Re: Pre-employment physicals
School physicals
Tuberculosis screening and/or skin testing

DirectCare Family Health, PLLC is owned and operated solely by Patty Swiney, MD who is a Board Certified Family Physician. This contract would be between DirectCare Family Health, PLLC and Bourbon County Schools. Employee Physicals would be done at DirectCare Family Health offices at 525 High St, Ste 209 Paris, KY 40361. Every attempt will be made to perform the physical in a timely manner and the physicals will be done according to current state guidelines. The cost of screening for risk factors of tuberculosis (TB) or the need for actual skin testing for tuberculosis to identify either active or latent cases of TB will be included in the physical exam fee. If the employee does need a TB skin test, it can be administered and read here at DirectCare Family Health for the additional fee quoted here. My office appreciates this opportunity to work with the school system and looks forward to other opportunities as the need arises.

Employee physical including TB screen..... \$60 per employee

TB skin test and reading (1-step) \$20

TB skin test and reading (2-step) \$35

required for some healthcare/ daycare employees

Sincerely,

Patty Swiney, MD
