

**2025-2026 Dual Credit
Memorandum of Agreement
between
Southcentral Kentucky Community and Technical College
and
Russellville Independent Schools**

I. Purpose

Providing secondary students with dual credit opportunities is a proven educational strategy with the capacity to complement and maximize the chance of success of our educational initiatives. Effective dual credit systems have an impact both at the secondary and postsecondary levels and provide an opportunity for collaboration. This agreement serves as an addendum to the Memorandum of Understanding (MOU) between the Kentucky Community and Technical College System (KCTCS) and the Kentucky Department of Education (KDE). **All policies established in the MOU shall be followed at all times.** The Dual Credit, Dual Credit Scholarship, and Work Ready Kentucky Scholarship policies shall be followed at all times. Participants are expected to know and follow current policies as well as all future versions thereof. The purpose of this Memorandum of Agreement (MOA) is to allow for local decision making, to permit customization, and to provide flexibility within the constraints of the MOU.

II. Dual Credit Courses

A dual credit course is a college-level course of study developed in accordance with KRS 164.098 in which a high school student receives credit from both the high school and postsecondary institution in which the student is enrolled upon completion of a single class or designated program of study. Developmental education and remedial courses are not eligible dual credit courses (in accordance with KRS 164.098). First Year Experience Courses are not eligible dual credit courses as they are not covered in the general education transfer policy and are not transferable between institutions.

It is up to Southcentral Kentucky Community and Technical College (SKYCTC) to determine the dual credit courses it will offer, as well as the location and/or the modality in which they are offered. Dual credit courses are SKYCTC cataloged courses and approved through the regular course approval process. These courses have the same departmental designation, course number, title, and credits and adhere to the same course description and course content as those delivered on the SKYCTC campus.

Dual credit courses offered by SKYCTC are listed on the college's Dual Credit Course list. New dual credit course requests should be sent via email to SKY-DualCredit@kctcs.edu and will be evaluated in collaboration with the Academic Dean. Course requests received after an academic term is in session will be considered for the following term. Students will only receive dual credit for courses included on the list. SKYCTC is required to submit the course list to KCTCS in order for the courses to be programmed into PeopleSoft to allow students to be enrolled in new course offerings. New technical courses require KHEAA's approval for the Work Ready Dual Credit Scholarship. Students are expected to pay the dual credit tuition if KHEAA determines the course is not eligible for the scholarship.

Faculty liaison site visits will take place to ensure that courses offered at the high school are offered with the same rigor as those offered on the SKYCTC campus. SKYCTC will submit student final letter grades (standard college letter grades – A, B, C, D, E, W, F) to the appropriate high school personnel for the dual credit courses offered. SKYCTC will provide numeric grades for SKYCTC courses. High school faculty credentialed as college

faculty teaching dual credit courses are responsible for recording grades in Blackboard within two business days after the end date of the course.

Dual Credit courses should be meaningful to students and the pathway in which they are enrolled. Dual credit courses should be useful for students when they transfer to postsecondary institutions and count towards the credential they are working towards.

III. Professional Development for High School Instructors

High School instructors new to teaching dual credit are required to attend an orientation to learn about the dual credit program, academic policies, instructional information, email, BlackBoard, and other relevant information. Current instructors are expected to attend discipline-specific and other PD sessions as needed to stay current about school policies and the dual credit program.

IV. Student Fees and Payments

Tuition for a dual credit course is set by KRS 164.786. Colleges cannot charge eligible dual credit students anything more than the dual credit tuition rate ceiling per credit hour, including fees.

Textbooks, digital content, or eResources are required for most courses. Dual credit Professional Development cost for district faculty is the responsibility of the district. Parties responsible for covering all dual credit related expenses are indicated in the chart included in Appendix A.

V. Roles and Responsibilities

Per the Dual Credit policy, the high school will provide accommodations for students who enroll in courses at the high school according to the student’s plan. For courses taken at the college, the high school must notify the college (heather.daffron@kctcs.edu) that students may be entitled to accommodations.

VI. FERPA

The requirements for high school and college students under the Family Educational Rights and Privacy Act (FERPA) of 1974 are different for college and high school students. Generally, college students need to give permission to release any information about their college record, including grades and course progress, to their parents and guardians. SKYCTC will collect consent from dual credit students when they enroll in courses authorizing the college to provide the high school with their student records up until six months after the final enrollment in dual credit course work. Parents and guardians may review that information as part of the student’s high school record.

VII. Approvals

Any additional negotiated items that do not conflict with the state MOU must be included in this MOA between SKYCTC and [Local School District]. The contact and signatory person for negotiations and MOA is the college president/CEO.

The agreement should be signed by June 30, 2025, and is effective with signatures below for the 2025-2026 academic year. A copy of the executed MOA shall be submitted to the KCTCS Provost Office.
