RE: Recommendation of Septic Field - Direct PO to Ray Walls Excavating **DC**

Studio Kremer Architects and Buzick Engineering have reviewed the septic design provided by Ray Walls Excavating. Ray Walls Excavating provided the design and coordinated with Bullitt County's Health Department to obtain a preliminarily approved septic system that will serve the North Bullitt Baseball/Softball athletic complex. Ray Walls Excavating is a Certified septic system installer as certified by the Cabinet for Health and Family Services. The work for the septic system was broken down in two phases, Phase 1 was providing of the storage tanks and pumps, this work has already been installed by Ray Walls Excavating. Phase 2 is the addition of a lateral field that will connect to the tanks already installed and complete the system as approved by the local health department.

Attached paperwork is listed below with *action items* noted for each:

NBHS Septic Quote- for Board reference
Septic Field Cost Review- for Board reference
Ray Walls Excavating Estimate- for Board reference

I recommend approval of this request.

to Cate Noble Ward

Hey Cate,

I broke the Estimate #1014 down into unit costs:

3800' 6' wide lateral - \$18.42 per lf (\$70,000)

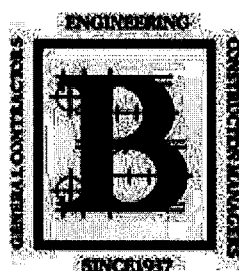

1600' Curtain Drain - \$9.38 per lf (\$15,000)

800' 2" force main - \$6.25 per lf (\$5000)

All of these are very reasonable. The other line items are also in line with what we typically see on site work.

Let me know if you need anything else.

Thanks,

Robin Mills, PE

Subject: North Bullitt Athletics - Septic Quote from Ray Walls

Importance: High

Hello Robin, Jason and Ryan,

We received the quotes from Ray Walls on the septic field for North Bullitt's BB and SB Complex. The quotes are broken into two phases, 1) the pumps and tanks and 2) the lateral field that would be constructed in May.

Let me know if the pricing seems appropriate. I understand this is a bit out our respective wheel houses to design let me know as best you can.

Thank you,

Cate Noble Ward, AIA, LEED AP
