

## **Teaching and Learning**

### **5-19-25**

Phase IV of the CSIPc and the CDIP have been completed.

Elementary staff has been in the process of reviewing the math curriculum. The third edition of Bridges will be the HQIR of choice.

Professional development plans are being finalized, and at this point we have several pieces to calendar for specific dates. We are getting dates for the Bridges Math training, which will be two days. We are looking to have two days of Capturing Kids' hearts – with a couple of follow-up days in the school year. We are also in the process of securing the best training in AI use – a definite wave of the future.

Weekly instructional meetings continue to occur in both buildings, seeking to identify plus-deltas that can be used to promote growth in each building.

We have completed the KSA, and now await the fall reporting. We feel good about the student effort in both buildings. Thus far this year, the perceived effort of state assessments have been similar and the results have been pleasing, and we are anticipating the same for the KSA.
