RE: Bullitt East High School Fence Request **DC**

The Bullitt East High School Athletic Department is seeking board approval to construct fencing on campus. Two locations require fencing to help increase the safety and security of the campus, especially concerning large athletic events such as football games. Without these fences, it will be difficult, if not impossible, to control the flow of spectators for Friday night football games. The scope of the project will include constructing a fence that connects the current fieldhouse and the baseball clubhouse. This fence will have two 6-foot gates on either end. The second fence will connect the fence on the east end of the football stadium with the left field corner of the baseball field. There will be a gate added by the baseball field. All fencing will be of the same material, quality, and appearance as the gates that have been constructed with the recent projects. All costs associated with the project will be paid for by the BEHS Athletic Department.

I recommend approval of this request.

SUBJECT: Request for Board Approval – Fence Construction on School Property

I am writing to formally request Board of Education approval for the construction of a fence on school property, to be fully funded by the Bullitt East Athletic Booster Club.

The Bullitt East Athletic Department is seeking board approval to construct fencing on campus. Two locations require fencing to help increase the safety and security of the campus, especially concerning large athletic events such as football games. Without these fences, it will be difficult, if not impossible, to control the flow of spectators for Friday night football games.

The scope of the project will include constructing a fence that connects the current fieldhouse and the baseball clubhouse. This fence will have two 6-foot gates on either end. The second fence will connect the fence on the east end of the football stadium with the left field corner of the baseball field. There will be a gate added by the baseball field.

All fencing will be of the same material, quality, and appearance as the gates that have been constructed with the recent projects.

Please let me know if additional information is needed. I appreciate your support and consideration of this request.

Working Together,

Ondrea Smallwood
Interim Principal
Bullitt East High School
