TIM SCHLOSSER
SUPERINTENDENT

MEMO

To: Board of Education
From: Craig Delk, Director of Operations & Community Relations
Date: April 16, 2025
Topic: Transportation Special Needs Consultant

Due to the increasing population, needs, and responsibilities within the world of special needs we experimented throughout the 2024-2025 school year with one of our special needs drivers bridging the communication gap between each of our schools and the transportation department.

This person attended ARC meetings, communicated with teachers, drivers, and monitors to help provide a safe and successful form of transportation for students that possibly need extended services.

Based on the success that we feel occurred throughout the school year, it was encouraged that the transportation department and special needs department request a full time position. This full time position will continue to ensure that our special needs students have their needs met within the schools and throughout their transportation experiences.
