

GES Monthly Board Report

May, 2025 - Susan Short

Instruction/ Curriculum:

- Grandview students grades 3-5 completed the KSA assessment in one week. Students did a great job being present and on time to school, maintaining focus, and giving their best effort!
- All K-5 students have completed MAP testing for reading and math. The reading data is not consistent with what we saw on the iReady assessment, but math is.
- End of year reflections and planning- Teachers engage in the following analysis and reflection activities in order to identify challenges and successes, as well as to set goals and contribute to planning for continuous improvement:
 - With assessments completed, teachers dove into their class data and completed “data chats” with Admin and our Literacy Coach, analyzing/ identifying the areas listed above.
 - During ERD on May 15 and May 21, the whole staff will work together to reflect on math and reading instruction (respectively) over the past academic year. Staff will complete individual reflections and then collaborate to look for commonalities from reflections and generate suggestions for improvement.
- 4th grade students in Ms. Basselman’s class completed Portrait of a Graduate presentations this year, and presented them to the 5th grade teachers. A huge thank you to Ms. Means for leading this work with GES students this year!
- 5th graders walked to BMHS on May 15th for transition activities. Students completed rotations while there in order to become more familiar with the building, teachers, and expectations of middle school, and students presented their Portrait of a Graduate presentations to the middle school teachers.
- The Track season ended on May 10th with the exception of 12 students (2nd-5th grade) who qualified for state. Congratulations to the following

students:

- Qua'dir Buckner
- Parker White
- Andrew White
- Alex Sales
- Lughton Ellis
- Addy Fortner
- Lauren Gerding
- Savannah Loerich
- Roxy Tilley
- Aly Meyers
- Madelynn Henley
