systems, procedures and policies to remain a leader in mitigating emerging threats (*acceptable use policies, firewall updates, data privacy studies, digital citizenship, content filtering*)

AA-3

Continue to utilize adoption metrics or trending data for planning purposes that allow EdTech and instructional leaders to identify what's working and what's not working based upon data quality and evaluate current systems and solutions to determine the effectiveness and future direction (*annual auditors, Impact survey, Technology Activity Report, Digital Readiness, Data Quality Study, Data Quality Campaign, SpeakUp*)

AA-4

Continue to migrate key administrative and student data sets to secure cloud providers that allow everywhere, all-the-time secure access for the improvement of student learning (*Infinite Campus, Early Warning, School Report Card, MUNIS*)

GO-1

Educate and support districts in the importance of personnel with duties related to student/staff data quality, security and privacy as well as bringing data privacy to the "radar screen" of teachers/staff (*The People Side of EdTech*)

Improve and enhance the tools available to maximize the use of data through enhanced reporting, tools that help improve data quality, and visual data analytic tools. Kentucky K-12 data systems are first-class, and we need enhanced tools to create a more usable and more interesting story for the average person who may not have a technology and data background.

KETS AA or GO	Strategy/Action Items	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-1	Develop and implement a consistent data analysis protocol for IC the Meniffee technology department	DTC/CIO/Technician/ Chief Academic Officer	Ongoing	N/A	0	Compare the tech department's data analysis time before and after the protocol. Less time post-implementation points to better efficiency.
AA-2	We're training staff and students on key data security habits: good passwords, phishing awareness, and safe online behavior.	Staff/Students/DTC/CIO/Technician/ Chief Academic Officer	Ongoing	N/A	Unknown	Monitoring the volume of suspicious email and security threat reports from staff and students will help us gauge training effectiveness. Higher reporting numbers suggest improved awareness.

Budget & Resources

Future Ready Gear

KETS GUIDING PRINCIPLE – The Master Plan, as well as district and school technology plans, are aligned to the vision for digital teaching and learning for students and staff. Revenue streams are aligned to account for the recurring and nonrecurring total cost of ownership to support the modernized and personalized learning experiences (and environment) in a manner that reflects good stewardship of tax dollars to include devices, infrastructure, support, data and human capital services. (i.e. The People Side of EdTech)

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to maximize local and state education technology expenditures through a system of shared/brokered/managed services

AA-2

Continue use of long-term planning strategies that allow for continuity of initiatives and systems (*ex. Accounting for cost of ownership over the lifespan of equipment so monies are allocated for repairs/upgrades*)

AA-3

Continue to leverage all available state and federal funding opportunities to address required basic cost of living increases, previous budget cuts of basic services, projected growth by districts (*e.g. Internet consumption*) while maximizing education technology programs and initiatives (*Technology Need, E-rate*)

GO-1

Educate districts on the ongoing cost of position/roles requiring technology-related duties in support of technology and instruction as well as modern drivers that require differentiated and strategic staffing models (*The People side of K-12 EdTech*)

GO-2

Educate districts on how to reduce expenditures on printing/print services (*both in consolidated contract pricing as well as shifting from paper to digital experiences*)

GO-3

Evaluate the need and explore new contracts that drive costs down for statewide summative online assessment, learning management systems, printing services and interim based assessments

See an increased percentage of districts examining which education technology investments are or are not being maximized (through adoption, frequency of use, and impact)

KETS AA or GO	Strategy/Action Items	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-1	Establish clear roles for technology department	DTC/Technician / Chief Academic Officer	Review Annually	N/A	0	Increased awareness of the specific positions and their associated technology-focused duties that contribute to technology and instructional support.
AA-2	Establish a strategic plan and allocate necessary funds for the systematic replacement or refreshing of student and staff devices, as well as their responsible recycling at the end of their lifecycle.	Finance Officer/DTC/CIO/Directors	Review Annually	General Funds/Schoolbased	\$70,000	Let's survey students and staff about their new devices, specifically asking if they've noticed improvements in speed, battery life, and how easy they are to use compared to the old ones. Positive responses here will indicate success.

Partnerships

Future Ready Gear

KETS GUIDING PRINCIPLE – Connecting students, leaders, and educators to the local and global community is a key factor to student success. The Master Plan will continue to provide opportunities for trusted relationships to build those connections as well as increase communication and transparency with shareholders, including families, districts, vendors, regional education collaboratives, postsecondary institutions, public libraries, and business/industry, in support of student learning and preparation beyond K-12.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to build trusted relationships with shareholders (families, districts, partners) to increase engagement, outreach, and connecting classroom experiences outside of school. (*districts, vendors, higher-education, regional education cooperatives, KET, KyVL*)

AA-2

Continue to utilize avenues of communication with shareholders allowing pertinent information and dialog to further student learning efforts (*Webcasts, Technology Activity Report, KETS Service Desk, Office of Education Accountability studies, independent studies, etc.*)

AA-3

Continue to utilize tools engaging postsecondary institutions, community members, districts and families in student learning and life after K-12 (*eTranscripts, School Report Card and Dashboard tool, Infinite Campus parent and student portal, KDE Open House, Digital Readiness Survey*)

GO-1

Partner with postsecondary pre-service teacher and principal programs to provide support in candidate preparation, especially regarding student project-based demonstrations of technology competencies; get more students on college/university campuses while they are a K-12 student. Encourage postsecondary institutions (as well as other partners) to host STLP events and/or fully maximize the opportunity to showcase the university and its programs while students are on campus

GO-2

Improve access to resources and professional learning for district-based online/virtual and remote learning programs to engage in continuous improvement in order to create high-quality online learning experiences for students

KETS AA or GO	Strategy/Action Items	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-1	Implementation of new School Finals site application	Finalsite/DTC/CIO/Directors	December 2025	\$1,800	School-Based	Monitor usage of district application by families, districts, and partners.
AA-3	Continued leverage partnership with DataSeam to establish student internship program	DTC/CIO/Technician / Chief Academic Officer	Ongoing	\$16,000	School-Based/General Fund	Increase capacity in student leader apprentices and employment.

Digital Curriculum, Instruction & Assessment

Future Ready Gear

KETS GUIDING PRINCIPLE – A digital learning experience is fostered by a teacher or coach with the use of rich digital instructional materials that are vetted to the rigor of Kentucky Academic Standards (KAS). A robust digital environment provides students with the opportunity to assess their own learning/progress towards mastery of content/skills or utilize instructional technology to provide timely feedback that moves learning forward. Digital curriculum and instruction can also provide students the opportunity to create digital products showcasing a deep understanding of core competencies of every subject, demonstrating mastery of Kentucky Academic Standards for Technology, and utilizing digital collaboration tools that provide a realistic connection to postsecondary and career readiness.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to provide access to high-quality learning experiences which further aligns to the Kentucky Digital Learning Guidelines

AA-2

Continue to promote, for ALL students, the use of Kentucky-approved/adopted Kentucky Academic Standards (KAS) for Technology, KAS for Computer Science, and KAS for Library Media Learning *(all based on national and international learner standards)*

AA-3

Continue providing opportunities for students to demonstrate learning connected to and through KAS for Technology, KAS for Computer Science, and KAS for Library Media Learning *(empowering students through technology with STLP, CS/IT Academy, etc.)*

AA-4

Continue to provide efficient and effective access to online assessment tools that allow teachers and administrators to assess student learning, provide timely feedback to students, and make curriculum decisions *(online formative assessment tools, interim based assessments, and summative assessments)*

AA-5

Continue to provide districts/classrooms access to high-quality and effective digital instructional materials through an equitable and robust digital experience

 AA-6	Continue to support teacher efforts in taking ownership of digital citizenship skills and educating their students in the same skills to foster a responsible, safe, secure, and empowered digital learning environment.
 AA-7	Continue to play a vital role in implementation of summative online assessment and school report card
 AA-8	Continue to create a closer connection with Career and Technical Education to explain computer science career pathway offerings specifically related to computer programming/coding and increase valuable industry-level certifications and exams available through the CS & IT Academy
 GO-1	Identify high-quality digital content and tools (curriculum, instruction and assessment) designed to have the highest impact and value (e.g. is the technology making or not making an instructional and learning difference?), including frequency of use by teachers and students
 GO-2	Encourage, engage, and empower the safe and responsible uses of Artificial Intelligence (AI) into school efficiency and the learning space by teachers and students (ensuring humans remain in the loop with strong AI implementations)

KETS AA or GO	Strategy/Action Item	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-3	Every school will support technology opportunities and pathways for students	DTC/CIO/Technician/ Chief Academic Officer /Principals/Teachers/ Students	Ongoing	KETS/General Funds	\$2000	Master Schedules Surveys
AA-4	Provide access to online instruction and assessment tools. (Universal Screener, diagnostics, formative	DTC/ Chief Academic Officer /Principals/Teachers/ Students	Ongoing	General Funds	\$25,000	Increased student performance data.

	assessments), (iReady, Amira)					
AA-8	Provide opportunities for high school students to take advanced computer courses, including cyber security and computer programing. Continue to provide digital literacy and support CTE Pathways	Principals/ Chief Academic Officer /Principals/Teachers	Ongoing	N/A	0	MCHS Master Schedule and CTE Pathways
AA-2	K-12 students: Access to KAS-aligned tech courses. Pacing guides available.	Principals/ Chief Academic Officer /Principals/Teachers	Ongoing	N/A	0	Increased opportunity to demonstrate learning connected to and through technology (Master Schedule)

Personalized Professional Learning

Future Ready Gear

KETS GUIDING PRINCIPLE – Digital learning expands the access to quality strategies and experiences for educators beyond the traditional methods of professional development. A culture of digital collaboration, workflow and relationships allows educators to build skill sets and instructional best practices with colleagues globally. This approach of increased access and flexibility for professional learning ultimately leads to greater success for students.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue building a culture of digital collaboration and connected digital relationships that allow administrators to support and encourage the use of digital tools by staff for professional learning

AA-2

Continue to promote and support the design and implementation of coaching models as a high-quality professional learning strategy (digital learning coach network, STLP coach network, etc)

GO-1

Provide districts with guidance and support to determine the learning needs of teachers resulting in high-quality professional learning opportunities related to digital curriculum and learning tools

KETS AA or GO	Strategy/Action Item	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-1	To maximize the effective use of technology in instruction, the district will increase teacher capacity through professional development opportunities,	DTC/CIO/ Chief Academic Officer	Ongoing	General Funds	\$0	Observe classrooms to assess how well teachers are using technology in their lessons following professional development. Focus on technology's impact on instruction, student engagement,

	including the ethical use of AI to improve instruction.					and learning outcomes.
AA-1	To ensure teachers are well-supported in their digital learning journey, we will continue to implement the District Tech Cadre to identify and address their professional learning needs regarding the effective use of technology resources.	DTC/CIO Head Technician Chief Academic Officer	Ongoing	N/A	0	Teachers will gain a clearer understanding of their professional learning needs and the relevant opportunities through resources like the Professional Learning Schedule, Teacher Needs Assessments,
AA-1	To further enhance skills, impact and to stay up to date on technology trends and needs, the technology team will attend ongoing professional learning, including KySTE Conference and AI Summit, bringing valuable knowledge and insights back to the district.	DTC/CIO/ Chief Academic Officer	Ongoing	General Funds	\$1,200	Increased capacity of Technology Team, Training Agendas

Use of Space & Time

Future Ready Gear

KETS GUIDING PRINCIPLE – The personalized learning environment for students requires reimagining the use of school space and time. Virtual instruction, cloud-based learning tools, digital instructional material, digital collaboration, digital workflows, digital efficiencies, and digital relationships, etc., assist in providing the vehicle for everywhere, all-the-time teaching and learning.

Areas of Emphasis: Acceleration Area (AA) /Growth Opportunity Areas (GO)

AA-1

Continue to provide guidance, support and resources for districts in the development and application of high-quality online, virtual, and remote learning programs as well as implementation of learning management systems

GO-1

Educate and support districts in the implementation and facilitation of digital learning tools and portable/mobile technologies that foster everywhere, all-the-time, always on, and 'always on you' access for staff and students

KETS AA or GO	Strategy/Action Item	Person(s) Involved	Anticipated Timeframe	Anticipated Funding Source	Anticipated Funding Amount	How will you know this is successful? (including metrics)
AA-1	To ensure a consistent and high-quality online learning experience across K-12, the district will adopt and systematically implement the Edgenuity curriculum.	Director of Support Services/ Chief Academic Officer	Ongoing	General Funds KESAC	\$25,000	Ensuring everyone has the support they need, we are increasing the availability of technology help for parents, students, teachers, and the broader community. Ticket monitoring via Spicework tool.
GO-1	Update changes to student Help desk to provide extended technological support to more	DTC/CIO: DataSeam Apprentices, Student	Ongoing January 2026	General Funds	0	Increase availability of after-hours and weekend help for parents, students and teachers.

	stakeholders.	Workers
