

This month, we proudly recognize Mr. Tim Spencer, who has served Menifee County Schools for the past 10 years. As Superintendent, Mr. Spencer has shown strong leadership and a true commitment to our students, staff, and community.

During his time with the district, Mr. Spencer has helped lead several important projects, including the opening of the new Menifee Central Elementary School, a new board office, and a modern sports complex for our students. He has also worked with county leaders to make sure we have better softball and baseball fields for student athletes.

Mr. Spencer is active in the community and attends Chamber of Commerce meetings and other local events to help strengthen the connection between our schools and community.

One thing Mr. Spencer always says is: "Students first." That message is clear in everything he does from new school buildings to better athletic facilities to strong community partnerships. His work continues to make a positive difference in Menifee County.

Thank you, Mr. Spencer, for 10 years of service and for always putting students first.
