RE: Infinite Campus Online Registration & Campus Learning Management

KDE's Office of Educational Technology has paid for Infinite Campus Online Registration and Campus Learning Management System for all KY K-12 school districts with federal funding. With the recent cut of federal funds, OET is no longer able to fund Online Registration or Campus Learning for the school districts. The current funding will end on June 30, 2025. Kentucky school districts that want to continue utilizing these premium products will need to pay for them out of district budgets.

Infinite Campus initially worked with OET to get a reduced price for a Statewide Solution, which was approximately half the price. To ease the burden for districts, Infinite Campus is extending the reduced price to individual districts for the 25-26 school year.

We've used Online Registration, or OLR, in the district for a few years now, and it's been very successful. Campus Learning allows us to work seamlessly with our learning management platforms, like Google Classroom, to reduce workload on our teachers. Funds have been allocated to my department from the general fund to pay for these add-ons for the coming year. I request your approval for both of these so we can continue streamlining our district and school processes in the coming years.

Thank you!
