ABA in Hopkins County Public Schools Classrooms

The Team

- RBT (Registered Behavior Technician): This individual implements the aspects of the treatment plan. They follow direction and guidance from the BCBA/BCaBA.
- Both RBT and BCBA/BCaBA will have an iPad or laptop, provided by Puzzle Pieces, Inc., in order to record and maintain data collection on goals, and record anecdotal notions of the session. This strictly includes any and all aspects of the students receiving services.
- Puzzle Pieces, Inc. employees will be (a) contracted with a family of a child that has a diagnosis of Autism Spectrum Disorder (ASD), and work individually with the family and their private insurance provider in order to provide services and/or (b) contracted with HCPS to provide assessment and/or consultation services to be reimbursed directly by the district when this is requested by HCPS in writing.

Expectations of ABA in the Classrooms

What Puzzle Pieces, Inc. RBT/assigned professional is able to do

- Strictly work only with the child(ren) they are assigned to. Puzzle Pieces, Inc. personnel are unable to provide any input, suggestions, record information, etc. in relation to any other child than those on their caseload.
- Collect data regarding the student's behavioral goals and objectives and write daily progress notes reporting on the student's performance, response to interventions provided, and narrative of the session.
- If Puzzle Pieces, Inc. has more than one client in the same school setting, the individual RBT assigned to each child only receives direction and guidance in relation to that single child. If an issue arises in the school with another client within the company, the RBT that is not assigned to that child will be unable to assist with any de-escalation, suggestions, input, etc. That RBT is not privileged to have access to any other client's information within the company, aside from the child(ren) they are assigned to.

- Puzzle Pieces, Inc. employees have the strict intention to avoid prompt dependence in students. Instead, their purpose is to provide additional support for the child and the flow of the classroom. Puzzle Pieces, Inc. employees will direct the child(ren) to follow instruction from the teacher.
- Puzzle Pieces, Inc. BCBAs will provide ongoing supervision to RBTs implementing the treatment plans according to the BACB guidelines. BCBAs will also collect data on the procedural fidelity shown by teachers and RBTs in order to ascertain if additional training is needed.
- Puzzle Pieces, Inc. employees are unable to be left alone on school campus with the child(ren), unless it is otherwise agreed upon through written agreement that 1:1 therapy may be conducted in a separate setting outside the classroom. Puzzle Pieces, Inc. employees are unable to be left alone with any other child aside from the child(ren) they are assigned to through the company. Employees are unable to assist with any school duties, or be left in charge of a classroom.
- Puzzle Pieces, Inc. employees are unable to communicate to anyone/dictate information about any other child within the assigned child(ren)'s classroom or school (peers). The only circumstances that allow this would be if the assigned child(ren) experienced an altercation with a peer. Even in those circumstances, the information provided or dictated would solely reference the assigned child(ren)'s behavior and reaction in relation to the peer. No personal information of any other individual aside from a Puzzle Pieces, Inc. client is collected.
- If a Puzzle Pieces, Inc. employee is unable to work and provide ABA services according to the agreed upon schedule, this will be communicated to HCPS administration/teachers. This does not interfere with the student's ability to access a free and appropriate public education through HCPS and should not lead to the student not being permitted to attend school that/those days.
