

Counselor's Corner

July 2025

Ms. Jennifer Weber

- **High School Enrollments:** Only three graduating 8th graders still need to complete their registration for high school. Ms. Weber has worked with the enrollment coordinator at Bellevue and the students' families to ensure that they will be enrolled before the end of July. Ms. Weber will also be working with Mr. Duty and Mr. Goetz to find placements for respective Southgate high school students who will not be returning to their current school in the fall.
- **Grant Funds:** Ms. Weber will be working throughout the month of July to finalize all grant expenditures by the July 31st deadline. We have funds still earmarked for supplies and resources for the new mental health specialist and for professional development for the mental health team. Once the team is fully established, we will register to attend the Kentucky School Counselors Association conference in the fall together.
