

Craft Academy

Tonight, we will be recognizing 3 outstanding sophomore students for their achievement of being accepted into the Craft Academy at Morehead State University. The Craft Academy is a residential academy for academically exceptional students who are gifted in Science and Mathematics. These 3 students will complete their junior and senior year at Morehead State University, where they will be enrolled in college-level courses to finish their high school career and get a head start on earning their bachelor's degree. Not only does this academy provide academic rigor for these students, but it also provides exclusive scholarships and networking opportunities to help kickstart their future as professionals.

These 3 students will be a part of only the second class in Menifee County's history to attend the Craft Academy at Morehead State. On behalf of our school district, please join me in congratulating **AdaBella Breaux, Aurora Odermatt, and McKenzie Walker** on their acceptance into the Craft Academy."
