School and Community Nutrition Program**PROGRAM FUNDS**

Because the District receives federal, state, and local funds to finance the school and community nutrition program, it is imperative that funds be properly safeguarded, that accurate records be kept, and that reports be made as required. In order to achieve this, the following procedures will be implemented:

1. All funds received as payment for meals (school nutrition program breakfast and/or lunch) and federal and state reimbursements shall be used only for food, labor, equipment, and supplies for the operation/improvement of the school nutrition program.
2. School nutrition program funds may not be used for:
 - a. The purchase of land.
 - b. The purchase or construction of buildings.
3. All schools shall make the required reports as required by the USDA and the Kentucky Department of Education.
4. A copy of all reports, financial records, and applications for free- and/or reduced-price meals shall be kept through the current fiscal year and the three (3) years that follow or through the completion of any unresolved audit issues, whichever is longer.

It is recommended by KDE that if the school/District is operating under the Community Eligibility Provision, copies of Household Income Forms (HIF) be kept following the retention schedule above.
5. All meals receiving federal reimbursement are priced as a complete unit.
6. The school nutrition program is operated on a nonprofit basis. Actual cash balances shall be maintained in accordance with state/federal regulation, as appropriate.

FOOD SERVICE/SCHOOL NUTRITION PROGRAM DIRECTOR REPORT

~~Each year, the District/area Food Service/School Nutrition Program Director shall assess the school nutrition program and issue a written report to parents, the Board, and school-based decision-making councils by a date specified by the Superintendent/designee. The annual report shall include requirements specified by state and federal regulations.~~

Access to Electronic Media**ELECTRONIC MAIL/INTERNET**

The District offers students, staff, and members of the community access to the District's computer network for electronic mail and Internet. Because access to the Internet may expose users to items that are illegal, defamatory, inaccurate, or offensive, we require all students under the age of eighteen (18) to submit a completed Parent Permission/User Agreement Form to the Principal/designee prior to access/use. All other users will be required to complete and submit a User Agreement Form.

Except in cases involving students who are at least eighteen (18) years of age and have no legal guardian, parents/guardians may request that the school/District:

- Provide access so that the parent may examine the contents of their child(ren)'s email files;
- Terminate their child(ren)'s individual email account and/or Internet access; and
- Provide alternative activities for their child(ren) that do not require Internet access.

In addition, parents wanting to challenge information accessed via the District's technology resources should refer to Policy 08.2322/Review of Instructional Materials and any related procedures.

GENERAL STANDARDS FOR USERS

Standards for users shall be included in the District's handbooks or other documents, which shall include specific guidelines for student, staff, and community member access to and use of electronic resources.

Access is a privilege—not a right. Users are responsible for good behavior on school computer networks. Independent access to network service is given to individuals who agree to act in a responsible manner. Users are required to comply with District standards and to honor the access/usage agreements they have signed. Beyond clarification of user standards, the District is not responsible for restricting, monitoring, or controlling the communications of individuals utilizing the network independently.

The network is provided for users to conduct research and to communicate with others. Within reason, freedom of speech and access to information will be honored. During school hours, teachers of younger children will guide their students to appropriate materials. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio, and other media that may carry/broadcast information.

NO PRIVACY GUARANTEE

The Superintendent/designee has the right to access information stored in any user directory, on the current user screen, or in electronic mail. S/he may review files and communications to maintain system integrity and insure that individuals are using the system responsibly. Users should not expect files stored on District servers or on District provided or sponsored technology services, to be private.

- CERTIFIED PERSONNEL -**Professional Development****DEFINITIONS**

Professional development is defined as professional learning that is an individual and collective responsibility, that fosters shared accountability among the entire education workforce for student achievement, and:

The structure of the CDIP shall include completion of a narrative summary of the current state of the school between August 1 and October 1 of each school year and completion of the needs assessment between October 1 and November 1 of each school year. A process for development of the CDIP is to be completed between November 1 and January 1 of each school year, and a District level plan for providing an equitable education to English Learners is to be completed by May 1 of each school year and other components required by state statutes or regulations. Unless otherwise noted, all additional components of the CDIP must be complete by May 1 of each school year.

PLAN REQUIREMENTS

The District seeking Commissioner approval of the nontraditional instruction (NTI) plan shall annually incorporate it within the CDIP. The District shall submit the NTI plan to the Department by May 1 for implementation at the beginning of the upcoming school term. The primary purposes of the CDIP shall be:

- To eliminate achievement gaps among groups of students; and
- To develop District strategies and services to address deficiencies and/or sustain or strengthen current efforts.

The District Improvement Plan structure shall include components set out in 703 KAR 5:225, the Every Student Succeeds Act of 2015 (ESSA), and KRS 158.649.

The District Plan shall provide assistance in reducing physical, mental health, and academic barriers to learning, and address student equity.

The Superintendent shall present to the Board for review and approval the form and function of the District planning process, including format and timelines. All schools will turn in a mid-year and year-end report regarding the implementation and impact of strategies from the CSIP in December and May to the Plan Coordinator. The District will turn in a mid-year and year-end report regarding the implementation and impact of strategies from the plan in January and June to the Plan Coordinators. The Superintendent's report concerning CDIP/CSIP to the Board shall be written and submitted in February and July each year and include all school and District data.

As part of the District planning process, the Board shall review District academic performance on the state assessments for various groups of students in compliance with legal requirements. Upon agreement of the council and the Superintendent, the Board shall review annual targets in the Comprehensive School Improvement Plan and the Comprehensive District Improvement Plan specifically for reducing identified gaps in achievement.²

If the Board determines that a school has not met its target to reduce the identified gap in student achievement for a group of students, the Board shall require the council, or the Principal if no council exists, to submit its revisions to the school improvement plan describing the use of the professional development funds and funds allocated for continuing education to reduce the school's achievement gap for review and approval by the Superintendent. Home/Hospital Instruction

PURPOSE

Home/hospital instruction provides educational services to students who cannot attend school for extended periods due to temporary or recurring conditions, including fractures, surgical recuperation, or physical, health, or mental conditions. An “extended period” refers to an absence for more than five (5) consecutive school days. [For a student admitted to an inpatient facility, the student may receive home/hospital instruction effective on the date of admittance.](#)

For purposes of KRS 157.360, a student who receives home/hospital instruction for a minimum of two (2) instructional sessions per week, with a minimum of one (1) hour of instruction per session, by a certified teacher provided by the Board, shall equal the student attending five (5) days in school. An instructional session may be delivered in person, electronically, or through other means established in regulation. A parent/guardian or responsible adult must be present in the home/hospital room during the time the home/hospital teacher is present or is otherwise delivering instruction.

ELIGIBILITY

Determination of a student’s eligibility and provision of services for home/hospital instruction shall be made in compliance with applicable statutes and regulations. In accordance with KRS 159.030(2), the Board shall require evidence for students exempted from school attendance more than six (6) months. An exemption shall be reviewed annually.

At any time based on changes in the student’s condition, the home/hospital review committee may schedule a review of the student’s continued eligibility for home/hospital instruction. Eligibility for home/hospital instruction shall cease for students placed by the review committee if the student works, plays sports, or participates in extracurricular activities. For students with a 504 plan, eligibility for home/hospital instruction shall not cease if the student works, plays sports, or participates in extracurricular activities if participation is consistent with the student’s 504 plan.

The Admissions and Release Committee (ARC) shall determine placement in home/hospital instruction for a student with disabilities. The 504 Team for a student may facilitate submission of an application to the review committee.

PROGRAMS FOR HOME/HOSPITAL INSTRUCTION

Students applying for home/hospital instruction shall supply satisfactory evidence of need, verified by a signed statement as required by law that the student’s condition prevents or renders inadvisable attendance at school. Some conditions that warrant home/hospital instruction are: fractures; surgical recuperation; other physical, health, or mental conditions; and certain communicable diseases, etc.

In cases where pregnant students need home/hospital services because the students are nearly full-term and subject to deliver or have already delivered their babies and need home/hospital services during recovery, services will be provided two (2) weeks prior to delivery and six (6) weeks after delivery. Medical complications may extend the amount of time needed in the program. In such cases, the application must describe what is abnormal about the pregnancy and the complication present that prevents school attendance.

Home/Hospital Instruction**PROGRAMS FOR HOME/HOSPITAL INSTRUCTION (CONTINUED)**

While in home/hospital instruction, elementary students may be promoted or retained by the home/hospital teacher, based on the student's academic progress in all the basic skills areas.

The home/hospital teacher shall determine the final grade for each class exceeding twelve (12) weeks. The grade shall be determined by the student's academic progress evaluated by the home/hospital teacher. Students enrolled in home/hospital instruction for less than a twelve (12)-week period shall be assigned a final grade in each class by the student's school-based teacher.

SECONDARY STUDENTS

A high school student placed in home/hospital instruction for extended periods may carry all appropriate credits during the first semester of placement. Except for students with an Individual Education Plan (IEP) or a 504 plan, the number of credits to be carried during all subsequent semesters of placement shall be determined on a case-by-case basis by the review committee, based on the following criteria:

1. The student's ability to work independently during extended periods without direct assistance.
2. The student's capacity to complete assignments within a reasonable time frame.
3. The likelihood that the student will be able to complete course criteria required for graduation, as required by the Kentucky Academic Standards.
4. When considering the student's condition, should s/he take a full or reduced course load? If a reduced course load is appropriate, the committee shall determine the number of courses the student may take.

Only core courses will be offered through home/hospital instruction.

STUDENTS WITH DISABILITIES

Based on documentation of student need, including medical or mental health evaluation information, a student with disabilities may be placed in the home/hospital instructional program if his/her individual education plan (IEP) specifies such placement is the least restrictive environment for providing services. The ARC Chair shall provide written notice of eligibility and documentation to the District Director of Pupil Personnel for purposes of program enrollment.

The Admissions and Release Committee (ARC) or 504 Team shall determine on a case-by-case basis the type and extent of home/hospital services for a student, including the number of credits a student at the secondary level will be permitted to earn while on home/hospital instruction.

Access to Electronic Media

(Acceptable Responsible Use Policy)

The Board supports reasonable access to various information formats for students, employees and the community and believes it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

SAFETY PROCEDURES AND GUIDELINES

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic media and authorized communication system(s). Guidelines shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Guidelines and procedures should encourage details on how the District implements and facilitates digital learning tools and portable/mobile technologies to foster ubiquitous access for staff and students, emphasizing always-on, everywhere digital opportunity and empowering Districts and schools to fully understand digital access beyond the campus. With such District implemented resources, the guidelines for acceptable and responsible use shall still apply, regardless of the time, place, and means of utilization.

The District shall support teacher efforts in taking ownership of digital citizenship skills and educating their students in the same skills to foster a responsible, safe, secure, and empowered digital learning environment. Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Internet safety measures, which shall apply to all District-owned devices with Internet access, District-managed systems and accounts, and personal devices that are permitted to access the District's network, shall be implemented that effectively address the following, regardless of the time, place, and means of utilization:

- Controlling access by minors to inappropriate matter on the Internet and World Wide Web;
- Safety and security of minors when they are using electronic mail, chat rooms, and other forms of direct electronic communications;
- Preventing unauthorized access, including "hacking" and other unlawful activities by minors online;
- Unauthorized disclosure, use and dissemination of personal information regarding minors; and
- Restricting minors' access to materials harmful to them.

A technology protection measure may be disabled by the Board's designee during use by an adult to enable access for bona fide research or other lawful purpose.

The District shall provide reasonable public notice of, and at least one (1) public hearing or meeting to address and communicate its initial Internet safety measures.

Access to Electronic Media

(Acceptable/Responsible Use Policy)

Specific expectations for appropriate Internet use shall be reflected in the District's code of acceptable behavior and discipline including appropriate orientation for staff and students.

PERMISSION/AGREEMENT FORM

All applicable procedures and guidelines resulting from this AUP/RUP shall be readily available and for use by students, parents/guardians, faculty, staff and other to whom access is granted. A written parental or legal guardian request shall be required to opt-out of or rescind access to electronic media involving District technological resources. Or if applicable procedures require, a written parental request may be required to prior to the student being granted independent access to electronic media involving District technological resources. This document shall be kept on file as a legal, binding document.

The required permission/agreement materials, which shall specify acceptable uses, rules of online behavior, access privileges, and penalties for policy/procedural violations, must be acknowledged by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. In order to opt-out, modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

EMPLOYEE USE

Employees shall not use a code, access a file, or retrieve any stored communication unless they have been given authorization to do so. (Authorization is not required each time the electronic media is accessed in performance of one's duties.) Each employee is responsible for the security of his/her own authentication credentials.

Employees are encouraged to use electronic mail and other District technology resources to promote student learning and communication with the home and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.

Technology-based materials, activities and communication tools shall be appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.

In accordance with KRS 160.145, the Board shall designate a traceable communication system to be the exclusive means for District employees and volunteers to communicate electronically with students. The Principal of each school shall provide parents written or electronic notification within the first ten (10) days of the school year of each electronic school notification and communication program designated within the traceable communication system. The notification shall include instructions for parents to access and review communications sent through each electronic school notification and communication program. See policy 08.2324 for complete details and guidelines.

Access to Electronic Media

(Acceptable/Responsible Use Policy)

EMPLOYEE USE (CONTINUED)

A District employee or volunteer, unless authorized, shall not communicate electronically with a student:

1. Outside of the traceable communication system designated by the Board; or
2. Through an unauthorized electronic communication program or application.

This shall not restrict any electronic communications between a student and his or her family member who is a District employee or volunteer.

Networking, communication systems, and other options offering the ability to communicate directly with students may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities in accordance with Policy 08.2324.

Students may only be invited or granted access to Board approved traceable electronic communications systems, including social media platforms and other digital communication sites, if the District has verified that the system meets acceptable data privacy standards and includes appropriate protections for student information. Furthermore, the students must meet the platform's minimum age requirements before being granted access or invited to access.

Staff members shall not use or create personal social networking accounts to which they communicate directly with or invite students to be friends.

EMPLOYEE CONDUCT AND REPORTING REQUIREMENTS FOR TECHNOLOGY USE

All employees and volunteers are subject to disciplinary action if their conduct relating to the use of technology or online resources violates this policy or any other applicable statutory, regulatory or policy provisions governing employee conduct. This includes, but is not limited to, unauthorized electronic communications.

The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well-being of students and the confidentiality of student information. Any conduct in violation of this Code – particularly involving technology or online resources - must be reported to the Education Professional Standards Board (EPSB) as required by law and may result in disciplinary action up to and including termination.

REPORTING PROCEDURES – POLICY 08.2324

A District employee or volunteer who receives a report alleging that another District employee or volunteer has engaged in unauthorized electronic communication must immediately notify the appropriate authority:

1. If the subject of the report is a staff member, notify the Principal.
2. If the subject is the Principal, notify the Superintendent.
3. If the subject is the Superintendent, notify the Commissioner of Education and the Chair of the local Board.

COMMUNITY USE

On recommendation of the Superintendent/designee, the Board shall determine when and which District technology resources (including internet access, computer equipment, software, and information access systems) may be available to the community.

Upon request to the Principal/designee, community members may have access to the Internet and other electronic information sources and programs available through the District's technology system, provided they attend any required training and abide by the rules of usage established by the Superintendent/designee.

DIGITAL CITIZENSHIP AND RESPONSIBLE USE

All District technology users shall demonstrate safe, savvy, and social digital citizenship skills by practicing respectful, responsible, and ethical use of technology. The District will ensure comprehensive instruction on digital citizenship, focusing on the nine (9) elements of digital citizenship: Digital Access; Digital Commerce; Digital Communication & Collaboration; Digital Fluency; Digital Etiquette; Digital Law; Digital Rights and Responsibilities; Digital Health and Welfare; and Digital Security & Privacy, as well as cyberbullying awareness and response strategies, are provided. All digital citizenship instruction shall align with the Kentucky Academic Standards for Technology and be reviewed regularly to reflect current best practices and emerging technologies. The District shall support efforts to instill digital citizenship skills in students to foster a responsible, safe, and empowered digital learning environment. District-provided technology resources shall be used in a manner that upholds the integrity, security, and privacy of district systems and supports educational goals regardless of the time, place, and means of utilization.

DISREGARD OF RULES

Individuals who opt-out of required responsible use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, or other computing and telecommunications technologies.

Employees and students shall be subject to disciplinary action, up to and including termination (employees) and expulsion (students) for violating this policy and acceptable use rules and regulations established by the school or District.

RESPONSIBILITY FOR DAMAGES

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. Students or staff members who deface a District web site or otherwise make unauthorized changes to a web site shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

RESPONDING TO CONCERNS

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

Access to Electronic Media

(Acceptable/Responsible Use Policy)

EMERGING TECHNOLOGIES

The District shall establish and maintain procedures that address the safe, secure and responsible uses of emerging technologies, including, but not limited to, artificial intelligence (AI) and AI-enhanced or generative AI features. These procedures shall be reviewed and updated regularly to ensure alignment with current technological advancements, fostering a proactive approach while emphasizing safeguards for student safety, data privacy, and ethical practices. Such procedures will support innovative strategies while addressing potential risks and maintaining the confidence of district stakeholders. Additionally, procedures will address the responsible use of these emerging technologies, including appropriate and inappropriate uses of AI (e.g., for inspiration vs. cheating, plagiarism).

AUDIT OF USE

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system.

The Superintendent/designee shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing social media (unless authorized by a teacher for instructional purposes) and sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets the requirements of Kentucky Administrative Regulations and that blocks or filters internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors. For instructional purposes, age/grade-level appropriateness and meets traceable/inspectable guidelines set forth in this and related policies;
2. Utilizing the latest available filtering technology to ensure that social media is not made available to students, unless authorized by a teacher for instructional purposes;
3. Maintaining and securing a usage log; and
4. Monitoring online activities of both minors and adults using District-owned or managed systems, regardless of the time, place, and means of utilization.

Access to Electronic Media

Floyd County School District in compliance with the KETS Master Plan for Kentucky provides students and staff with electronic information and communication to enhance learning through electronic resources via means of Internet and E-mail. We believe it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

PARENTAL CONSENT REQUIREMENTS

Regardless of the level, the student must sign a user's agreement and parental permission must be secured before Internet access can be provided. This policy acknowledges the fact that standards of behavior relating to morals and personal values are within the realm of the family. To the degree that a parent guides a child's exposure to television, videos, and music the parent should guide the child's exposure to the computer networks when giving permission for independent access or individualized study. The school cannot be held responsible if a student given parental permission for independent access intentionally accesses material, which his/her family considers objectionable. District and school acceptable use policies are intended to address "ethics," leaving issues relating to "morals" between the parent or guardian and child. Parents shall be notified in writing (via Code of Conduct) that the Internet and electronic mail may be used with students as part of the instructional process.

Parents shall be notified (via Code of Conduct) that students must sign a student Acceptable Use Policy agreement before direct access to Internet and electronic mail will be provided.

Written parental consent shall be required (AUP user agreement) before any student is given direct, hands-on access to the Internet or to electronic mail.

This AUP, once signed by the student/staff/administrator/parent, shall be kept on file as a legal, binding document, for the duration of their career at Floyd County Schools unless otherwise dictated by policy change.

PARENTAL CONSENT TO CHILD'S USE OF MICROSOFT ONLINE SERVICE

When your child provides information to Microsoft, the information is used to enable and customize Microsoft services and for the purposes described in the Microsoft Online Privacy Statement (available online at <https://privacy.microsoft.com/en-us/privacystatement>).

Some Microsoft online services within Office 365 allow people of all ages to share personal information with others and that the permission granted hereunder allows your child access to sign in and use these services. Giving or denying permission for your child to sign in and use Microsoft services will not affect his or her ability to use other websites.

Parents shall be notified in writing (via Code of Conduct) that students will be held accountable for violations of the student Acceptable Use Policy agreement and that disciplinary action may be taken.

Access to Electronic Media

PERSONALLY OWNED DEVICES

Any school personnel or student who brings a privately or personally owned computer/software/peripheral into the Floyd County School District may be allowed to connect their personally owned device to the District network and must adhere to all Floyd County Board of Education Policies and Procedures. This includes all aspects of this Acceptable Use Policy, and they must maintain equipment to a Kentucky Education Technology System Standard for Internet and email access. Such access will be monitored and will require students to login using their district credentials. However, families are responsible for all service and support of personal devices. The District is not responsible for any damage or loss incurred with the use of a personal device in the school setting. Students are expected to use devices for educational purposes and only with the consent of school staff.

TEACHER AND STAFF SUPERVISION OF STUDENT COMPUTER USE

1. Teachers/staff and others whose duties include classroom management and/or student supervision shall sign an Acceptable Use Agreement acknowledging responsibility for exercising reasonable supervision of student access to Internet and Electronic Mail.
1. Teachers/staff shall not direct or advise students accessing school computing and communications networks to use electronic mail systems other than the Kentucky Education Technology System standard email system.
1. Teachers/staff shall supervise all student computer use to ensure it is used for educational purposes and non-approved software, programs and resources are not utilized. **This includes the restricted use of Virtual Private Networks (VPNs) or Anonymizers that permit access to the Internet via means of bypassing the District's Web Filtering service.**
1. Teachers/staff will maintain daily log files that will provide student name, date, time in and time out for all student use of computers.
1. Teachers/staff shall supervise and proof all school-related material placed, posted, or published on school sites.
1. Teachers/staff shall not publish/post or direct/advise students to post or publish school-related information outside the school district except in cases where students name and or work needs to be published to any online entity or other KDE-supported events and where written parental permission has been given.

EMPLOYEE USE

Employees are encouraged to use e-mail and other District technology resources to promote student learning and communication. If those resources are used, they shall be used for purposes directly related to work-related activities.

Employees are required to set up and utilize Multi-factor Authentication (MFA) in order to access District provided accounts and any application that uses District credentials for access. MFA not only protects the employees account but also will aid in protecting the data an employee's account has access to.

Access to Electronic Media

EMPLOYEE USE (CONTINUED)

Technology-based materials, activities and communication tools shall be appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.

District employees and activity sponsors may set up blogs and other social networking accounts using District resources and following District guidelines to promote communications with students, parents, and the community concerning school-related activities and for the purpose of supplementing classroom instruction.

Networking, communication and other options offering instructional benefits may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities.

In order for District employees or District activity sponsors to set up websites, messaging apps or social networking accounts for instructional, administrative or other work-related communication purposes, they shall comply with the following:

- They shall request prior permission from the Superintendent/designee.
- 1. — If permission is granted, staff members will set up the site following any District guidelines developed by the Superintendent's designee.
- 1. — Guidelines may specify whether access to the site must be given to school/District technology staff.
- 1. — Follow all guidelines of the District's Internet Safety Standards.
- 1. — If written parental consent is not otherwise granted through AUP forms provided by the District, staff shall notify parents of the site and obtain written permission for students to become "friends" prior to the students being granted access. This permission shall be kept on file at the school as determined by the Principal.
- 1. — Once created, the sponsoring staff member is responsible for the following:
 - 2. — Monitoring and managing the site application or account to promote safe and acceptable use, and observing confidentiality restrictions concerning release of student information under state and federal law.

District employees are discouraged from doing the following:

- 2. — Creating personal social networking sites to which they invite students to be friends or engaging in personal interactions with students via posting on other networks. Employees taking such action do so at their own risk.

ELECTRONIC MAIL

Standards for use of email by students and staff communication:

- 1. — Do not send or attach documents containing pornographic, obscene, or sexually explicit material.
- 1. — Do not transmit obscene, abusive or sexually explicit language.
- 1. — Do not transmit any illegal, alcohol, drug or drug related information.

Access to Electronic Media

ELECTRONIC MAIL (CONTINUED)

1. Do not use electronic mail to transmit information or communicate with gangs, hate groups or groups with violent themes.
1. Do not use electronic mail to transmit any data relating to violent themes.

SPECIAL SAFETY CAUTIONS, WHICH ARE AGAIN ANALOGOUS TO COMMON PRACTICE

Students should not reveal their name and personal information to or establish relationships with "strangers" on the network, unless the communication has been coordinated by a parent or teacher. The school should not reveal a student's personal identity unless the parent has given written consent. The school should not transmit a student's work with personally identifiable information without parent consent.

Cyber-bullying as defined is harassing, threatening, or any other type of communication via means of internet or email, and telecommunications including cell phones that threatens a person or persons character or personal safety. You should report any form of "cyber-bullying" to your teacher, principal, or supervisor as soon as possible.

With respect to the privacy rights of students, teachers, and staff, this policy states clearly that email is not guaranteed to be private. System administrators can, and may be required sporadically, to inspect email. This aspect of an acceptable use policy might be analogous to the Board's policy on school lockers; while generally private, lockers may be searched under certain circumstances.

LOCAL TECHNOLOGY RESOURCES

Standards for student, teacher, and staff use of local technology resources (hardware, software, and communications devices) and use of other school property and instructional materials in traditional formats.

1. Copyrights must be respected. Copyrighted software and other instructional materials must not be copied or transferred to another except as provided under the license agreement or copyright notice. Resources should not be used for private business or personal gain.
1. Authorship and/or publishers of information in electronic form must be appropriately acknowledged in writing and research (footnotes, bibliographies, etc.).

Access to Electronic Media

THE NETWORK (CONTINUED)

1. Schools are encouraged to create and maintain a school web site, however only school and related educational information shall be displayed on school or Floyd County School Communication networks.

SOCIAL, WEB AND COLLABORATIVE CONTENT

The District recognizes that Internet-based resources that can enhance educational activities are growing in number each day. The District may provide access to web sites or tools that support communication and collaboration with others in addition to general productivity. Students are reminded to communicate appropriate and safely via these resources and that communication may be monitored. Use of any website outside of the District control is subject to their use and may require specific permission in addition to the AUP.

INTERNET SAFETY STANDARDS

Internet safety standards addresses all of the following issues:

1. Access by minors to inappropriate matter on the Internet.
1. Internet access through the school is to be used for instruction, research, and school administration. School access is not to be used for private business or personal, non-work-related communications.
1. The Internet is accessed through assigned user id and password only. Access is not permitted through the use of anonymous proxy sites or sites that permit access to restricted sites via means of a VPN service.
1. The safety and security of minors when using email, chat, and other forms of direct electronic communications.
1. Unauthorized access including "hacking" and other unlawful activities by minors online

RESTRICTED ACCESS TO MATERIALS HARMFUL TO MINORS

Measures designed to restrict minors' access to materials harmful to minors. To manage the student or staff member, who is determined to occasionally be tempted to violate acceptable use policies, certain deterrents can be put in place:

1. Certain network management software packages allow the systems administrator to view or intervene and "take over" a user's screen. These packages are designed for problem diagnosis, to troubleshoot network problems, and to support help desk activities. Although they are not designed to scan network activity for inappropriate use, the District may decide to use them for that purpose on an as needed basis. Regardless, if the user is informed that such scanning is feasible that fact alone may deter inappropriate use.
1. With implementation of web filtering services, schools should familiarize parents, students, faculty, and staff with the information contained in web filter logs. The fact that these logs contain detailed information about each Internet access, which can be traced to the individual user usually, serves as a powerful deterrent.

Access to Electronic Media

EDUCATION PROCESS

1. All students will have access to the I-SAFE Gold Curriculum for a comprehensive approach to online safety. K-12 students will be exposed to a variety of topics including digital literacy, cyber citizenship, identity protection/reputation, cell phones/texting, cyber security and predator identification. All students will learn online safety, security and responsibility.
1. The curriculum will be implemented through a tiered approach. The School Technology Coordinator will receive comprehensive training on the implementation and management of the I-SAFE Gold Curriculum. The STC and School Leadership will then design an implementation model that best suits the needs of the school and ensures that all students receive training in all features of this program.
1. Assessment and reporting features of the I-SAFE program will be conducted at the school level from which school and District administrators can monitor the implementation of the program.
1. Implementation of this program is a mandate of the FCC Child Internet Protection Act (CIPA), Senate Bill 230, and Schools and Libraries E-RATE discount grant as well as other state and local policies. I-SAFE reports will track educators' usage of the curriculum in their classrooms and will provide valuable documentation for compliance audits.

VIDEO, AUDIO, AND MEDIA PRESENTATIONS

On occasion, it may be necessary for school administration to provide video/audio presentation containing visual representations and/or sound recordings of student/staff for public viewing. The means may include news media, public television, newsletters, radio, training videos, school internet web pages, social media, and other related school and or District projects to be used for instruction, research, and school administration.

By signing the agreement and/or parent permission form, the student or staff member has agreed to allow identification and or publication of their name, photographic or video image and/or voice for purposes of recognition, celebration, and other school or District related events.

TELECOMMUNICATION DEVICES

A personal telecommunications device is defined as a device that emits an audible signal, vibrates, displays a message, takes a picture, causes a disruption of the learning environment, or otherwise summons or delivers a communication to the possessor, including but not limited to a cellular telephone, mp3 player, iPad or iPod, or tablet PC.

Acceptable use for any personal telecommunications device shall be for instructional purposes only with the approval and supervision of school staff. Otherwise, students shall keep personal telecommunications devices out of sight and shall not activate nor use such devices either during the instructional day or while attending or participating in school related activities held during the instructional day.

For these purposes, the instructional day shall be defined as the first bell of the day through the last bell of the day. The Board does acknowledge the authority of the school council to alter this definition to better serve the needs of individual schools.

Access to Electronic Media

TELECOMMUNICATION DEVICES (CONTINUED)

Students shall not use personal telecommunication devices and other related electronic devices, in a manner that disrupt the educational process, including, but not limited to, use that:

1. Poses a threat to academic integrity, such as cheating;
1. Violates confidentiality or privacy rights of another individual;
1. Is profane, indecent, or obscene;
1. Constitutes or promotes illegal activity or activity in violation of school rules, or violates the District's Acceptable Use Policy or Student Code of Conduct;
1. Constitutes or promotes sending, sharing, or possessing sexually explicit messages, photographs, or images using any electronic device.

Device contents, while generally private, may be searched under certain circumstances including, but not limited to, reasonable suspicion of threat of safety, violation of confidentiality, or privacy rights of another individual, and may result in a report being made to law enforcement.

Upon violation of this policy, students are subject to discipline as outlined in the Student Handbook and Code of Conduct. Floyd County Schools shall not be responsible for the loss, damage, or theft of any personal telecommunications device.

Any form of VPN (Virtual Private Network) found to be in use on a personal telecommunication device in the effort to bypass the District's web filtering service can result in that device being banned or "blacklisted" from accessing the District's network and Internet service without prior notice.

TELEPHONE AND OTHER VOICE SYSTEMS

The District, in compliance with KERA, has installed Voice Systems (Telephones) in all schools. Every classroom is equipped with a handset and voice port connected to the school voice system. The District also has issued cellular phone to appropriate staff.

1. The school, classroom, and cellular telephones are designed to aid and support the educational instructional process and should not be used for personal, public, private or commercial purposes. To protect the instructional process, student and staff, no telephone calls from outside the school shall go directly into the classroom.
1. All SBDM will adopt policies and develop specific procedures on how the school will address telephone calls or messages (voice mail, secretary messages, etc.) to and from the classroom including student/staff use of cell phone and text messaging during school hours of operation
1. All SBDM will adopt policies and develop specific procedures for student use of voice (telephone) systems and cell phone use and text messaging.

PREPARATION OF EDUCATORS

Teachers and others whose duties include classroom management and/or student supervision should be provided with guidance on detecting, deterring, and documenting inappropriate use, on safe-guarding personal privacy, and on dealing with unsolicited online contact as a school safety issue.

Access to Electronic Media

RESPONSIBILITY OF USE

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care.

Individuals bringing privately or personally owned computer/software/peripherals into the Floyd County School System, it shall be the responsibility of the owner for its transportation to and from and for its security while on school property.

Floyd County School System will not be liable for damages, loss, theft, or vandalism of such equipment.

DETERRENTS

To manage the student or staff member, who is determined or occasionally tempted to violate acceptable use policies, certain deterrents can be put in place:

Certain network management software packages allow the systems administrator to view or intervene and "take over" a user's screen. These packages are designed for problem diagnosis, to troubleshoot network problems, and to support help desk activities. Although they are not designed to scan network activity for inappropriate use, the District may decide to use them for that purpose on an as needed basis. Regardless, if the user is informed that such scanning is feasible that fact alone may deter inappropriate use. With implementation of web filtering services, schools should familiarize parents, students, faculty, and staff with the information contained in web filter logs. The fact that these logs contain detailed information about each Internet access, which can be traced to the individual user usually, serves as a powerful deterrent.

DISCIPLINARY ACTIONS AND OTHER CONSEQUENCES

All users and all parents will be informed of the consequences of violating appropriate use policies. Consequences will be conveyed via Code of Conduct user agreement and during initial training. Generally, the consequences will be one or more of the following:

- 1. — Loss of access
- 1. — Disciplinary action (Code of Conduct)
- 1. — Legal action

NOTICE OF POLICY

Notice of this policy, along with the disciplinary penalties for violation, shall be published annually in the District's Student Handbook and Code of Conduct and presented publicly via means of Floyd County Board meeting.

Child Abuse**REPORT REQUIRED**

Any teacher, school administrator, or other school personnel who knows or has reasonable cause to believe that a child under age eighteen (18) is dependent, abused or neglected¹, or a victim of human trafficking, or is a victim of female genital mutilation, shall immediately make an oral or written report, including but not limited to electronic submission, to a local law enforcement agency or the Kentucky State Police, the Cabinet for Health and Family Services or its designated representative, the Commonwealth's or County Attorney in accordance with KRS 620.030.²

After making that report, the employee shall then immediately notify the Principal of the suspected abuse. If the Principal is suspected of child abuse, the employee shall notify the Superintendent/designee.

Upon notification, the Principal or the Superintendent/designee shall facilitate the cooperation of the school with the investigation of the report. Any person who knowingly causes intimidation, retaliation, or obstruction in the investigation of the report shall be guilty of a Class A misdemeanor.

Only agencies designated by law are authorized to conduct an investigation of a report of alleged child abuse. Therefore, the District shall not first investigate a claim before an employee makes a report to the proper authorities. However, in certain situations, reports involving claims made under state and federal laws, such as Title IX, shall require the District, after making the required report, to conduct an independent investigation of the allegations in order to determine appropriate personnel action.

WRITTEN REPORT

The person reporting shall, if requested, in addition to the report required above, file with the local law enforcement agency or the Kentucky State Police or the Commonwealth's or County Attorney or the Cabinet for Health and Family Services or its designated representative within forty-eight (48) hours of the original report a written report containing specific information regarding the child, the child's parents or guardians, and the person allegedly responsible for the abuse or neglect.

WRITTEN RECORDS

Copies of reports kept by the District that are submitted to authorities in compliance with the child abuse law are educational records and subject to inspection by the parents of the alleged victim of child abuse. Whether the records are considered "internal records", and not maintained with the students' "permanent records", is immaterial if such records are directly related to students and are maintained by the school or school-District.

INTERVIEWS

If the student is an alleged victim of abuse or neglect, school officials shall follow directions provided by the investigating officer or Cabinet for Health and Family Services representative as to whether to contact a parent³ and shall provide the Cabinet access to a child subject to an investigation or assessment without parental consent.⁴

Child Abuse**AGENCY CUSTODY**

If, as a result of dependency, neglect, or abuse, a child has been placed in the custody of the Cabinet, the Principal, or any Assistant Principal, of the school in which the child is enrolled, and the District's Director of Pupil Personnel shall be notified of the names of persons authorized to contact the child at school, in accordance with school visitation or communication policy, or remove the child from school grounds.

The notification shall be provided to the school by the Cabinet:

- a) By written notice via email or fax on the day that a court order is entered and again on any day that a change is made with regard to persons authorized to contact or remove the child from school. Verbal notification shall occur on the next school day immediately following the day a court order is entered or a change is made if the court order or change occurs after the end of the current school day; and
- b) By email, fax, or hand delivery of a copy of the court order within ten (10) calendar days following the Cabinet's receipt of the court order of a change of custody or change in contact or removal authority.

REQUIRED TRAINING

DEFINITION OF PERSONAL TELECOMMUNICATION DEVICES

A device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor, including but not limited to a paging device or a cellular telephone.¹

Telecommunication device does not include any device a student is authorized to use pursuant to the Individuals with Disabilities Education Act, the Americans with Disabilities Act, or the Rehabilitation Act of 1973.

Formatted: policytext

Formatted: ksba normal

Personal telecommunications device is defined as a device that emits an audible signal, vibrates, displays a message, takes a picture, causes a disruption of the learning environment, or otherwise summons or delivers a communication to the possessor, including but not limited to, a paging device, cellular telephone, MP3 player, hand held PC, or personal digital assistant.

POSSESSION AND USE

While on school property or while attending school-sponsored or school-related activities, whether on or off school property, students shall be permitted to possess personal telecommunications devices and other related electronic devices. Students are prohibited from using a personal telecommunication device during instructional time, except during an emergency, if directed to do so by a teacher for an instructional purpose, or if authorized by a teacher.

Formatted: ksba normal

Acceptable use for any personal telecommunications device will be strictly for instructional purposes with the approval of and under the supervision of school staff.

Devices shall not be used in a manner that disrupts the educational process, including, but not limited to, use that:

- a. Poses a threat to academic integrity, such as cheating;
- a-b. Accesses social media unless authorized to do so by a teacher for an instructional purpose;

This includes, but is not limited to, taking photographs, video, or audio recordings of others without the permission of the Principal/designee and the affected individual(s). An exception may be made for events considered to be in the public arena (e.g. sporting events, academic competitions, or performances to which the general public is admitted) where the activity does not materially disrupt the event, prevent others from observing the event, or otherwise violate legal rights. School social events for students, activities sponsored by student clubs, and activities during the school day that are not open to the public are not considered to be in the public arena;
- e-d. Is profane, indecent, or obscene;
- d-e. Constitutes or promotes illegal activity or activity in violation of school rules; or
- e-f. Constitutes or promotes sending, sharing, or possessing sexually explicit messages, photographs, or images using any electronic device.

Telecommunication Devices**POSSESSION AND USE (CONTINUED)**

These restrictions shall not be interpreted to prohibit material protected under the state or federal constitutions where such material does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Otherwise, personal telecommunications devices shall be kept out of sight and shall not be used, turned on, nor activated by students during the school instructional day or school-related activities held during the instructional day. For this purpose, the instructional day is defined as the first bell of the day through the last bell of the day. However, SBDM Councils may set definitions to facilitate time appropriate needs. Device contents, while generally private, may be searched under certain circumstances including, but not limited to, reasonable suspicion of threat of safety, violation of confidentiality, or privacy rights of another individual.

Upon any violation of this policy, students are subject to discipline as outlined in the Student Code of Conduct. A violation also may result in a report being made to law enforcement.

Floyd County Schools will not be responsible for loss, damage, or theft of any personal telecommunications device.

NOTICE OF POLICY

Notice of this policy and penalties for violating it shall be published annually in the District's Code of Acceptable Behavior and Discipline.
