

Traceable Communication Platform(s) Update:

Staff working with the Kentucky Community and Technical College System (KCTCS) will be able to utilize the following platforms to facilitate KCTCS dual credit classes:

- Blackboard (Anthology)
- Outlook (kctcs.edu domain)
- Starfish (EAB)

These platforms are managed at the institutional level by KCTCS and offer the required traceability to document all communications between school district staff and students, as mandated by the legislation.
