closed	10.8.2024	Easton	Smith	Leila	I am seeking to obtain digital copies of the awarded bid for the school photography services for the 2024/2025 school year. As a National Sales Executive with Inter-State Studio, based in Sedalia, MO, I am interested in reviewing these documents. Our local office services the Kentucky area, and I collaborate with them remotely from my home. Please let me know if I need to update any addresses or follow a different procedure to receive these copies
Closed	10.7.2024	Radford	Turner	Kristen	<p>As we did last year, we are interested in efforts to increase the college going rate for our state. Increasing access and participation in higher education is critical for the workforce of the Commonwealth of Kentucky. Colleagues like myself, serving as Vice President for Student Success for our institutions, are regularly asked by CPE and KDE to work together to increase the college going rate in the state in order to meet this mission of producing and enhancing the workforce of the state for the common good. In recent years, post-secondary access to student information has been hampered through the lack of access to the state graduation exam based on the state’s contract with ACT. For our most vulnerable populations in Kentucky (low income, first generation, and students of color), that state exam in the spring of the student’s junior year is the one and only time they will take a standardized college entry test. Historically, this test provided us contact information for students taking the exam so we could reach out directly to students interested in pursuing higher education.</p> <p>Currently, the number of contacts we have gathered for Kentucky seniors is well below historic averages. Historically, we would have close to 85% of the names of seniors in high school at this point in the cycle but the continuing restrictions on the data flow mean we are unable to reach many students in your district. This is certainly a major concern for college-going rates in the state and our enrollment efforts for this cycle; and will disproportionately impact the students that need the most support and access to the guidance provided through our outreach efforts. By providing these names, UK can provide information to support students in providing opportunities and information that will help them determine their future. We do not use this information for any purpose other than to communicate with prospective students about the college application process and higher education at UK in general. Additionally, we always include at least one communication on all 2 and 4 year public postsecondary options during our outreach.</p> <p>As a reminder, we are specifically making this request in light of the School Board Policy 9.14 on Student Records in the section on directory information being ‘released to...institutions of higher education upon their request.’</p> <p><b>Data requested:</b>  Student name  Physical address  Student or parent email (prefer student, but understand parent may be released instead)  Phone number  Student grade</p> <p><b>Use of data:</b>  The University of Kentucky is interested in this data to be able to better support high schools in the Commonwealth by providing information regarding college access and options, affordability, as well as special opportunities for visits and special events. Specifically, we use this information to reach out to potential students and support their engagement with activities to support them in making decisions about their future, institutional fit, FAFSA application and scholarship information, and application to UK or other institutions around the state. This contact information allows us to share the opportunity to communicate about the college application process, financing their education, opportunities to participate in on-campus events, promote on-campus opportunities for research, bridge programs, and major specific information to vulnerable students who might otherwise not believe they could succeed in higher education.</p> <p>As we coordinated last year, we would be happy to again set up a secure data exchange, or to receive an excel file of the data requested sent to <a href="mailto:Teresa.spradlin@uky.edu">Teresa.spradlin@uky.edu</a>.</p>

Closed	9.19.2024	Easton	Little	Sarah	Please provide all Superintendent Job Performance Evaluations for Jason Radford dating 2021 through present. Pursuant to previous Attorney General decisions, these records are not exempt from public disclosure. In the AG appeal, 92-ORD-1145, Bullitt County Public Schools attempted to deny requester, Joe Gerth, access to inspect the Superintendent’s Evaluation. The Office of the Attorney General found that, “The public's interest in reviewing those portions of the evaluation which have a direct bearing on his management of the school system, and the progress of the school system generally, is superior to the reduced expectation of privacy in that document which Mr. Valentine, as superintendent of the public schools, might have.” Based on this finding, and subsequent court decisions cited in that appeal, I respectfully request these records. I am requesting these records in electronic format. This is not for commercial use. I am a resident of Kentucky
