

Memo

TO: Jesse Bacon, Superintendent

FROM: Sarah Smith, Safe Schools Director

DATE: May 19, 2025

RE: Slingshot Partnership and Donation

This is a request for Board Approval to work with Singhot by partnering with this agency to provide an AI-based app for student use in collaboration with the Bullitt County Youth Coalition. This agreement aims to place caring, competent, and consistent information, resources, and education for conflict resolution, bullying, and mental health in the lives of students through an app. This provides information as well as fast track to counselors/administrators for quick response in crisis situations.

I request that the Board approve the administration of this partnership as another layer of intervention in providing mental health support for students, as well as information to support and empower students in handling conflict situations.

Thank you so much for your time.

cc: Adrienne Usher, Assistant Superintendent for Student Learning
Troy Wood, Chief Operations Officer
